2. SAFETY INFORMATION

Adherence to the following safety guidelines is crucial for preventing injury and damage to the product.

- Always assemble the desk according to the provided instructions.
- Ensure the desk is properly anchored to the floor if necessary to prevent tipping, especially when heavy objects are placed on it.
- Do not exceed the maximum weight recommendation of 350 pounds (158 kg) on the desktop.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Use the desk on a flat, stable surface.

3. PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, contact

customer support.

4. ASSEMBLY INSTRUCTIONS

Follow these general steps for assembling your Tribesigns computer desk. Refer to the specific step-by-step guide included in your package for detailed diagrams and part identification.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Identify each part using the provided parts list.
2. **Assemble the Frame:** Attach the desk legs to the main desktop panel using the designated hardware. Ensure all connections are secure but do not overtighten until the entire frame is stable.
3. **Construct Drawers:** Assemble the drawer boxes according to the instructions. Install the drawer slides onto the drawer boxes and the corresponding desk sections.
4. **Install Drawers:** Carefully insert the assembled drawers into their respective compartments. Test the smooth operation of each drawer.
5. **Attach Handles:** Securely attach the drawer handles to each drawer front.
6. **Final Adjustments:** Place the desk in its desired location. Adjust the leg pads to ensure the desk is level and stable on uneven floors.

5. OPERATING INSTRUCTIONS

The Tribesigns computer desk is designed for efficient organization and comfortable use.

5.1 Desktop Usage

The spacious 47.2" W x 22.8" D desktop surface accommodates a computer setup, monitor, keyboard, mouse, and other essential office equipment. Ensure even weight distribution to maintain stability.

5.2 Drawer Functionality

The desk features two standard storage drawers and one file cabinet drawer. These drawers are designed to open and close smoothly for easy access to your items.

- **Standard Drawers:** Ideal for storing stationery, small office supplies, and personal items.
- **File Cabinet Drawer:** Compatible with letter, legal, and A4 size folders, allowing for organized document storage.

6. MAINTENANCE

Regular cleaning and proper care will help maintain the appearance and integrity of your desk.

- **Cleaning:** Wipe the desk surfaces with a damp cloth for general cleaning. For a polished finish, follow with a dry cloth. Avoid abrasive cleaners or harsh chemicals that may damage the wood finish.
- **Spills:** Immediately wipe up any spills to prevent staining or water damage.
- **Heat and Moisture:** Avoid placing hot items directly on the desk surface. Use coasters or protective pads. Keep the desk away from excessive moisture or direct sunlight to prevent warping or fading.

- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten as needed to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common solutions:

- **Desk is Wobbly:**
 - Ensure all assembly hardware is securely tightened.
 - Adjust the leg pads on the bottom of the desk legs to level the desk on uneven flooring.
- **Drawers Do Not Close Smoothly:**
 - Check that the drawer slides are correctly installed and aligned.
 - Ensure no objects are obstructing the drawer's path or preventing full closure.
 - Verify that the drawer box itself is assembled squarely.
- **Parts Do Not Fit During Assembly:**
 - Double-check the part numbers against the instruction manual diagrams.
 - Ensure components are oriented correctly. Sometimes parts can appear similar but have subtle differences.
 - If pre-drilled holes seem misaligned or too small, ensure you are using the correct hardware for that step. Do not force parts.
