SETUP AND ASSEMBLY

Assembly of the Smoby Life Mud Kitchen is designed to be straightforward. Follow these steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all listed components are present.
2. **Assemble Main Structure:** Connect the main worktop to the support legs. Ensure all connections are secure.
3. **Attach Pediment and Bins:** Secure the pediment (back panel) to the main structure. Attach the small bins to the designated hanging points on the pediment or other parts of the structure.
4. **Place Accessories:** Position the 11 accessories, such as the removable trays, pot, ladle, and sieve, in their respective places on the kitchen.

No complex tools are typically required for assembly. Refer to the included graphical instructions for detailed visual

guidance if available.

OPERATING INSTRUCTIONS

The Smoby Life Mud Kitchen encourages imaginative and sensory play. Here's how to maximize the play experience:

1. **Gather Natural Elements:** Use the provided basket, shovel, and rake to collect natural materials like sand, soil, leaves, flowers, or small pebbles from your garden or outdoor area.
2. **Organize Ingredients:** Utilize the three small bins to sort and organize your collected "ingredients." These bins can be hung on the pediment or other parts of the kitchen structure.
3. **Prepare Dishes:** Use the main worktop, which includes two large removable trays, for mixing and preparing your mud creations.
4. **Water Supply:** Fill the 1-liter water tank with water to enable realistic mixing and pouring activities.
5. **Cooking Area:** The kitchen features a dedicated cooking area. The lid can be positioned on this area or on one of the large bins to expand the workspace or store accessories.
6. **Utilize Accessories:** Employ the pot, ladle, and pestle to vary preparations and mimic real cooking. The sieve can be used to sort materials or as a frame for displaying flowers.

MAINTENANCE

To ensure the longevity and hygiene of your Smoby Life Mud Kitchen, follow these maintenance guidelines:

- **Cleaning:** The kitchen is made from recycled plastic and is designed for easy cleaning. Simply hose down the entire unit with water after use to remove mud, sand, and debris. Mild soap can be used for stubborn dirt.
- **Drying:** Allow the kitchen to air dry completely before storing, especially if storing indoors, to prevent mold or mildew.
- **Inspection:** Periodically check all parts for wear and tear, cracks, or loose connections. Tighten any loose fasteners.
- **Storage:** While resistant to external conditions, storing the kitchen in a sheltered area during extreme weather or prolonged periods of non-use can extend its lifespan.

TROUBLESHOOTING
