IMIKI D2 BLU

IMIKI XPLOER SCOUT D2 Smartwatch User Manual

Model: D2 BLU

INTRODUCTION

Welcome to the IMIKI XPLOER SCOUT D2 Smartwatch user manual. This guide provides comprehensive instructions for setting up, operating, and maintaining your new smartwatch. Please read this manual carefully to ensure proper use and to maximize the device's capabilities.

PACKAGE CONTENTS

- IMIKI XPLOER SCOUT D2 Smartwatch
- Charging Cable
- User Manual (this document)

SETUP

1. Charging the Device

Before first use, fully charge your smartwatch.

1. Connect the charging cable to the charging contacts on the back of the smartwatch.
2. Connect the other end of the cable to a USB power adapter (not included) or a computer's USB port.
3. The watch display will indicate charging status.

Note:

The 400 mAh battery guarantees up to 30 days of autonomy with typical usage. A fast charging system allows for hours of use with just a few minutes of charging.

2. App Installation and Pairing

To unlock full functionality and manage your data, download and install the companion app on your smartphone.

1. Scan the QR code provided in the product packaging or search for the official IMIKI app (e.g., "IMIKI Fit") in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. Install the app and create an account if prompted.
3. Enable Bluetooth on your smartphone.
4. Open the app and follow the on-screen instructions to pair your IMIKI XPLOER SCOUT D2.
5. Ensure the smartwatch is discoverable during the pairing process.

Compatibility:

The smartwatch is compatible with Android and iOS smartphones.

OPERATING THE SMARTWATCH

Display and Navigation

The IMIKI XPLOER SCOUT D2 features a 1.43-inch AMOLED display with 466x466px resolution, offering exceptional clarity and vibrant colors.

Image: Illustrates the 1.43-inch AMOLED display with high resolution and tempered glass screen for protection.

Navigate through menus by swiping across the screen (up, down, left, right) and tapping to select options. Use the physical buttons on the side for specific functions such as power on/off, returning to the previous screen, or quick access to sport modes.

Bluetooth Calling

The smartwatch supports Bluetooth 5.3 for stable, high-quality calls directly from your wrist, thanks to its single-chip Bluetooth calling feature.

1. Ensure your smartwatch is connected to your smartphone via Bluetooth.
2. When a call comes in, you can answer or reject it directly from the watch display.
3. Use the integrated microphone and speaker for hands-free conversations.

Health Monitoring

The XPLOER SCOUT D2 is equipped with an optical sensor for comprehensive health tracking, helping you stay informed about your well-being.

- **Heart Rate Monitoring:** Continuously tracks your heart rate throughout the day, providing real-time data.
- **Blood Oxygen (SpO2) Measurement:** Measures your blood oxygen saturation levels on demand.
- **Sleep Quality Monitoring:** Analyzes your sleep patterns, including deep sleep, light sleep, and wake times, to help improve sleep quality.

Access detailed health data, trends, and historical records within the companion app on your smartphone.

Sport Modes

With over 100 supported workout modes, the smartwatch accurately records your exercise statistics, helping you track your fitness progress.

Select your desired sport mode from the watch menu before starting an activity to track metrics such as steps, distance, calories burned, and heart rate during exercise. The watch provides real-time data and post-workout summaries.

Image: Icons representing various functionalities including heart rate, SpO2, sleep monitoring, 100+ sport modes, SOS call support, voice assistant, and SMS notifications.

Voice Assistant

The integrated voice assistant allows for hands-free control of your device. Activate the voice assistant through the watch interface and issue commands for various functions, simplifying daily operations.

Notifications

Receive timely notifications for incoming calls, messages, and app alerts directly on your wrist. Customize notification settings via the companion app to manage what alerts you receive.

MAINTENANCE

Water Resistance

The IMIKI XPLOER SCOUT D2 has an IP68 rating, making it resistant to dust and water. This means it can withstand splashes, rain, and brief immersion in shallow water.

Important:

While IP68 rated, it is not recommended for hot water activities (e.g., hot showers, saunas), diving, or prolonged submersion in deep water. Avoid contact with chemical solvents, soaps, or detergents, as these can compromise the water resistance seals.

Design

- **Materiali di alta qualità:**
impermeabile all'acqua fino a 3 ATM

Batteria

- **Autonomia eccezionale:**
fino a 30 giorni di utilizzo

Image: Depicts water droplets symbolizing the smartwatch's water resistance up to 3 ATM, and a lightning bolt symbol for exceptional battery autonomy up to 30 days.

Cleaning

Regularly clean your smartwatch and strap to maintain hygiene and appearance.

- Wipe the watch face and body with a soft, dry, lint-free cloth.
- If necessary, use a slightly damp cloth and ensure the device is thoroughly dried afterwards.
- Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the watch's finish or internal components.

Strap Replacement

The IMIKI XPLOER SCOUT D2 features interchangeable straps and a removable central case, allowing you to customize its look to match your style.

Cinturini intercambiabili

- **Cassa centrale rimovibile:**
scegli lo stile che fa per te
- **Tre look diversi:**
Oyster - Active - Scout

Image: Shows the IMIKI XPLOER smartwatch with different strap and case styles (Oyster, Active, Scout), highlighting the removable central case for customization.

Refer to the specific instructions provided with your replacement straps or cases for proper installation.

TROUBLESHOOTING

Device Not Turning On

- Ensure the device is fully charged. Connect it to the charger for at least 30 minutes.
- Press and hold the power button for several seconds to attempt a forced restart.

Cannot Pair with Smartphone

- Ensure Bluetooth is enabled on both your smartphone and the smartwatch.
- Make sure the smartwatch is within close range of your smartphone.
- Restart both the smartwatch and your smartphone.
- On your smartphone, try clearing the Bluetooth cache (Android) or forgetting the device and re-pairing (iOS/Android).
- Ensure the correct companion app is installed and updated to the latest version.

Inaccurate Health Data

- Ensure the watch is worn snugly on your wrist, not too tight or too loose, allowing the sensors to make proper contact with your skin.
- Clean the optical sensor on the back of the watch regularly to remove dirt or debris.
- Avoid excessive movement during measurements, especially for SpO2 readings.

Notifications Not Received

- Check notification settings within the companion app to ensure they are enabled for desired applications.
- Ensure the app has necessary permissions on your smartphone (e.g., notification access, background activity).
- Verify that the Bluetooth connection between the watch and phone is active and stable.
