MAINTENANCE

1. Cleaning

Regularly clean the earbuds and charging case to maintain optimal performance. Use a soft, dry, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid using abrasive materials, solvents, or harsh chemicals.

2. Water Resistance

The earbuds have an IPX5 water resistance rating, meaning they are protected against low-pressure water jets from any direction. This makes them suitable for use during workouts or in light rain. Do not submerge the earbuds in water or expose them to high-pressure water streams.

3. Storage

When not in use, store the earbuds in their charging case to protect them from dust, damage, and to keep them charged. Store the device in a cool, dry place away from extreme temperatures and direct sunlight.
