## ROCKBROS 380023001

# ROCKBROS Bike Seat User Manual

Model: 380023001

## INTRODUCTION

---

Thank you for choosing the ROCKBROS Bike Seat. This manual provides essential information for the proper installation, use, and maintenance of your new bike seat. Please read it thoroughly before installation and keep it for future reference.

## PACKAGE CONTENTS

---

Ensure all items are present before proceeding with installation:

- 1 x ROCKBROS Bike Seat
- 1 x Hexagonal wrench
- 1 x Open-end wrench

# Soft & Comfortable

Made of PU leather material, with a high-density foam sponge

## INSTALLATION

Follow these steps to properly install the bike seat. For a visual guide, please refer to the installation video below.

1. **Remove Old Seat:** Use the provided Allen spanner (hexagonal wrench) to unscrew the bolts securing your existing bike seat to the seatpost. Carefully remove the old seat and any spacers.
2. **Position New Seat:** Place the ROCKBROS Bike Seat onto the seatpost, ensuring the rails align correctly with the seatpost clamp mechanism.
3. **Insert Screws:** Insert the screws into the seatpost clamp and twist them gently to secure the seat.
4. **Adjust Position:** Adjust the forward/backward position and tilt of the seat cushion to your preferred riding posture. Use the built-in side markings on the saddle rails for precise adjustment.
5. **Tighten Screws:** Once the desired position is achieved, use the Allen spanner to firmly tighten the screws. Ensure the seat is securely fastened and does not wobble.

### OPERATING AND USAGE

The ROCKBROS Bike Seat is designed for optimal comfort and performance across various cycling disciplines.

#### Key Features:

- **Comfortable Design:** Made with PU leather and a high-density foam sponge for enhanced riding comfort. The matte surface provides better grip.
- **Breathable:** Features a direct-slot air channel design to promote airflow, keeping you cool and dry during rides.
- **Ergonomic Shape:** Streamlined, tapered shape (narrower at the front, wider at the back) to prevent leg chafing and support natural riding posture.
- **Durable Support:** Saddle rails crafted from rigid materials offer strong support and high resilience.

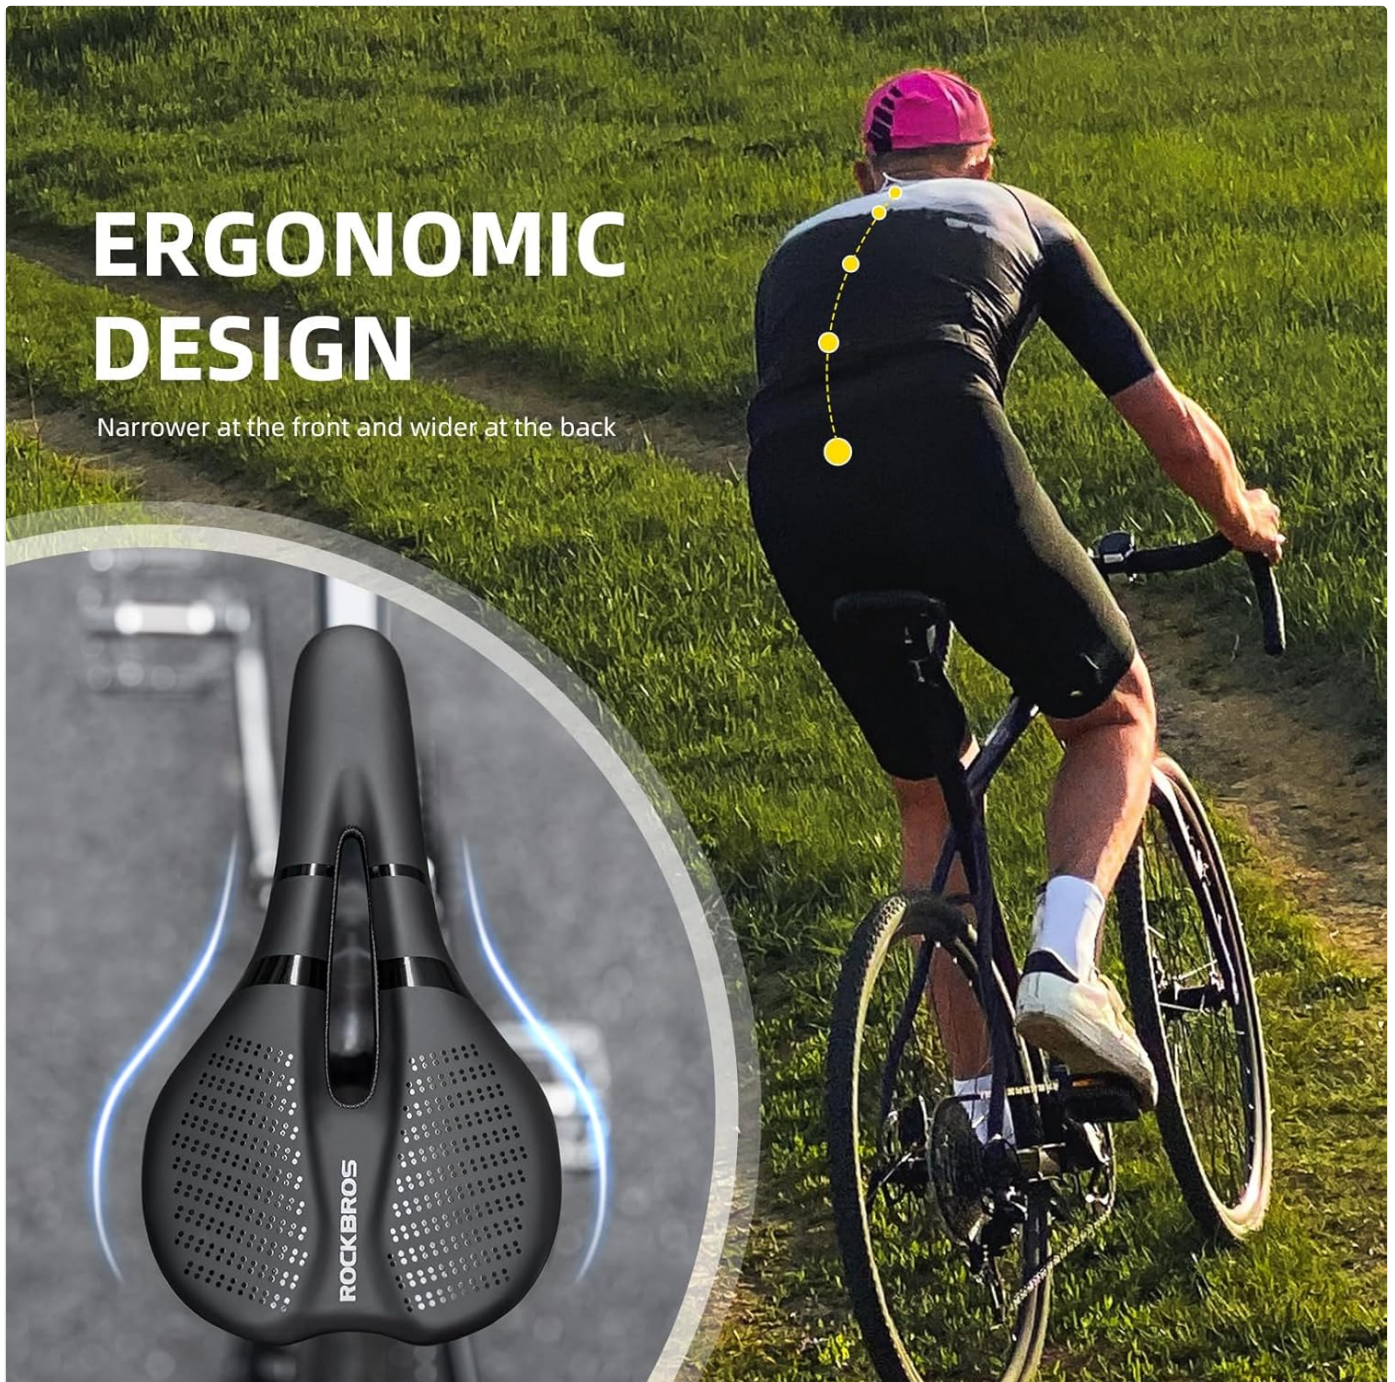

- **Lightweight:** Weighs approximately 0.34 kg (0.58 lb) while supporting a maximum load of up to 100 kg (220 lb).

## MAINTENANCE

---

Proper care will extend the life and performance of your ROCKBROS Bike Seat.

- **Cleaning:** Wipe the seat surface with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as they may damage the PU leather.
- **Drying:** The seat is waterproof, but it is recommended to wipe it dry after exposure to rain or washing to prevent water spots and maintain material integrity.
- **Inspection:** Periodically check the seatpost clamp and screws for tightness. Ensure the saddle rails are free from damage or excessive wear.
- **Storage:** Store your bike in a dry, cool place away from direct sunlight when not in use to prevent material degradation over time.

## TROUBLESHOOTING

---

If you encounter issues with your bike seat, consider the following:

- **Discomfort:** If you experience discomfort, try adjusting the seat's tilt and fore-aft position. Small adjustments can significantly impact comfort. Ensure your bike fit is appropriate for your body.
- **Wobbling Seat:** Check that all screws securing the seat to the seatpost are tightened correctly using the provided tools.
- **Squeaking Noises:** Squeaking can sometimes come from the seatpost clamp. Ensure it is clean and properly lubricated, and that all components are tightened.

## SPECIFICATIONS

Feature	Detail
Brand	ROCKBROS
Model Number	380023001
Material	PU leather + high-density foam sponge + nylon PP bottom shell
Color	Black
Item Weight	0.34 Kilograms (0.58 lb / 262 g)
Weight Capacity Maximum	100 Kilograms (220 lb)
