SOAR NBA-MMP-PHI

SOAR NBA Wireless Mouse and Mouse Pad User Manual

Model: NBA-MMP-PHI (Philadelphia 76ers Edition)

Introduction

Thank you for choosing the SOAR NBA Wireless Mouse and Mouse Pad. This product combines reliable wireless technology with ergonomic design and your favorite NBA team's spirit, providing a comfortable and efficient experience for work or leisure. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new device.

Package Contents

Please verify that all items are present in your package:

- 1 x SOAR Wireless Mouse
- 1 x SOAR Mouse Pad with Wrist Rest
- 1 x USB Wireless Receiver (stored inside the mouse battery compartment)
- *Note: 1 AA battery required for the mouse (not included).*

Image: The SOAR NBA Wireless Mouse and Mouse Pad displayed in its clear retail packaging, showing both components.

Setup

1. **Install Battery:** Locate the battery compartment on the underside of the wireless mouse. Slide open the cover. Insert one AA battery (not included) ensuring correct polarity (+/-). Close the battery compartment cover.

Image: An exploded diagram of the wireless mouse, illustrating the internal components, including the battery slot and the location of the USB receiver.

2. **Retrieve USB Receiver:** The small USB wireless receiver is typically stored inside the mouse's battery compartment for safe keeping during transit. Gently remove it.
3. **Connect Receiver:** Plug the USB wireless receiver into an available USB-A port on your computer (desktop, laptop, etc.). Your computer should automatically detect and install the necessary drivers. No special software installation is required.
4. **Position Mouse Pad:** Place the mouse pad on a flat, stable surface. The anti-slip base will help keep it firmly in place during use. Position the wrist rest to comfortably support your wrist.

Image: A hand positioned on the wireless mouse, with the wrist comfortably supported by the mouse pad's gel wrist rest, illustrating optimal wrist alignment.

Operating Instructions

Wireless Mouse Functionality:

- **Basic Navigation:** The mouse features standard left-click and right-click buttons for primary and secondary functions.
- **Scroll Wheel:** Use the scroll wheel for vertical scrolling through documents and web pages. Pressing down on the scroll wheel can activate an auto-scroll function in some applications.
- **DPI Adjustment:** The "DPI" button, located near the scroll wheel, allows you to cycle through three different sensitivity settings (low, medium, high). This adjusts the cursor speed to suit your preference and task.
- **Silent Click:** The mouse is designed with silent click technology, reducing noise during use.
- **Wireless Range:** The mouse operates using advanced 2.4GHz technology, providing a stable and reliable connection within a 30-foot range from the USB receiver.

Mouse Pad Benefits:

- **Ergonomic Support:** The soft gel wrist rest provides ergonomic support, helping to reduce wrist fatigue and discomfort during extended use.
- **Stable Surface:** The anti-slip base ensures the mouse pad remains securely in place on your desk, providing a consistent and smooth gliding surface for the mouse.

Image: A user's hands operating the wireless mouse and mouse pad alongside a laptop, demonstrating a typical desk setup.

Maintenance

- **Battery Replacement:** When the mouse performance degrades or stops responding, it is likely time to replace the AA battery. Follow the steps in the "Setup" section to open the battery compartment and insert a new AA battery.
- **Cleaning the Mouse:** Use a soft, dry cloth to wipe the exterior of the mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the device. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning the Mouse Pad:** The mouse pad is water and stain resistant. For minor spills, wipe immediately with a damp cloth. For general cleaning, a mild soap solution and a soft cloth can be used. Allow the mouse pad to air dry completely before reuse.

Troubleshooting

- **Mouse Not Responding:**

- Ensure the AA battery is correctly installed and has sufficient charge. Replace if necessary.
- Verify the USB wireless receiver is securely plugged into a working USB port on your computer. Try a different USB port.
- Move the mouse closer to the USB receiver to rule out range issues or interference.
- Restart your computer.

- **Intermittent Connection or Lag:**
  - Ensure there are no large metallic objects or other wireless devices (like Wi-Fi routers, cordless phones) directly between the mouse and the receiver that could cause interference.
  - The effective range is 30 feet; operating beyond this distance may cause connection issues.
- **Cursor Movement is Erratic or Too Slow/Fast:**
  - Press the "DPI" button on the mouse to cycle through the sensitivity settings.
  - Ensure the optical sensor on the bottom of the mouse is clean and free from debris.
  - Ensure the mouse pad surface is clean and free from obstructions.
- **USB Receiver Hard to Remove:**
  - Grip the receiver firmly and pull straight out. Avoid twisting or bending.

Specifications

Feature	Detail
Model Name	Wireless Mouse and Mouse Pad
