32EQ DSP

Fine-tune your audio experience with the built-in 32-band equalizer and Digital Sound Processor (DSP).

Video: SIXTOP 8 Core CPU Android Car Stereo GPS Head Unit. This video provides an overview of the stereo's features, including the 32EQ DSP for audio customization.

Troubleshooting

- **No Power:** Check all power connections and fuses. Ensure the ignition is on.
- **No Sound:** Verify speaker connections. Check volume levels on both the stereo and your connected device. Ensure the correct audio input (e.g., AUX) is selected.
- **Bluetooth/Carplay/Android Auto Connectivity Issues:** Ensure Bluetooth is enabled on both devices. Forget and re-pair the device. Restart both the stereo and your smartphone.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Touchscreen Unresponsive:** Restart the unit. If the issue persists, perform a factory reset (refer to settings menu).

Maintenance

To ensure the longevity and optimal performance of your car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Temperature:** Avoid exposing the unit to extreme temperatures for extended periods.
- **Software Updates:** Periodically check for and install software updates to ensure the latest features and bug fixes.

Specifications

- **Brand:** electrosmart
- **Model:** Electrosmart A13Honda102
- **Operating System:** Android 13
- **Memory Storage Capacity:** 64 GB
- **Screen Size:** 10.2 Inches
