OPONL FJ1050A-3X42

OPONL 42-inch Low Profile Ceiling Fan with Light and Remote Control User Manual

Model: FJ1050A-3X42

Product Overview

The OPONL 42-inch Low Profile Ceiling Fan with Light and Remote Control is designed to provide comfort and illumination in various indoor and outdoor covered spaces. This modern ceiling fan features a quiet DC motor, adjustable light settings, and a reversible airflow function for year-round use. It is suitable for bedrooms, living rooms, offices, kitchens, study rooms, and covered patios.

Video: This video demonstrates the unboxing process and identifies the various components included with the OPONL 42-inch Flush Mount Ceiling Fan.

Installation Steps

The fan is designed for flush mount installation and fits standard ceiling junction boxes. No drilling is typically required for existing junction boxes. The metal housing and aluminum bracket ensure safety and durability.

Video: This video provides a step-by-step guide for installing the OPONL 42-inch Flush Mount Ceiling Fan.

Important: Ensure the power supply is turned off at the circuit breaker before beginning any electrical work. This fan is compatible with conventional wall switches but not with dimmer switches or fan gear switches.

Operating Instructions

All functions of the OPONL ceiling fan are controlled via the included remote control. This includes fan speed, light color temperature, dimming, timing, and fan direction.

Remote Control Functions

The remote control allows for comprehensive management of the fan and light settings.

Image: The remote control for the OPONL ceiling fan, showing various buttons for fan and light adjustments.

Fan Speed Settings

The fan offers 6-level wind speed settings to suit different needs:

- **Levels 1-2:** Low, comfortable wind for sleeping or gentle ventilation.
- **Levels 3-4:** Medium, natural wind for daily use.
- **Levels 5-6:** High cooling wind for exercise or hot weather.

Light Control and Memory Function

The integrated LED light features 6-color temperature options (from 2700K warm light to 6000K cold light) and 10-100% smooth dimming. The fan and light include a memory function. If the light is turned off by the remote for at least 10 seconds, its last color temperature, brightness, and fan speed settings are saved for the next operation.

Image: Display of the 6 adjustable color temperature options for the integrated light.

Reversible DC Motor

The fan features a reversible DC motor, allowing you to change the airflow direction. In summer, the downdraft mode creates a cooling effect. In winter, the updraft mode helps distribute warm air evenly throughout the room. This function is controlled via the F/R key on the remote.

Image: Illustration of the reversible airflow function for cooling in summer and warming in winter.

Timer Function

The fan supports a timing function (1 to 6 hours) for automatic sleep shutdown.

Maintenance

To ensure optimal performance and longevity of your OPONL ceiling fan, follow these general maintenance guidelines:

- **Cleaning:** Regularly wipe the fan blades and motor housing with a soft, damp cloth. Avoid using abrasive cleaners or

solvents that could damage the finish.

- **Blade Inspection:** Periodically check the fan blades for any signs of warping or damage. Ensure they are securely attached.
- **Tighten Fasteners:** Over time, some fasteners may loosen. Annually, check and tighten all screws and connections to prevent wobbling or noise.
- **Light Source:** The integrated LED light is designed for long-term use. If the light source fails, contact customer support for assistance. Do not attempt to replace the LED module yourself.

Always ensure the power to the fan is disconnected at the circuit breaker before performing any maintenance.

Troubleshooting

If you encounter issues with your OPONL ceiling fan, refer to the following common troubleshooting steps:

- **Fan Does Not Operate:**
  - Check if the power supply to the fan is on at the circuit breaker and wall switch.
  - Ensure the remote control batteries are fresh and correctly inserted.
  - Verify that all electrical connections are secure.
- **Light Does Not Turn On:**
  - Confirm the power supply is active.
  - Check remote control batteries.
  - If the light was recently turned off, wait at least 10 seconds before turning it back on to allow the memory function to reset.
- **Fan Wobbles:**
  - Ensure all blade screws are tightened.
  - Verify the mounting bracket is securely fastened to the ceiling junction box.
  - Check if the blades are balanced. A balancing kit may be used if necessary.
- **Remote Control Not Responding:**
  - Replace remote control batteries.
  - Ensure there are no obstructions between the remote and the fan receiver.

If these steps do not resolve the issue, please contact customer support for further assistance.

Product Specifications

Feature	Specification
Brand	OPONL
Model Number	FJ1050A-3X42
Color	Black
Size	42 Inch

Feature	Specification
Product Dimensions (D x W x H)	42"D x 42"W x 9"H
Item Weight	7.7 pounds
Material	Metal Housing, Plywood Blades
Power Source	Corded Electric
Voltage	120 volts of alternating current
Wattage	18 watts
Number of Blades	3
Number of Speeds	6
Air Flow Capacity	4200 cubic feet per hour
Noise Level	35 dB
Control Method	Remote
Special Features	Lightweight, Quiet Operation, Remote Controlled, Safety Certified, Timer
Indoor/Outdoor Usage	Indoor, Outdoor (covered areas)
Recommended Room Type	Bedroom, Dining Room, Home Office, Kids Room, Living Room
