GOOLOO A2

GOOLOO A2 8-in-1 Jump Starter with Air Compressor User Manual

MODEL: A2

Product Overview

The GOOLOO A2 is a versatile 8-in-1 roadside emergency tool designed for drivers. It combines a powerful car jump starter, a cordless tire inflator, a multi-mode LED light, and a power bank into one compact device. This unit ensures you are prepared for unexpected situations on the road, from dead batteries to low tire pressure.

Product Dimensions:	4.84"D x 1.97"W x 6.54"H
Item Weight:	2.8 Pounds
Peak Output Current:	2500 Amps
Amperage:	2500 Amps
Battery Capacity:	37Wh
Starting Current:	400A

USB-C Input:	5V/2A
USB-A Output:	5V/2.1A
Country of Origin:	China

Safety Information

- Always read the user manual completely before first use.
- Do not short-circuit the jumper clamps.
- Do not expose the unit to extreme temperatures outside of -20°C to 60°C.
- Keep out of reach of children.
- Ensure proper polarity connection before jump starting.
- Do not attempt to jump start a frozen or damaged battery.
- Remove jumper cables from the vehicle battery within 30 seconds after the vehicle starts.

Setup

Charging the GOOLOO A2:

Before first use, fully charge the GOOLOO A2 using the provided USB-A to USB-C cable. The LED display will indicate the battery level during charging. A full charge ensures optimal performance.

Operating Instructions

1. Jump Starting a Vehicle:

1. Ensure the GOOLOO A2 has at least 2 bars of battery power.
2. Insert the blue end of the smart jumper cable into the jump starter socket on the GOOLOO A2.
3. Connect the red clamp to the positive (+) terminal of the vehicle battery and the black clamp to the negative (-) terminal. The smart jumper cable will indicate a correct connection with a green light.
4. Start your car engine.
5. Once the vehicle has started, remove the jumper cables from the vehicle battery within 30 seconds.

2. Using the Air Compressor:

1. Attach the air hose to the unit's air output port and tighten it.
2. Connect the appropriate air nozzle to the item you wish to inflate (tire, ball, etc.).
3. Press and hold the power button to turn on the unit. Press the 'Setting' button to choose the inflation mode (car, motorcycle, bicycle, ball).
4. Use the '+' or '-' buttons to adjust the desired PSI.
5. Short press the power button to start inflation. The unit will automatically shut off when the preset pressure is reached.

Maintenance

- Store the unit in its carrying bag in a cool, dry place.
- Recharge the unit every 3-6 months to maintain battery health, even if not used.
- Clean the unit with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Keep the air output port free from dust and debris.

Troubleshooting

Unit not turning on:

- Ensure the unit is charged. If the battery level is low, recharge it fully.
- Press and hold the power button for a few seconds to turn it on.

Vehicle not jump starting:

- Check that the jumper clamps are connected correctly to the battery terminals (red to positive, black to negative).
- Ensure the smart jumper cable is fully inserted into the jump starter socket.
- If the vehicle battery is completely dead, use the "BOOST" function on the smart jumper cable (refer to the quick start guide for details).

Air compressor not inflating:

- Verify the air hose and nozzle are securely attached.
- Check the selected inflation mode and preset PSI.
- Ensure the unit has sufficient battery power.

Warranty & Support

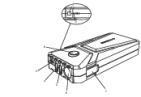

The GOOLOO A2 comes with an 18-month warranty from the date of purchase. For warranty claims, technical support, or any inquiries, please contact GOOLOO customer service.

Contact information can be found in the included user manual or on the official GOOLOO website.
