VEVOR 54QT Double Pull-Out Trash Can Instruction Manual

Model: B0DT8VDN6F
Brand: VEVOR

Product Overview

The VEVOR 54QT Double Pull-Out Trash Can is designed to integrate seamlessly into your kitchen cabinetry, offering a discreet and efficient waste management solution. This unit features two 27-quart bins, a soft-close slide system, and a durable iron frame, making it suitable for both household and commercial use.

- **Hidden Design:** Maximizes kitchen space and maintains a tidy appearance by concealing waste bins within a cabinet.
- **Dual 27 QT Capacity:** Provides a total of 54 quarts (2 x 25L) capacity, ideal for separating trash and recyclables. Supports a load of up to 100 lbs (45 kg).
- **Soft-Close System:** Equipped with high-quality damping rails for smooth, quiet, and effortless opening and closing.
- **Durable Construction:** The frame is constructed from iron, offering resistance to rust and corrosion for long-lasting use.
- **Door-Mounted Option:** Includes a door kit for direct attachment to your cabinet door, allowing the bins to pull out with the door.

Safety Information

- Read all instructions thoroughly before installation and use.
- Ensure the unit is securely installed according to the instructions to prevent tipping or injury.
- Do not exceed the maximum load capacity of 100 lbs (45 kg) to avoid damage to the unit or cabinet.
- Keep hands and fingers clear of the sliding mechanism during operation to prevent pinching.
- Keep small children and pets away from the unit during installation and operation.

Setup and Installation

Proper installation is crucial for the optimal performance and longevity of your pull-out trash can. Please follow these steps carefully.

Cabinet Requirements

Before purchasing and installing, measure your cabinet dimensions to ensure compatibility:

- **Minimum Cabinet Depth:** ≥ 565mm (22 inches)
- **Minimum Cabinet Width:** ≥ 292mm (11 inches)
- **Minimum Vertical Height:** ≥ 508mm (20 inches)

Image: Guide on measuring your cabinet's width, depth, and height to ensure proper fit for the pull-out trash can.

Installation Steps

The unit comes with all necessary mounting hardware, including screws and a door kit for cabinet door attachment.

1. **Confirm Cabinet Type and Measure:** Verify your cabinet style (framed or frameless) and measure the internal dimensions to ensure they meet the minimum requirements.
2. **Attach Positioning Template:** Use the provided positioning template to mark the drill hole locations on the bottom of your cabinet.
3. **Install Slides and Door Kit:** Remove the template, drill pilot holes, and securely attach the side rails to the cabinet base. Install the door kit components as instructed for cabinet door mounting.
4. **Place Bins:** Once the frame and slides are installed, place the two 27QT bins into the frame.

Operating Instructions

Operating your VEVOR pull-out trash can is straightforward:

- **To Open:** Gently pull the cabinet door (if door-mounted) or the front of the trash can frame. The smooth slides will extend the bins out of the cabinet.
- **To Close:** Push the bins back into the cabinet. The soft-close mechanism will engage automatically, ensuring a quiet and controlled return to the closed position.
- **Waste Sorting:** Utilize the two separate bins for convenient waste separation, such as one for general trash and the other for recyclables.

Maintenance

Regular maintenance will help keep your pull-out trash can functioning efficiently and extend its lifespan.

- **Cleaning Bins:** Remove the plastic bins and wash them with mild soap and water as needed. Rinse thoroughly and dry before returning them to the frame.
- **Cleaning Frame and Slides:** Wipe down the iron frame and slide rails with a damp cloth. For stubborn grime, use a mild household cleaner. Avoid abrasive cleaners that could damage the finish.
- **Lubrication:** If the slides begin to feel stiff or noisy, apply a small amount of silicone-based lubricant to the ball-bearing tracks. Do not use oil-based lubricants as they can attract dust and debris.
- **Check Fasteners:** Periodically inspect all screws and connections to ensure they remain tight. Tighten any loose fasteners to maintain stability.

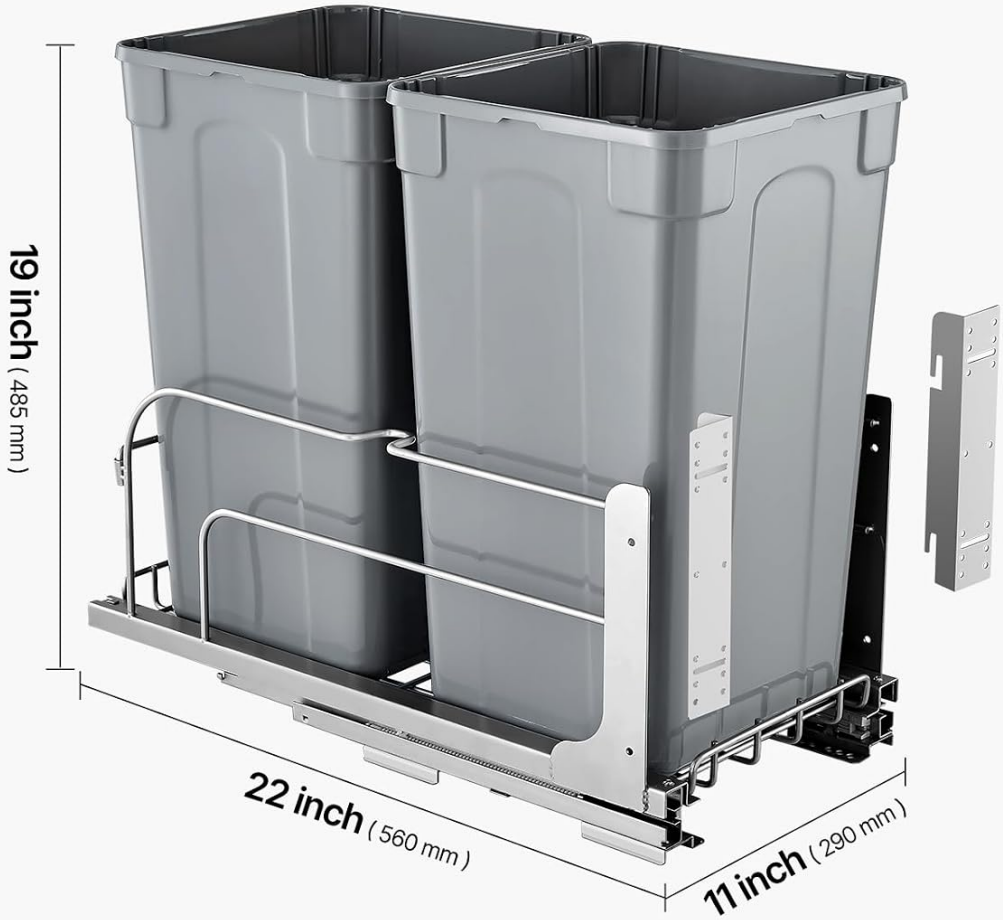

Troubleshooting

If you encounter any issues with your pull-out trash can, refer to the following common problems and solutions:

- **Bins not sliding smoothly:**
  - Check for any obstructions (e.g., debris, spilled items) on or around the slide tracks.
  - Ensure the slide tracks are clean and free of dirt. Clean and lubricate if necessary (see Maintenance).
  - Verify that the unit is installed level and that the slides are properly aligned.
- **Cabinet door not closing properly (if door-mounted):**
  - Ensure both bins are fully pushed back into the cabinet.
  - Check for any items inside the cabinet that might be blocking the door's path.
  - Inspect the door kit attachment for proper alignment and tightness.
- **Excessive noise during operation:**
  - This often indicates dry or dirty slide tracks. Clean and lubricate the tracks as described in the Maintenance section.
  - Ensure all mounting screws are tight and the frame is stable.

Specifications

Model Number	BB-LM27L02
Total Capacity	54 Quarts (2 x 27 QT / 2 x 25 Liters)
Dimensions (L x W x H)	22 inches x 11 inches x 19 inches (560mm x 290mm x 485mm)
Load Capacity	100 lbs (45 kg)
Frame Material	Iron
Bin Material	PP (Polypropylene)
Opening Mechanism	Pull-Out
Special Features	Soft-Close, Adjustable
Item Weight	14 lbs (6.45 kg)

Item Model Number: **BB-LM27L02**
Can Capacity: **27QT*2 / 25L*2**
Bin Material: **PP**
Rail Material: **Iron**
Load Capacity: **100lbs / 45kg**
Item Weight: **14.0lbs / 6.45kg**
