OPERATING INSTRUCTIONS

Making and Receiving Calls

Once connected, your device should automatically recognize the handset as an external audio input and output device.

1. **To make a call:** Dial the number on your smartphone or computer as you normally would. The audio will be automatically routed through the Retro Phone Handset.
2. **To receive a call:** Answer the incoming call on your smartphone or computer. The audio will automatically transfer to the handset.
3. Speak into the microphone end of the handset and listen through the earpiece, just like a traditional telephone.

Volume Control

The volume of the call is controlled directly on your connected smartphone or computer. Adjust your device's volume settings to your preferred listening level.

MAINTENANCE AND CARE

- **Cleaning:** Keep the handset clean by wiping it gently with a soft, dry cloth. Do not use harsh chemicals, abrasive cleaners, or excessive moisture.
- **Storage:** Store the handset in a dry place, away from direct sunlight and extreme temperatures, when not in use.
- **Cord Care:** Handle the coiled cord gently to prevent kinks or damage. Avoid excessive stretching or pulling.
- **Avoid Drops:** Protect the handset from drops and impacts, which can damage internal components.
