cellhelmet Power Bundle

cellhelmet Power Bundle Instruction Manual

Model: Power Bundle

INTRODUCTION

This manual provides instructions for the cellhelmet Power Bundle, which includes a 20W Fast Charging Wall Adapter, a 15W MagSafe-Compatible Wireless Charging Pad, and an Aluminum Desk Stand. This bundle is designed to provide efficient and convenient charging for your compatible devices.

Image: The cellhelmet Power Bundle, featuring the 20W wall adapter, 15W MagSafe-compatible wireless charging pad, and the aluminum desk stand.

WHAT'S IN THE BOX

Verify that all components are present in the package:

- 1 x 20W Fast Charging Wall Adapter
- 1 x 15W MagSafe-Compatible Wireless Charging Pad
- 1 x Aluminum Desk Stand

SETUP INSTRUCTIONS

1. **Assemble the Desk Stand:** If the aluminum desk stand is not pre-assembled, connect its base and arm securely. Ensure it is stable on a flat surface.
2. **Connect the Wireless Charging Pad:** Insert the USB-C cable from the 15W MagSafe-Compatible Wireless Charging Pad into the USB-C port of the 20W Fast Charging Wall Adapter.
3. **Connect to Power:** Plug the 20W Fast Charging Wall Adapter into a standard wall outlet.
4. **Position the Charging Pad:** Place the wireless charging pad onto the designated area of the aluminum desk stand. The stand is designed to hold the pad securely.
5. **Ready for Use:** The charging bundle is now ready to charge your devices.

OPERATING INSTRUCTIONS

Using the 15W MagSafe-Compatible Wireless Charging Pad:

- **For MagSafe-Compatible Devices:** Place your MagSafe-compatible iPhone (iPhone 12 series or newer) directly onto the wireless charging pad. The magnetic alignment will snap the phone into the correct charging position.
- **For Qi-Enabled Devices:** For other Qi-enabled devices (e.g., AirPods, Samsung Galaxy S20 and newer, other smartphones), place the device centrally on the charging pad. Ensure proper alignment for optimal charging.
- **Charging Indicator:** Your device's screen will typically indicate when charging has begun.

Image: An iPhone attached to the MagSafe-compatible wireless charging pad, demonstrating magnetic alignment.

Using the 20W Fast Charging Wall Adapter:

- The 20W wall adapter provides fast charging for devices that support USB Power Delivery (PD) via its USB-C port.
- You can use this adapter independently with a compatible USB-C to USB-C or USB-C to Lightning cable to charge other devices directly.

Adjusting the Aluminum Desk Stand:

- The desk stand features an adjustable angle. Gently pivot the arm of the stand to achieve your desired viewing angle for your device while it charges.

MAINTENANCE

- **Cleaning:** Disconnect the power bundle from the wall outlet before cleaning. Use a soft, dry, lint-free cloth to wipe down the surfaces of the wall adapter, charging pad, and stand. Avoid using harsh chemicals, abrasive cleaners, or sprays.
- **Storage:** Store the power bundle in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Avoid bending or crimping the charging cable excessively to prevent damage.

TROUBLESHOOTING

Device not charging wirelessly:

- Ensure the wall adapter is securely plugged into a working outlet and the charging pad is connected to the adapter.
- Verify your device is Qi-enabled or MagSafe-compatible.
- Remove any thick phone cases that might interfere with wireless charging.
- Ensure your device is correctly centered on the charging pad for optimal contact.

Slow charging:

- Confirm your device supports fast wireless charging and is properly aligned.
- Ensure the 20W Fast Charging Wall Adapter is being used, as lower wattage adapters may result in slower charging.
- Check if any background apps are consuming excessive power on your device.

Adapter not working:

- Try plugging the adapter into a different wall outlet.
- Ensure the USB-C cable is fully inserted into both the adapter and the device/charging pad.

SPECIFICATIONS

Brand:	cellhelmet
Model:	Power Bundle (20W Wall Adapter, 15W Wireless Charging Pad, Aluminum Stand)
Power Source Type:	AC
Connectivity Technology:	USB
Connector Type:	USB Type C
Compatible Devices:	Cellular Phones, Wireless Earbuds, Smartwatches, iPhone series, Samsung Galaxy S20 and newer, AirPods, all Qi-supported devices
Wall Adapter Wattage:	20 Watts (for wall adapter)
Wireless Charging Pad Wattage:	15 Watts (Max)
Output Voltage:	5 Volts (DC)
Portable:	Yes
