FLEXISPOT BF21Q Queen Adjustable Bed Frame User Manual

Model: BF21Q | Brand: FLEXISPOT

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your FLEXISPOT BF21Q Queen Adjustable Bed Frame. Please read this manual thoroughly before assembly and use to ensure safe and proper operation of the product.

2. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Exercise caution during assembly due to potential sharp edges and heavy components. It is recommended that two people assemble this product.
- Be aware of the hidden bed legs to prevent accidental tripping or collision.
- Use the adjustable head incline feature with care to avoid discomfort or injury. Ensure no obstructions are present when adjusting.
- Follow all instructions for the safe use of the LED lights and charging station to prevent electrical hazards. Do not overload the charging ports.
- Ensure all electrical connections are secure and properly grounded.
- Keep children and pets away from moving parts during operation.
- Do not attempt to modify the bed frame or its electrical components.
- The maximum weight capacity for this bed frame is 600 pounds. Do not exceed this limit.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. The package should include:

- Bed Frame components (steel frame, slats)
- Storage Headboard with integrated Charging Station

- RGB LED Light strip
- Two Fabric Storage Drawers
- Remote Control for adjustable head and LED lights
- Assembly hardware and tools (if provided)
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly of the FLEXISPOT BF21Q bed frame requires careful attention to detail. It is recommended to have two people for assembly due to the weight and size of components. Follow the step-by-step instructions provided in the separate assembly guide included with your product. Ensure all electrical wiring is connected correctly as per the guide.

5.3 RGB LED Light

The bed frame is equipped with an RGB LED light strip. Control the color, brightness, mode, and timing functions using the included remote control or a compatible mobile application.

5.4 Storage Drawers

Two fabric storage drawers are located at the foot of the bed frame. These drawers provide additional space for storing clothing or other essentials. Ensure the drawers are properly aligned and secured when closed.

AMPLE STORAGE SPACE

Figure 5.3: Under-Bed Storage Drawers. This image shows the two spacious fabric drawers, illustrating their capacity for organizing personal belongings.

5.5 Hidden Bed Legs

The bed legs are designed to retract inward by five centimeters on both sides. This feature is intended to reduce the risk of accidental collisions with the bed's legs.

THOUGHTFUL DESIGN

6. MAINTENANCE

- **Cleaning the Frame:** Wipe the steel frame with a damp cloth and mild detergent. Avoid abrasive cleaners.
- **Cleaning Fabric Components:** For the headboard and storage drawers, spot clean with a fabric cleaner as needed. Test on an inconspicuous area first.
- **Electrical Components:** Ensure all power cords are free from damage. Do not expose the charging station or LED lights to moisture.
- **Motor Care:** The whisper-quiet motor is designed for durability. Avoid placing excessive weight on the adjustable head section when operating.
- **Noise Reduction:** The mute pad minimizes noise from friction between the frame and slats. Periodically check for any loose connections that might cause noise.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Adjustable head does not move.	Power cord disconnected. Remote control battery low or faulty. Motor malfunction.	Check if the power cord is securely plugged into a working outlet. Replace remote control batteries. Ensure all motor connections are secure. If the issue persists, contact customer support.
LED lights not working.	Power connection loose. Remote control issue. LED strip damage.	Verify LED light strip is properly connected to its power source. Check remote control batteries or try the mobile app if applicable. If damaged, contact customer support.
Charging station not providing power.	Bed frame not plugged in. Device cable faulty. Overload protection activated.	Ensure the bed frame's main power is connected. Try a different charging cable or device. Unplug devices, wait a few minutes, then try again. Avoid overloading.
Bed frame is noisy.	Loose bolts or connections. Friction between slats and frame.	Check and tighten all assembly bolts. Ensure mute pads are correctly positioned between slats and frame.
