ATUVOS AT2304T

ATUVOS Rechargeable Wallet Tracker Card User Manual

Model: AT2304T

INTRODUCTION

This manual provides comprehensive instructions for the ATUVOS Rechargeable Wallet Tracker Card, Model AT2304T. It covers setup, operation, maintenance, troubleshooting, and specifications to ensure optimal performance and user experience. This device is designed to help you locate your personal items using Apple's Find My network.

PRODUCT OVERVIEW

The ATUVOS Rechargeable Wallet Tracker Card is an ultra-slim, MFi Certified item locator designed to fit seamlessly into your wallet. It leverages the Apple Find My network for both nearby and long-distance tracking. Key features include wireless charging, IP67 waterproof rating, and a built-in speaker for audible alerts.

SAFETY INFORMATION

Please read all safety warnings before using the device. Failure to follow these instructions may result in fire, electric shock, injury, or damage to the device or other property.

- Do not attempt to disassemble, repair, or modify the device.
- Keep the device away from extreme temperatures and direct sunlight.
- Avoid exposing the device to excessive moisture beyond its IP67 rating.
- Use only approved wireless charging methods.

SETUP

Pairing with Apple Find My

The ATUVOS Wallet Tracker Card works exclusively with Apple iOS devices and the Apple Find My app. It does not support Android devices.

1. **Enable Find My and Bluetooth:** On your iOS device, ensure that the "Find My" app is enabled and Bluetooth is turned on.
2. **Add New Item:** Open the "Find My" app. Navigate to the "Items" tab at the bottom of the screen. Tap the "+" icon, then select "Add New Item," and finally "Other Supported Item."
3. **Pairing:** Press and hold the button on your ATUVOS Tracker Card for approximately 10 seconds until it enters pairing mode. Your iOS device will detect the tracker. Tap "Connect" when prompted.
4. **Name and Icon:** Follow the on-screen instructions to name your ATUVOS Tracker Card and assign an icon for easy identification within the Find My app.
5. **Subsequent Pairing:** For subsequent pairing with other items or after a reset, tap the "+" icon and then "Add Other Item" in the Find My app.

OPERATING INSTRUCTIONS

Finding Items Nearby

If your item is within Bluetooth range (up to 200 feet/60 meters), you can use the Find My app to locate it.

- Open the "Find My" app on your iOS device.
- Select the ATUVOS Tracker Card from your list of items.
- Tap "Play Sound" to make the tracker emit a loud ring (80-100dB). Follow the sound to locate your item.
- Alternatively, you can ask Siri, "Hey Siri, find my [item name, e.g., Wallet]."

Wireless Charging

Approximately 1 hour for a full charge.

Finding Items Far Away

When your item is outside Bluetooth range, the Apple Find My network can help you locate it. This network consists of hundreds of millions of Apple devices worldwide.

- Open the "Find My" app.
- The app will display the last known location of your ATUVOS Tracker Card on a map.
- You can activate navigation within the app to guide you to the item's last known location.
- The Find My network is encrypted and anonymous, ensuring your privacy. Location data and history are not stored on the tracker card itself.

Lost your item nearby?

Find it with a tap of a button on your cellphone

Left Behind Reminders

The Find My app can notify you if you leave your item behind.

- If your ATUVOS Tracker Card disconnects from your iOS device's Bluetooth, you will receive an instant notification on your device.
- This feature helps prevent accidental loss of your tracked items.

Left-Behind Remind

Sharing Items (iOS 17 and above)

With iOS 17 or newer, you can share your ATUVOS Tracker Card's location with up to 5 other individuals.

- Ensure your iOS device is updated to iOS 17 or a later version.
- Within the Find My app, select your ATUVOS Tracker Card.
- Look for the "Share This Item" option and follow the prompts to add borrowers.
- Borrowers will be able to see the item's location on a map without receiving tracking notifications as the item moves with them.

MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Water Resistance:** The device has an IP67 waterproof rating, meaning it can withstand immersion in up to 1 meter of water for up to 30 minutes. However, it is not designed for prolonged submersion or high-pressure water jets.
- **Storage:** Store the device in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not pairing.	Bluetooth is off; device is out of range; device needs reset; not an iOS device.	Ensure Bluetooth is on. Bring device closer. Press and hold button for 10 seconds to reset and re-pair. Confirm you are using an iOS device.
Cannot hear the ring.	Device is too far; battery is low; environmental noise.	Move closer to the device. Charge the device. Move to a quieter area.
"Left Behind" notification not working.	Feature not enabled; app permissions.	Check Find My app settings to ensure "Notify When Left Behind" is enabled for the item. Verify app permissions in iOS settings.
Battery not charging.	Improper placement on charger; faulty charger/cable.	Ensure the card is correctly placed on the wireless charging pad. Try a different wireless charger or cable.
