Trucozie T554

Trucozie T554 Air Purifier Replacement Filter and Washable Pre-Filters Instruction Manual

Model: T554

Introduction

This manual provides essential information for the proper installation, maintenance, and operation of your Trucozie T554 Air Purifier Replacement Filter and Washable Pre-Filters. These filters are designed to maintain the performance of your Trucozie T554 Air Purifier.
The three-stage filtration system, including the washable pre-filter, H13 HEPA filter, and activated carbon filter, is engineered to capture particles such as smoke, pollen, pet dander, and hair with up to 99.97% efficiency. Regular cleaning of the pre-filter can extend the lifespan of the H13 HEPA filter, contributing to cost savings.

What's in the Box

Your package includes the following components:

- 2 H13 HEPA Filters
- 6 Washable Pre-Filters

Filter Installation (Replacement)

Follow these steps to replace the filters in your Trucozie T554 Air Purifier:

1. **Power Off:** Before beginning any filter replacement, ensure the air purifier is turned off and unplugged from the power outlet.
2. **Remove Old Filters:** Open the filter compartment cover of your air purifier. Carefully remove the used pre-filter and the H13 HEPA filter.
3. **Insert New Filters:** Place the new H13 HEPA filter into the designated slot, ensuring it is oriented correctly. Then, insert a new washable pre-filter on top of the HEPA filter.
4. **Close Cover:** Securely close the filter compartment cover.

Operating: Filter Indicator Reset

After replacing the filter, it is necessary to reset the filter indicator light on your air purifier:

1. **Power On:** Plug in the air purifier and turn on the power.
2. **Reset Button:** Locate the filter button on the control panel.
3. **Hold to Reset:** Press and hold the filter button for 5 seconds. You will hear three beeps, indicating that the filter indicator light has been successfully reset.

Maintenance: Washable Pre-Filter Cleaning

The washable pre-filter can be cleaned to extend the life of the H13 HEPA filter. The frequency of cleaning depends on your usage and environment.

Cleaning Instructions:

1. **Remove Pre-Filter:** Turn off and unplug the air purifier. Open the filter compartment and carefully remove only the washable pre-filter.
2. **Clean:** You can clean the pre-filter using either water or a vacuum cleaner.
    - **Water Cleaning:** Rinse the pre-filter under running water until clean. Ensure all debris is removed.
    - **Vacuum Cleaning:** Use a vacuum cleaner with a brush attachment to remove accumulated dust and pet hair from the pre-filter surface.
3. **Dry (if washed):** If cleaned with water, allow the pre-filter to air dry completely before reinserting it into the air purifier. Do not use heat to dry.
4. **Reinstall:** Once dry, place the clean pre-filter back into the air purifier, ensuring it is properly seated.

Saving Cost Washable Pre-Filter

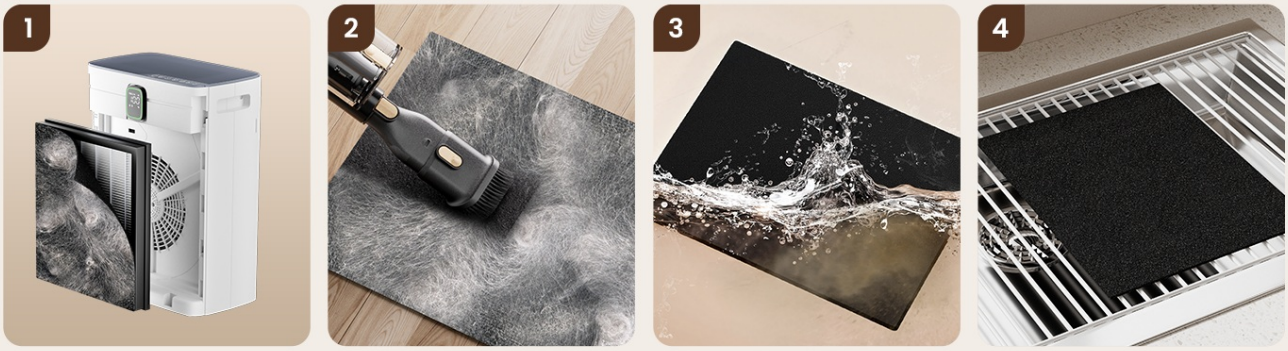

Washable Pre-Filter can be cleaned with water or a vacuum cleaner
Its recyclability helps you save costs effectively

Troubleshooting

- **Filter Indicator Light Not Resetting:** Ensure the air purifier is powered on and you are pressing and holding the filter button for the full 5 seconds until three beeps are heard. If the issue persists, ensure the new filter is correctly installed.
- **Reduced Airflow or Odor:** This may indicate that the filters are heavily soiled and require replacement or the pre-filter needs cleaning. The specific replacement time for the H13 HEPA filter depends on usage and environmental conditions.

Specifications

Brand	Trucozie
Model Info	T554
Item Weight	1.21 pounds
Product Dimensions	8 x 10 x 1.5 inches
Material Type	Carbon Fiber
Compatible Device	Air Purifier (Trucozie T554)
Included Components	2 H13 HEPA Filters, 6 Washable Pre-Filters
