

Smeike LW010-2PK-NEW

Smeike Wall Sconces Instruction Manual

Model: LW010-2PK-NEW

1. INTRODUCTION

Thank you for purchasing the Smeike Wall Sconces. This set of two modern wall lamps features a unique Oil Rubbed Bronze (ORB) metal design and beige fabric shades, providing a rustic yet elegant upgrade to any home. These sconces are designed to emit bright, ambient lighting, creating a wonderful atmosphere in various settings.

With their moderate size and versatile design, these wall sconces are suitable for a wide range of applications, including bathrooms, living rooms, bedrooms, dining rooms, reading rooms, stairs, corridors, and more. Their simple yet stylish appearance ensures they complement diverse decor styles, from industrial and farmhouse to vintage, rustic, classic, and modern.

2. PRODUCT OVERVIEW

3. SAFETY INFORMATION

- **ETL Certified:** This product has been certified by ETL, ensuring it meets leading quality and safety standards.
- **Indoor Use Only:** These wall sconces are designed for indoor use and are not water resistant. Do not install in areas exposed to direct water or high humidity.
- **Electrical Safety:** Installation should be performed by a qualified electrician if you are not familiar with electrical wiring. Always turn off power at the circuit breaker before installation or maintenance.
- **Bulb Compatibility:** Use E26 base bulbs. The maximum recommended wattage is 60 watts. While incandescent bulbs can be used, LED bulbs are recommended for energy efficiency.

4. SETUP AND INSTALLATION

The Smeike wall sconces are designed for easy installation and come with all necessary mounting hardware. Follow these steps for a quick setup:

1. **Prepare for Installation:** Ensure the power supply to the installation area is turned off at the circuit breaker.
2. **Attach Mounting Plate:** Secure the mounting plate to your electrical junction box using the provided screws.
3. **Connect Wires:** Connect the fixture's wires to your household wiring according to standard electrical codes (usually black to black, white to white, and ground to ground). Use wire nuts to secure connections.
4. **Secure Fixture:** Align the fixture with the mounting plate and secure it with the provided screws.
5. **Install Shade:** Loosen the socket ring, place the fabric shade over the socket, and then fix the socket ring to secure the shade.
6. **Insert Bulb:** Screw an E26 base bulb (not included) into the socket.
7. **Restore Power:** Turn the power back on at the circuit breaker.

Image: Visual guide illustrating the five simple steps for installing the wall sconce, from tightening screws to inserting the bulb.

5. OPERATING INSTRUCTIONS

Once installed, operating your Smeike wall sconces is straightforward.

- **Power On/Off:** Control the light fixture using your standard wall switch.
- **Dimmable Functionality:** If you have installed a dimmable E26 bulb and connected the fixture to a compatible dimmer switch (not included), you can adjust the light intensity to your preference.
- **Bulb Type and Light Effect:** The type of E26 bulb you choose will determine the light color and effect. Options include incandescent, halogen, fluorescent, LED, and Edison bulbs.

6. MAINTENANCE

To ensure the longevity and appearance of your Smeike wall sconces, follow these simple maintenance guidelines:

- **Cleaning:** Dust the metal parts and fabric shade regularly with a soft, dry cloth. For more stubborn marks on the metal, a slightly damp cloth can be used, followed by immediate drying. Do not use abrasive cleaners or solvents.
- **Bulb Replacement:** Always turn off the power at the circuit breaker before replacing a bulb. Allow the bulb to cool completely before handling.
- **Inspection:** Periodically check all connections and mounting hardware to ensure they remain secure.

7. TROUBLESHOOTING

If you encounter any issues with your Smeike wall sconces, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Light does not turn on	No power to the fixture	Check circuit breaker and wall switch.
	Loose wire connections	Turn off power, then check and tighten all wire connections.
	Faulty bulb	Replace bulb with a new, working E26 bulb.
	Faulty wall switch	Test the wall switch or consult an electrician.
Light flickers	Loose bulb	Tighten the bulb.
	Incompatible dimmer switch/bulb	Ensure both bulb and dimmer switch are compatible for dimming.
	Loose wire connections	Turn off power, then check and tighten all wire connections.
Fixture is unstable	Mounting screws are loose	Ensure all mounting screws are tightened.
	Mounting plate not securely attached	Verify the mounting plate is firmly secured to the junction box.

If the problem persists after attempting these solutions, please contact Smeike customer support for further assistance.
