CUKTECH AD1404US

CUKTECH 15 140W 4-Port GaN USB-C Charger Instruction Manual

Model: AD1404US

1. PRODUCT OVERVIEW

The CUKTECH 15 is a high-performance 140W GaN USB-C charger designed for efficient and fast charging of multiple devices simultaneously. It features a compact, foldable design and advanced safety mechanisms.

2. PACKAGE CONTENTS

- CUKTECH 15 140W 4-Port GaN USB-C Charger (Model: AD1404US)
- 240W USB-C to USB-C Cable (4.9 ft / 1.5 m)
- Instruction Manual

240W USB-C Cable Included

240W

3. SETUP INSTRUCTIONS

3.1 Connecting to a Power Outlet

1. Unfold the AC prongs from the charger body.
2. Insert the charger into a standard wall outlet (100-240V AC).

Compact Design

Higher Efficiency, Smaller Size

20% Smaller

Foldable Plug

*The product being compared is the Apple 140W original charger.

3.2 Connecting Devices

The CUKTECH 15 features three USB-C ports and one USB-A port. Use appropriate cables for your devices.

- For optimal fast charging, use the included 240W USB-C cable or other certified PD3.1 compatible cables.

- Connect your device's charging cable to one of the available ports on the charger.
- The charger will automatically detect the connected device and deliver the optimal charging power.

4. OPERATING INSTRUCTIONS

4.1 Single Port Fast Charging (PD3.1 140W)

When a single device is connected to a USB-C port (C1 or C2), the charger can deliver up to 140W of power, enabling ultra-fast charging for compatible laptops.

Dual-140W Fast Charging

Single USB-C Port Delivers 140W Max Fast Charge

140W MAX

MacBook Pro 16 (M3)

Approximately **30** minutes to charge to **56%**.

4.2 Multi-Device Charging

The CUKTECH 15 can charge up to four devices simultaneously. The intelligent power distribution system (CUKTECH-ADC2.0) dynamically adjusts output across ports based on connected devices' needs.

Multi-Port Fast Charging

4.3 Advanced Safety Features

The charger incorporates the CUKTECH-ADC2.0 system for enhanced safety and reliability. This system continuously monitors temperature and adjusts power distribution to ensure a secure and efficient charging experience.

- **Temperature Protection:** Prevents overheating by monitoring internal temperatures.
- **Short Circuit Protection:** Safeguards against electrical shorts.
- **Output Overcurrent Protection:** Protects devices from excessive current.
- **Low Ripple:** Ensures stable power delivery.
- **Input Overcurrent Protection:** Protects the charger from excessive input current.
- **Input Overvoltage Protection:** Shields against high input voltage.
- **Low Electromagnetic Interference:** Minimizes interference with other electronics.
- **Electrostatic Resistance:** Provides protection against electrostatic discharge.

4.4 Device Compatibility

The CUKTECH 15 is compatible with a wide range of devices supporting various fast-charging protocols (PD, PPS, QC, FCP, SCP).

- **Laptops:** MacBook Pro (16", 15", 14", 13"), MacBook Air, Dell XPS (15/13), HP Spectre, ThinkPad, Surface, and more.
- **Phones/Tablets:** iPhone 16/15 Pro/14 Pro Max/13/12 Series, Samsung Galaxy S23 Ultra/S22, iPad Pro, Pixel, and more.
- **Other Devices:** Steam Deck, Nintendo Switch, smartwatches, headphones, drones, and other USB-powered devices.

5. MAINTENANCE

- Keep the charger away from water, fire, and high temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Clean the charger with a dry, soft cloth. Do not use liquid cleaners.
- When not in use, unplug the charger from the wall outlet and fold the prongs for storage.

6. TROUBLESHOOTING

6.1 Device Not Charging

- Ensure the charger is securely plugged into a working wall outlet.
- Verify that the charging cable is properly connected to both the charger and your device.
- Try using a different charging cable to rule out cable issues.
- Test with a different device to confirm the charger is functioning.

6.2 Slow Charging

- Ensure your device and cable support fast charging protocols (PD, PPS, QC) for optimal speeds.
- When multiple devices are connected, the total power output is shared. Disconnect less critical devices to prioritize charging for a specific device.
- Check if your device's battery is near full; charging speed naturally slows down as the battery approaches 100% to protect the battery.

6.3 Charger Feels Warm

It is normal for the charger to become warm during high-power output. The CUKTECH-ADC2.0 system continuously monitors temperature to ensure it operates within safe limits. If the charger becomes excessively hot or emits smoke, immediately unplug it and contact customer support.

7. SPECIFICATIONS

Feature	Detail
Model Number	AD1404US
Product Dimensions	3.11 x 2.56 x 1.26 inches
Item Weight	11.7 ounces
Input Voltage	100-240V AC
Total USB Ports	4 (3x USB-C, 1x USB-A)
Max Output Power	140W (USB-C single port)
Output Current	5 Amps (Max)
Material	Plastic
Special Features	Fast Charging, Lightweight Design, Multi-Device Charging, Foldable Plug

8. WARRANTY AND SUPPORT

8.1 Warranty Information

The CUKTECH 15 140W 4-Port GaN USB-C Charger comes with a**24-month warranty** against manufacturing defects from the date of purchase.

8.2 Customer Support

For any inquiries, technical assistance, or warranty claims, please contact CUKTECH customer support:

- **24/7 Customer Support:** Available to assist you.
- **After-Sales Support Mailbox:** service@cuktech.com
