Diveblues D5001

Diveblues USB Desk Turbo Fan

MODEL: D5001

Instruction Manual

Introduction

Thank you for choosing the Diveblues USB Desk Turbo Fan D5001. This ultra-quiet mini desk fan is designed to provide powerful and customizable airflow for your home, office, or outdoor activities. Featuring a 5-speed adjustable wind, 360° rotation, and a convenient LED display, it offers instant cooling relief. Please read this manual carefully before use to ensure proper operation and maintenance.

Product Overview

The Diveblues D5001 Turbo Fan delivers strong air circulation with up to 6m/s wind power, ensuring rapid cooling. Its compact design and USB power source make it highly portable and versatile.

Strong Power. Great air circulation

2025 Newly upgraded desktop turbo high-speed fan with
100% more wind power

Setup

1. **Unboxing:** Carefully remove the fan and all accessories from the packaging.
2. **Placement:** Place the fan on a stable, flat surface. Ensure there are no obstructions to the airflow.
3. **Power Connection:** Connect the USB cable to the fan's power input port. Plug the other end into a compatible USB power source such as a USB adapter, laptop, power bank, or car charger. The fan is USB-powered for ultimate convenience.

Adjustable 5 Turbo Winds At Your Choice

Tailor your comfort with 5 adjustable settings, enjoy the perfect breeze!

	3.5_{m/s} Quiet 2200 RPM
	4_{m/s} Low 2700 RPM
	4.5_{m/s} Medium 3200 RPM
	5_{m/s} High 3800 RPM
	6_{m/s} Turbo 4500 RPM

Operating Instructions

1. **Power On/Off:** Press the power button located on the front of the fan to turn it on or off. The LED display will illuminate when the fan is active.
2. **Adjusting Fan Speed:** The fan features 5 adjustable wind speeds. Press the power button repeatedly to cycle through the speed settings (1 to 5). The LED display will show the current speed level.
3. **Adjusting Airflow Direction:** The fan head can be manually rotated 360° vertically to direct the airflow precisely where needed. Gently adjust the fan head to your desired angle.

360° Rotatable. Cooling face instantly

Maintenance

To ensure the longevity and optimal performance of your Diveblues USB Desk Turbo Fan, follow these maintenance guidelines:

- **Cleaning:** Disconnect the fan from its power source before cleaning. Use a soft, dry cloth to wipe the exterior of the fan. For dust accumulation on the fan blades or grille, use a soft brush or compressed air. Do not use abrasive cleaners or immerse the fan in water.
- **Storage:** When not in use for extended periods, store the fan in a cool, dry place, away from direct

sunlight and moisture.

- **Safety:** Do not attempt to disassemble or repair the fan yourself. Refer all servicing to qualified personnel. Keep fingers and other objects away from the fan blades during operation.

Troubleshooting

Problem	Possible Cause	Solution
Fan does not turn on	No power supply or loose connection	Ensure the USB cable is securely connected to both the fan and the power source. Try a different USB port or power adapter.
Weak airflow	Fan speed set too low or obstructions	Increase the fan speed using the power button. Check for any objects blocking the fan's intake or output.
Unusual noise during operation	Fan not on a stable surface or internal obstruction	Place the fan on a flat, stable surface. Check for any foreign objects inside the fan grille (ensure power is off before checking).
LED display not working	Minor electrical issue	Disconnect and reconnect the power. If the issue persists, contact customer support.

Specifications

Feature	Detail
