mooas Automatic Mini Flip Clock Instruction Manual

Brand: mooas | Model: MT-CF1

Introduction   Setup   Operation   Maintenance   Troubleshooting   Specifications   Warranty & Support

1. INTRODUCTION

Welcome to the instruction manual for your new mooas Automatic Mini Flip Clock. This retro-vintage desk clock combines classic aesthetics with modern functionality, offering time display, timer, alarm, and calendar features. Designed for ease of use and clear readability, it is an ideal addition to any home, office, school, hotel, or café environment.

2. SETUP

2.1 Unpacking and Initial Inspection

Carefully remove the clock from its packaging. Inspect the clock for any signs of damage. Ensure all components, including the main body, magnetic wooden stand, and USB Type-C cable, are present.

Image: A user's hands gently holding the mooas flip clock, demonstrating its compact size and the visible flip mechanism.

2.2 Charging the Clock

The mooas Automatic Mini Flip Clock is equipped with a built-in 2,600mAh rechargeable battery, allowing for wireless use. Before first use, or when the battery level drops below 10% (indicated by a low battery message), charge the device using the provided USB Type-C cable.

- Connect the USB Type-C cable to the charging port on the clock.
- Connect the other end of the cable to a compatible USB power adapter (not included).
- Charging Time: Approximately 5.5 to 7 hours for a full charge.
- Usage Time: Approximately 1 year on a single full charge.

2.3 Placing the Clock

Place the clock on its magnetic wooden stand. The stand provides stability and enhances the clock's aesthetic appeal. Ensure the clock is placed on a flat, stable surface.

3.1 Clock Mode Setting

To set the current time:

1. Press the **Clock button** to enter Clock mode.
2. Press the **setting dial button** to enter the setting mode.
3. Turn the dial to set the hour. The clock features an AM/PM indicator for clear distinction.
4. Press the dial button again to switch to minute setting mode.
5. Turn the dial to set the minute.

Notice

Did the Flip Number Fall Out?
During shipping, the number plates
may sometimes become detached.
In this case, gently bend the detached number plate
and insert it into both holes to reattach it properly.

3.2 Timer Mode Setting

To use the built-in timer:

1. Press the **Timer button** to enter Timer mode.
2. Press the **setting dial button** to start the countdown timer.
3. To pause the timer, press the dial button once.
4. To reset the timer, press the dial button twice.

Note: The display format changes when the countdown exceeds 30 minutes.

3.3 Alarm Mode Setting

To set an alarm:

1. Press the **Alarm button** to enter Alarm mode.
2. Press the **setting dial button** to enter the setting mode.
3. Turn the dial to set the hour, then press the dial button to enter minute setting mode.
4. Turn the dial to set the minute.
5. When the alarm rings, press any button to stop the alarm.
6. To activate the Snooze function, press the dial button twice. Snooze repeats every 9 minutes.

3.4 Calendar Mode Setting

To set the date:

1. Press the **Calendar button** to enter Calendar mode.
2. Turn the setting dial and press the button to enter the year setting mode.
3. Turn the setting dial to adjust the last two digits of the year.
4. Press the button to enter the month setting mode, then turn the dial to set the month.
5. Press the button to enter the date setting mode, then turn the dial to set the date.

Note: The first two digits of the year are fixed as "20".

4. MAINTENANCE

4.1 Cleaning

To maintain the appearance of your mooas flip clock, wipe it gently with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or internal components.

4.2 Storage

When not in use for extended periods, store the clock in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the battery is charged periodically to maintain its health.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Clock does not turn on or display time.	Battery is depleted.	Charge the clock using the provided USB Type-C cable for 5.5 to 7 hours.
Numbers are not flipping smoothly or are stuck.	Obstruction or misaligned flip number plate.	Ensure no foreign objects are obstructing the flip mechanism. If a number plate has detached, gently bend it and insert it into both holes to reattach it properly.
Alarm does not sound.	Alarm not set correctly or activated.	Verify alarm settings in Alarm Mode. Ensure the alarm is activated.
Difficulty setting time/date/alarm.	Incorrect button presses or dial turns.	Refer to the "Operation" section for detailed instructions on using the setting dial and buttons for each mode.
