ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended to have two people for easier and safer assembly. All parts are clearly labeled. Follow the steps below carefully.

Step 1: Unpack and Identify Components

Step 2: Assemble the Main Frame

Connect the side panels to the top and bottom panels using the provided hardware (dowels, screws, and cam locks). Ensure all connections are secure and the frame is stable. Pay attention to the orientation of the panels, especially the deeper upper section designed for baseboards.

Step 3: Install Shelves

Insert the shelf pins into the pre-drilled holes at your desired height for the adjustable shelves. Place the

shelves onto the pins, ensuring they are level and secure. The fixed shelves should be installed according to the diagrams.

Step 4: Assemble Drawers

Assemble each of the four wooden drawers by connecting the side, front, and back panels. Slide the bottom panel into the grooves. Attach the metal handles to the front of each drawer. Install the drawer sliders onto the sides of the drawers and the corresponding tracks within the main frame.

Step 5: Install Anti-Tip Kits

For safety, attach the anti-tip kits to the top rear of the closet system and secure them to a wall stud using appropriate wall anchors and screws. This step is crucial to prevent accidental tipping.

OPERATING INSTRUCTIONS

Once assembled and secured, your Aheaplus YH02 Closet System is ready for use.

- **Drawers:** Gently pull the metal handles to open the drawers. Push them back in until they are fully closed. Avoid forcing drawers if they feel stiff; check for obstructions.
- **Shelves:** Place items on the open shelves. Ensure heavier items are placed on lower shelves for stability. Do not overload shelves beyond their weight capacity (approximately 100 lbs total for the unit, distribute evenly).
- **Adjustable Shelves:** To adjust shelf height, remove all items from the shelf, lift the shelf, remove the pins, reposition the pins to new holes, and then replace the shelf.

MAINTENANCE

Regular maintenance will help prolong the life of your closet system.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Due to the waterproof surface, spills can be wiped away easily. Clean immediately to prevent potential damage.
- **Hardware:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Drawer Sliders:** If drawers become stiff, a small amount of silicone-based lubricant can be applied to the sliders.
