## 7. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your charging station.

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the surface of the charging station. Do not use abrasive cleaners, solvents, or chemical sprays.
- **Storage:** When not in use for extended periods, store the charging station in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Management:** Avoid bending or twisting cables excessively to prevent damage.

## 8. TROUBLESHOOTING

If you encounter issues with your SwanScout 901M, refer to the following common problems and solutions:

- **Device not charging wirelessly:**
  - Ensure the device is properly aligned on the charging pad.
  - Check if the device supports wireless charging.
  - Remove any thick cases or metallic objects from the back of the device.
  - Verify the charging station is powered on and connected to a working outlet.
- **Device not charging via USB port:**
  - Ensure the cable is securely connected to both the device and the charging station.
  - Try a different cable to rule out cable malfunction.
  - Verify the charging station is powered on.
- **Slow charging:**
  - Ensure you are using the original power adapter and cables.
  - Check for any background apps consuming excessive power on your device.
  - Ensure the device is not overheating.
- **Charging station overheating:**
  - Ensure the station is placed in a well-ventilated area.
  - Remove any foreign objects that might be obstructing the vents.
  - Avoid charging in direct sunlight or hot environments.

If the issue persists after trying these steps, please contact customer support.
