SAFETY INFORMATION

Please observe the following safety guidelines to ensure safe use and prevent damage to the product or injury.

- Always assemble the desk according to the provided instructions.
- Ensure the desk is properly anchored to the wall or floor if necessary, especially when using the L-shaped configuration, to prevent tipping.
- Exercise caution when using the built-in power outlets and USB ports to prevent electrical hazards.
- Keep the desk and all power cords away from heat sources and liquids.
- Always unplug the desk from the power source when not in use or when leaving the room for extended periods.
- Do not overload the power outlets. Refer to the specifications for maximum load.

ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Please follow the detailed, illustrated instructions included in your package. All parts are pre-labeled for ease of identification.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare them against the parts list in the included manual to ensure everything is present.
2. **Assemble the Frame:** Begin by attaching the metal frame components as instructed. Ensure all screws are tightened securely but do not overtighten until the desk is fully assembled.
3. **Attach Desk Panels:** Secure the main desktop and L-extension panels to the assembled frame.
4. **Install Shelves and Accessories:** Attach the hutch shelves, CPU stand, storage bag, and headphone hook as per the manual. Note that the hutch is reversible and can be installed on either the left or right side.
5. **Integrate Power Outlet and LED Lights:** Install the built-in power outlet unit and attach the LED light strip. Connect the power cord.
6. **Final Adjustments:** Once fully assembled, gently tighten all screws. Adjust the foot pads to ensure the desk is stable and level on your floor.

OPERATING INSTRUCTIONS

Using the Built-in Charging Station

The desk features an integrated power strip with 3 standard AC outlets and 2 USB ports. To use:

1. Ensure the desk's main power cord is securely plugged into a functional wall outlet.
2. Plug your devices into the AC outlets or USB ports as needed.
3. Avoid exceeding the maximum electrical load specified in the 'Specifications' section.

Controlling the LED Lights

The LED light strip is controlled via an inline controller. To operate:

1. Ensure the LED strip is properly connected to its power source and the desk's main power is on.
2. Use the buttons on the controller to:
 - Turn the lights On/Off.
 - Cycle through 10 static colors.
 - Adjust brightness (8 grades).
 - Select from 10 dynamic modes.
3. The memory function will recall your last setting when the lights are turned back on.

Adjusting the Reversible Design

The L-shaped configuration of the desk is reversible. To change the orientation of the hutch:

- Carefully disassemble the hutch section from the main desk according to the assembly manual.
- Reassemble the hutch on the opposite side of the main desk, ensuring all connections are secure.
- Refer to the assembly instructions for detailed steps on reversing the configuration.

MAINTENANCE

Regular maintenance helps prolong the life and appearance of your desk.

- Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- Dusting:** Regularly dust all surfaces, including the LED strip and power outlets, to prevent accumulation.
- Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary to maintain stability.
- Cable Management:** Keep cables organized and untangled to prevent damage and ensure safety.

TROUBLESHOOTING

If you encounter issues with your Casaottima Gaming Desk, refer to the following common solutions:

Problem	Possible Cause	Solution
Desk is wobbly	Uneven floor; loose connections	Adjust the foot pads on the bottom of the desk legs until stable. Check and tighten all assembly screws.
LED lights not working	Power not connected; faulty connection; controller issue	Ensure the desk's main power cord is plugged in. Check that the LED strip is securely connected to its power source and controller. Try pressing the power button on the LED controller.
Power outlets/USB ports not working	Desk not plugged in; circuit overload; faulty unit	Verify the desk's main power cord is securely plugged into a live wall outlet. Unplug some devices to check for overload. If the issue persists, contact customer support.
Missing parts during assembly	Packaging error	Carefully re-check all packaging materials. If still missing, contact Casaottima customer support with your purchase details.
