## **MAINTENANCE**

### **Refilling Scent Bottles**

Scent bottles are easily refilled or replaced. Simply unscrew the empty bottle from the nozzle and replace it with a new one. No decanting is required, making the process clean and simple.

The diffuser is compatible with both 60ml and 100ml Scent Better bottles.

*The diffuser supports both 60ml and 100ml Scent Better oil bottles.*

## Cleaning

To clean the exterior of the diffuser, wipe it with a soft, slightly damp cloth. Do not immerse the unit in water or any other liquid.

For internal cleaning, if necessary, use a small amount of rubbing alcohol on a cotton swab to gently clean the nozzle area. Ensure the diffuser is unplugged from the power source before performing any cleaning.

## TROUBLESHOOTING

### No Scent Emission

- Ensure the scent bottle is securely screwed into the nozzle.
- Check if the diffuser is properly plugged in and powered on.
- Verify that the scent bottle contains sufficient oil.
- Confirm that the settings in the Scent Better app are configured for diffusion (e.g., schedule is active, intensity is set).

### App Connectivity Issues

- Ensure Bluetooth is enabled on your mobile device.
- Make sure the diffuser is within Bluetooth range of your mobile device.
- Try restarting the Scent Better app and/or your mobile device.
- If issues persist, consult the Scent Better support website for further assistance.

## Leaking

- Always keep the diffuser upright to prevent leaks.
- Ensure the scent bottle is tightly secured to the nozzle.
