FIONESO Bathroom Cabinet System User Manual

Model: B0DSZTLP5G

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your FIONESO Bathroom Cabinet System. Please read this manual thoroughly before beginning assembly or use to ensure proper installation and safe operation. Keep this manual for future reference.

PRODUCT OVERVIEW

The FIONESO Bathroom Cabinet system includes two primary units: a 67.1-inch tall floor-standing storage cabinet and a wall-mounted bathroom cabinet with barn doors. Both units are designed to provide additional storage in bathroom environments.

Key Features:

- **Tall Storage Cabinet:** 67.1 inches high, featuring 6 hidden shelves and a drawer. Dimensions are 14.6"L x 11.2"D

at the base. Constructed from P2 grade MDF with a white finish. Includes an anti-toppling mechanism for safety.

- **Wall-Mounted Cabinet:** Features barn-style doors and an open shelf below. Made from high-grade MDF and particle board, designed to be waterproof and moisture-resistant.
- **Adjustable Shelves:** Both cabinets feature adjustable shelves to accommodate items of various heights.
- **Magnetic Doors:** Doors are equipped with magnetic catches for secure closure.

Ample Storage Space

Adjustable Shelves

Adjusting the board according to the height of the object, or removing the board to get a higher space.

The Middle Drawer

Moderate height, easy to open the drawer, you can put some miscellaneous things in it.

2 Door Cabinets

2 door cabinets with 6 storage spaces provide room for your belongings and ensure privacy and security.

SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Always follow assembly instructions carefully.
- Ensure all hardware is securely tightened before use.
- For the tall storage cabinet, install the anti-toppling mechanism as instructed to prevent accidental tipping.
- Do not overload shelves or drawers. Distribute weight evenly.
- Keep small parts away from children during assembly.
- The wall-mounted cabinet must be securely fastened to wall studs or appropriate anchors. Consult a professional if unsure about wall mounting.

SETUP AND ASSEMBLY

Both cabinets require assembly. It is recommended to have two people for assembly to ensure stability and ease of handling. A detailed instruction manual with diagrams is included in the product packaging. Please refer to that document for step-by-step assembly instructions.

Tools Required (Not Included):

- Phillips Head Screwdriver
- Hammer (for dowels)
- Drill (for wall mounting the wall cabinet)
- Level
- Measuring Tape

General Assembly Tips:

- Unpack all components and verify against the parts list provided in the separate assembly guide.
- Assemble on a soft, clean surface to prevent scratching.
- Do not overtighten screws, as this can damage the material.
- For the tall cabinet, ensure the anti-toppling device is securely attached to a wall stud.
- For the wall cabinet, mark and pre-drill holes before mounting to the wall. Ensure it is level and securely anchored.

OPERATION AND USE

Once assembled and securely installed, your FIONESO Bathroom Cabinets are ready for use.

Adjusting Shelves:

1. Empty the shelf you wish to adjust.
2. Remove the shelf pins from their current holes.
3. Insert the shelf pins into the desired new holes, ensuring they are level.
4. Place the shelf onto the pins.

Ample Storage Space

CARE AND MAINTENANCE

Proper care will extend the life and appearance of your FIONESO Bathroom Cabinets.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Moisture:** While the cabinets are moisture-resistant, prolonged exposure to excessive moisture should be avoided. Wipe up spills immediately.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Anti-Toppling Device:** Regularly inspect the anti-toppling mechanism for the tall cabinet to ensure it is still securely attached to the wall and the cabinet.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cabinet feels wobbly after assembly.	Screws are not fully tightened; cabinet is not level; anti-toppling device not installed or loose.	Ensure all screws are tightened. Check if the cabinet is on a level surface. Install or re-secure the anti-toppling device to a wall stud.
Doors do not close properly or are misaligned.	Hinges are loose or improperly adjusted.	Tighten hinge screws. Adjust hinges as per the assembly guide to align doors.
Drawer sticks or does not slide smoothly.	Drawer slides are misaligned or obstructed.	Check that the drawer slides are correctly installed and free of debris. Ensure the drawer is assembled squarely.
Wall cabinet appears loose on the wall.	Improper wall anchors or not secured to studs.	Immediately remove items from the cabinet. Re-mount the cabinet using appropriate wall anchors and ensure it is secured into wall studs. Consult a professional if necessary.
