Vaczon VCZ008BK

Vaczon 52-inch Black Ceiling Fan with Light and Remote/App

MODEL: VCZ008BK

User Manual

Introduction

Thank you for choosing the Vaczon 52-inch Black Ceiling Fan with Light and Remote/App. This manual provides essential information for the safe installation, operation, and maintenance of your new ceiling fan. Please read these instructions thoroughly before beginning installation or use, and retain them for future reference.

This ceiling fan features advanced LED lighting with adjustable color temperatures and stepless dimming, a quiet and efficient DC motor with 6 reversible speeds, and convenient control via remote or a mobile application. It is designed for both indoor and covered outdoor use, enhancing comfort and ambiance in various living spaces.

Important Safety Information

WARNING: To reduce the risk of fire, electric shock, or personal injury, always turn off the main power supply at the circuit breaker before installation, removal, or maintenance.

CAUTION: All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.

- Ensure the installation site can support the fan's weight.
- Do not connect the fan to a dimmer switch.
- Maintain a minimum clearance of 7 feet from the floor to the fan blades.
- Do not operate the fan if any part is damaged.

Setup and Installation

The Vaczon 52-inch ceiling fan is designed for straightforward installation. Please follow the steps below carefully. For visual guidance, refer to the included video tutorial.

1. Unpacking and Parts Identification

Carefully remove all components from the packaging. Verify that all parts listed in the packing list are present and undamaged.

From Gentle to Strong Ultimate Comfort

Image 1: All components of the Vaczon 52-inch ceiling fan laid out for inspection, including motor, blades, light kit, downrods, and mounting hardware.

2. Assembling the Ceiling Bracket

Secure the ceiling bracket to your ceiling junction box. Ensure it is firmly attached to a structural support capable of holding the fan's weight.

Operating Instructions

Your Vaczon ceiling fan offers versatile control options and features to optimize your comfort.

1. Remote and App Control

Control your fan effortlessly using the included remote control or the dedicated mobile application. Both allow you to adjust fan speed, light brightness, and set timers.

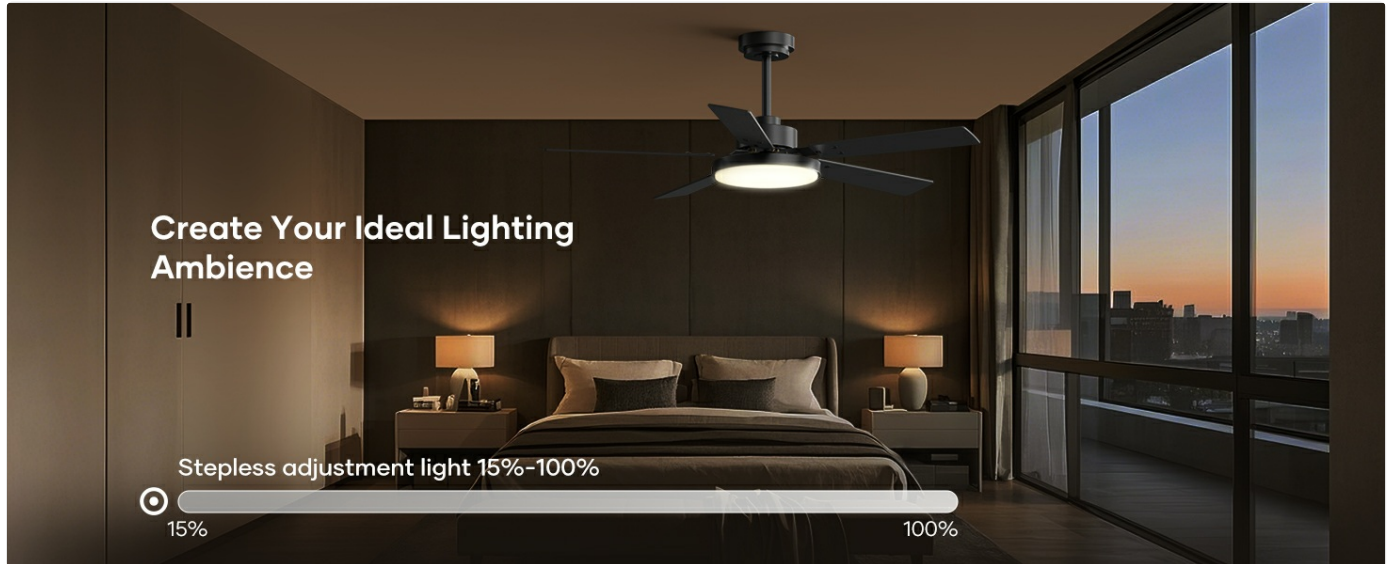

Image 8: The remote control and a smartphone screen displaying the mobile application interface for controlling the fan and light functions.

2. Fan Speed and Airflow

The fan features 6 adjustable speeds, providing a powerful airflow of up to 3884 CFM. Select your desired speed for optimal comfort.

Image 9: A visual representation of the fan's strong airflow, indicating its effectiveness in circulating air within a room.

3. Reversible Motor for Seasonal Use

Utilize the reversible motor function to optimize air circulation throughout the year. In summer, the downward airflow

creates a cooling effect. In winter, the upward airflow helps distribute warm air evenly.

Image 10: Illustration demonstrating the fan's reversible mode, showing downward airflow for cooling in summer and upward airflow for warming in winter.

4. Advanced LED Lighting

The integrated 24W LED light offers 3 adjustable color temperatures (3000K warm white, 4200K neutral white, 6500K cool white) and stepless dimming from 15% to 100%. This eye-care LED is designed to protect your eyes from blue light and flickering.

Image 11: Display of the fan's LED light at three distinct color temperatures: 3000K (warm), 4200K (neutral), and 6500K (cool).

5. Operational Features Video

Explore the various operational features of your Vaczon ceiling fan, including speed adjustments, lighting modes, and more, in this informative video:

Maintenance

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Tightening:** Check all screws and connections annually to ensure they are secure. Loose connections can cause noise or wobble.
- **Blade Balance:** If the fan wobbles, ensure all blades are securely attached and balanced. A balancing kit (not included) can be used if necessary.

Troubleshooting

If you encounter issues with your fan, refer to the following common troubleshooting tips:

- **Fan does not start:** Check circuit breakers and wall switch. Ensure all wire connections are secure. Verify remote control batteries.
- **Fan is noisy:** Ensure all motor housing screws are tight. Check that blade attachment screws are tight. Verify the canopy is properly secured.
- **Light does not work:** Check wire connections to the light kit. Ensure the light function is activated on the remote or app.
- **Remote not working:** Replace remote batteries. Ensure the remote is paired correctly with the fan (refer to the full manual for pairing instructions).

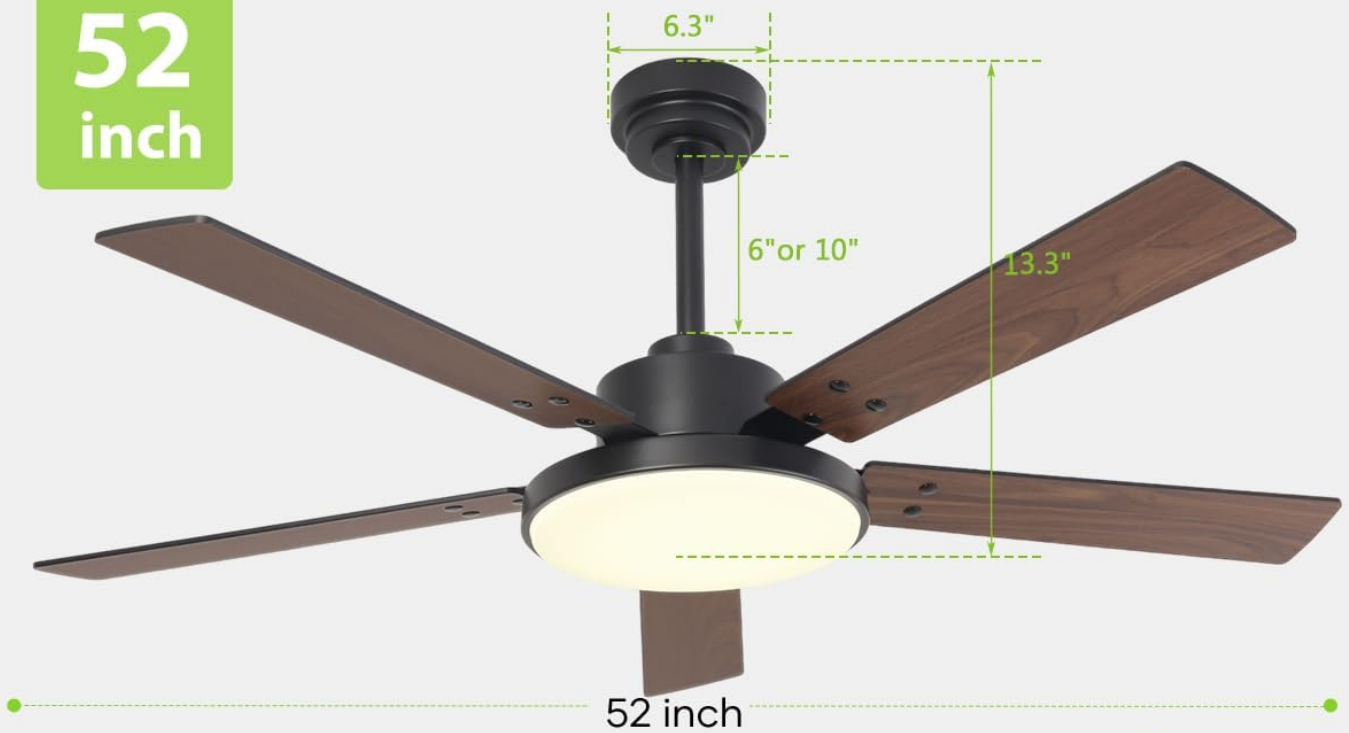

For more detailed troubleshooting, please consult the complete instruction manual or contact customer support.

Specifications

Brand	Vaczon
Model Name	VCZ008BK
Size	52 inch
Color	Matte Black/Maple Wood Grain
Product Dimensions	52"D x 52"W x 15.5"H
Item Weight	6.73 Kilograms (14.81 pounds)
Number of Blades	5
Power Source	DC
Wattage	54 watts
Voltage	120 Volts
Air Flow Capacity	3884 Cubic Feet Per Minute
Number of Power Levels	6
Light Type	24W LED (3000K, 4200K, 6500K, 15%-100% dimmable)

Control Method	App, Remote
Downrod Lengths	6 inches, 10 inches
Indoor/Outdoor Usage	Indoor, Covered Outdoor (not directly exposed to rain)
Certifications	DOE, ETL, FCC
UPC	646414815870
