## Feit Electric LANRFL1000

# Feit Electric LANRFL1000 LED Lantern User Manual

### INTRODUCTION

The Feit Electric LANRFL1000 LED Lantern is a versatile, rechargeable lighting solution designed for various applications including worksites, campsites, and emergency situations. This manual provides essential information for the safe and effective use of your lantern, covering setup, operation, maintenance, and troubleshooting.

### PRODUCT OVERVIEW AND KEY FEATURES

The LANRFL1000 LED Lantern offers multiple lighting options and a robust design for portability and durability.

**Image Description:** An exploded diagram of the Feit Electric LANRFL1000 LED Lantern, highlighting its main components. Labels point to the Power Button, Hanging Hook, 2 Detachable Floodlights, Powerful Magnetic Base, SB-C Charging Port (Cable Included), Lantern COB Light, Floodlight COB Light, and Power Button on the detachable units.

- **Versatile 3-Light Modes:** Offers an 800-lumen COB light for large areas, 200-lumen detachable side lights for directional lighting, and 120-lumen detachable floodlights for focused tasks.
- **Rechargeable Convenience:** Features a built-in rechargeable battery with USB-C compatibility for efficient charging.
- **Detachable Side Lights:** Two side lights can be detached and used as standalone flashlights, each with its own power button.
- **Compact, Portable & Durable:** Lightweight design with a built-in metal hanging hook for easy transport and hands-free use. Constructed for rugged durability.
- **Long-Lasting Lifetime:** Integrated LEDs are rated for up to 25,000 hours of operation.

## SETUP

1. **Initial Charging:** Before first use, fully charge the lantern's internal battery. Connect the provided USB-C charging cable to the SB-C Charging Port on the lantern and to a compatible

USB power adapter (not included). The charging indicator will show charging status.

2. **Attaching/Detaching Side Lights:** The two side lights are magnetically attached to the main lantern body. To detach, gently pull them away. To reattach, align them with the magnetic contacts on the main unit until they snap into place.

## OPERATING INSTRUCTIONS

### Main Lantern Operation

- **Power On/Off:** Press the main power button located on the top of the lantern to turn the unit on or off.
- **Cycle Light Modes:** With the lantern on, press the main power button repeatedly to cycle through the available lighting modes: Main COB Light (800 lumens), Detachable Side Lights (200 lumens each), and Detachable Floodlights (120 lumens each).

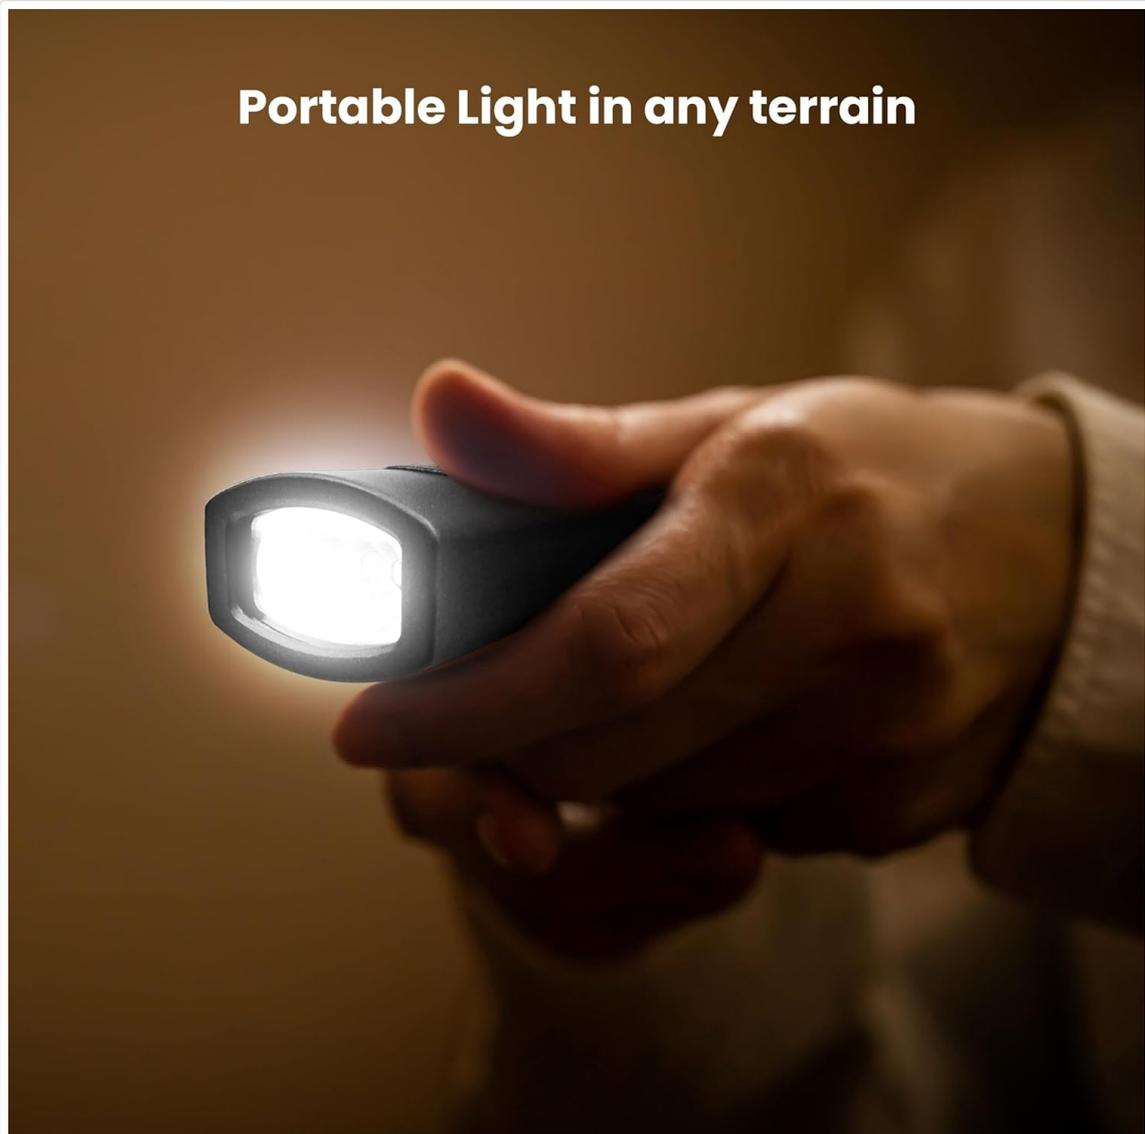

**Image Description:** Three images of the Feit Electric LANRFL1000 LED Lantern demonstrating its three light modes: 1000 Lumens (main lantern with side lights attached), 800 Lumens (main lantern only), and 200 Lumens (one detachable side light operating independently).

### Detachable Side Light Operation

- **Independent Use:** Once detached from the main lantern, each side light can be operated

independently.

- **Power On/Off (Side Light):** Press the power button on the individual side light to turn its COB light or flashlight on or off.
- **Flashlight Function:** Each detachable side light includes a flashlight on its end. Press the side light's power button to activate the flashlight mode.

**Image Description:** A hand holding one of the detachable side lights, demonstrating its use as a portable flashlight in a dimly lit environment.

### Placement and Portability

- **Hanging Hook:** Use the integrated metal hanging hook to suspend the lantern from tents, branches, or other suitable fixtures for overhead lighting.
- **Magnetic Base:** The main lantern features a powerful magnetic base, allowing it to be securely attached to metallic surfaces.
- **Portability:** The compact design and detachable lights make the LANRFL1000 easy to carry or pack for various activities.

**Image Description:** The Feit Electric LANRFL1000 LED Lantern attached to the side of a backpack, demonstrating its portability for outdoor activities.

**Image Description:** The Feit Electric LANRFL1000 LED Lantern hanging from a hook inside a tent, providing illumination for a campsite.

## MAINTENANCE

- **Cleaning:** To clean the lantern, wipe its surfaces with a soft, slightly damp cloth. Do not use harsh chemicals, abrasive cleaners, or solvents, as these may damage the finish or internal components.
- **Storage:** When storing the lantern for extended periods, ensure it is partially charged (approximately 50%) to preserve battery health. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Avoid fully discharging the battery frequently. Recharge the lantern when the light output becomes noticeably dim.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

<b>Problem</b>	<b>Possible Cause</b>	<b>Solution</b>
Lantern does not turn on.	Battery is discharged.	Charge the lantern using the USB-C cable.
Side lights do not illuminate.	Side lights are not properly attached or their individual batteries are low.	Ensure side lights are securely attached to the main unit or charge the main unit to power them. If detached, press their individual power buttons.
Light output is dim.	Low battery charge.	Recharge the lantern's battery.
Lantern not charging.	Faulty USB-C cable or power adapter.	Try a different USB-C cable and power adapter. Ensure the cable is fully inserted into the charging port.
