5. MAINTENANCE

5.1 Battery Care

The laptop features a long-lasting battery with HP Fast Charge technology, allowing 50% charge in approximately 45 minutes.

- To prolong battery life, avoid extreme temperatures and fully discharging the battery frequently.
- Store the laptop with a partial charge (around 50%) if not used for extended periods.

5.2 Cleaning

- Use a soft, lint-free cloth dampened with water or a screen cleaner to clean the display.
- Wipe the keyboard and chassis with a soft, dry cloth. Avoid harsh chemicals.

5.3 Software Updates

- Regularly check for and install Windows updates to ensure optimal performance and security.
- Update drivers for components like graphics and network adapters through HP Support Assistant or the device manufacturer's website.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your HP laptop.

6.1 Power Issues

- **Laptop does not turn on:** Ensure the power adapter is securely connected and the outlet is functional. Check the battery charge level.
- **Battery not charging:** Verify the power adapter and cable are not damaged. Try a different power outlet.

6.2 Display Problems

- **Blank screen:** Connect an external monitor to check if the issue is with the laptop's display. Adjust brightness settings.
- **Poor image quality:** Ensure display drivers are updated. Check display resolution settings.

6.3 Connectivity Issues

- **Wi-Fi not connecting:** Restart the router and laptop. Check Wi-Fi settings and ensure the correct network is selected.
- **Bluetooth device not pairing:** Ensure the device is in pairing mode and within range. Check Bluetooth settings on the laptop.
- **USB/HDMI ports not working:** Try connecting a different device to confirm port functionality. Ensure drivers are updated.
