

## Gabba Goods GP-GLH-GRY

# Gabba Goods Wired LED Gaming Headset (Model GP-GLH-GRY)

Instruction Manual

## 1. INTRODUCTION

This manual provides detailed instructions for the Gabba Goods Wired LED Gaming Headset, Model GP-GLH-GRY. Please read this manual thoroughly before using the product to ensure proper operation and to maximize your gaming and audio experience. This headset is designed for clear audio, comfortable wear, and dynamic visual effects.

## 2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Gabba Goods Wired LED Gaming Headset (Model GP-GLH-GRY)
- User Manual

*Note: Additional adapters for 3.5mm audio/mic split may be included depending on the specific product version.*

## 3. PRODUCT FEATURES

- Ergonomic and Durable Design:** Features soft ear cushions and an adjustable headband for comfort during extended use. The 1.8m cable provides flexibility.
- High-Fidelity Audio Performance:** Equipped with 50mm drivers for a wide frequency range (20Hz-20KHz), delivering deep bass, clear mids, and crisp highs.
- Advanced Noise-Isolating Microphone:** A 4 x 1.5mm microphone minimizes background noise for clear voice transmission, suitable for gaming, streaming, and virtual meetings.
- RGB LED Lighting:** Dynamic color-changing lights enhance the aesthetic of your gaming setup.
- Multi-Platform Compatibility:** Connects via 3.5mm AUX cable or USB. Compatible with Windows 7 and above, PCs, laptops, gaming consoles, and mobile devices.

## 4. SETUP GUIDE

## **4.1 Connecting to a PC/Laptop (3.5mm Audio & USB for LED)**

1. Locate the 3.5mm audio jack (green) and microphone jack (pink) on your PC or laptop.
2. Plug the headset's 3.5mm audio connector into the audio output jack.
3. Plug the headset's 3.5mm microphone connector into the microphone input jack.
4. Insert the USB connector into an available USB port on your PC or laptop to power the LED lighting.
5. Adjust audio settings in your operating system as needed to select the headset as the default playback and recording device.

## **4.2 Connecting to Devices with a Single 3.5mm TRRS Port (e.g., Gaming Consoles, Mobile Devices)**

1. If your device has a single 3.5mm TRRS port for both audio and microphone, you may need a 3.5mm splitter adapter (not always included, check your package).
2. Connect the headset's 3.5mm audio and microphone plugs into the corresponding ports on the splitter adapter.
3. Plug the single 3.5mm TRRS end of the splitter into your device's audio port.
4. Insert the USB connector into an available USB port (if your device has one) to power the LED lighting. If no USB port is available, the LEDs will not illuminate, but audio and microphone functions will still work.
5. Adjust audio settings on your device as needed.

# Effortless Control & Dual Connectivity

Adjust sound with ease and enjoy seamless **3.5mm + USB compatibility** across multiple devices!

USB Socket  
and 3.5mm  
Audio Jack

- PC
- Desktop
- Laptop
- iPad
- Cell Phone
- Tablet
- PS4 & 5
- Xbox One
- Nintendo Switch

## 5. OPERATING INSTRUCTIONS

### 5.1 Audio Control

- **Volume Adjustment:** Use the in-line volume control wheel located on the headset cable to increase or decrease audio output.
- **Mute Microphone:** Use the in-line microphone mute switch to quickly turn the microphone on or off.

### 5.2 Microphone Usage

- The microphone is flexible and can be adjusted to your preferred position for optimal voice pickup.
- Ensure the microphone is not muted when you intend to speak.
- For best clarity, position the microphone approximately 1-2 inches from your mouth.

# Level Up Your Game

Stylish, comfortable, and packed with features for the ultimate gaming experience!

## 5.3 LED Lighting

- The RGB LED lights are powered via the USB connection.
- To activate the lights, ensure the USB connector is plugged into a powered USB port.
- The lights will cycle through various colors automatically. There are no manual controls for changing light patterns or colors on the headset itself.
- To turn off the lights, simply unplug the USB connector. The audio and microphone functions will remain active if the 3.5mm jacks are connected.

## 6. MAINTENANCE AND CARE

---

- **Cleaning:** Use a soft, dry cloth to clean the headset. For ear cushions, a slightly damp cloth can be used, but ensure no moisture enters the speaker grilles.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage.
- **Avoid Liquids:** Do not expose the headset to water or other liquids.

## 7. TROUBLESHOOTING

---

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
No audio from headset.	Ensure the 3.5mm audio jack is fully inserted into the correct port. Check the in-line volume control and increase the volume. Verify audio settings on your device/computer to ensure the headset is selected as the default playback device. Test the headset on another device to rule out device-specific issues.
Microphone not working.	Ensure the 3.5mm microphone jack is fully inserted into the correct port. Check the in-line microphone mute switch to ensure it is not muted. Verify microphone settings on your device/computer to ensure the headset microphone is selected as the default recording device and its volume is up. Test the microphone on another device.
LED lights are not working.	Ensure the USB connector is fully inserted into a powered USB port. Try a different USB port.
Sound quality is poor or distorted.	Ensure all connections are secure. Adjust the volume on both the headset and your device to avoid overdriving the speakers. Check for any software-based audio enhancements on your device that might be causing distortion.
