CALANDIS CLTIN70103547

CALANDIS™ Candied Haws Flattening Machine User Manual

1. Introduction

Thank you for choosing the CALANDIS™ Candied Haws Flattening Machine. This tool is designed to efficiently flatten hawthorns and other similar fruits, making them ideal for traditional candied treats. Crafted from durable stainless steel, this machine offers ease of use and consistent results for both home and commercial applications. Please read this manual thoroughly before initial use to ensure proper operation, maintenance, and safety.

2. Safety Information

- Always keep the machine out of reach of children.
- Use the machine only for its intended purpose of flattening fruits.
- Exercise caution when handling the machine, especially the pressing plate, to avoid pinching fingers.
- Ensure the machine is placed on a stable, flat surface during operation.
- Clean the machine thoroughly after each use to maintain hygiene and prevent residue buildup.
- Do not attempt to disassemble or modify the machine beyond the instructions provided in this manual.

3. Package Contents

Upon unpacking, please verify that all components are present and in good condition:

- 1 x Stainless Steel Candied Haws Flattening Machine
- 1 x Core Remover Tool

4. Product Overview

The CALANDIS™ Candied Haws Flattening Machine is a robust and user-friendly device designed for preparing fruits for candying. It features a durable stainless steel construction and a simple lever mechanism for efficient flattening.

Figure 4.1: Main view of the CALANDIS Candied Haws Flattening Machine and its accompanying core remover tool.

This image displays the complete set, including the main flattening unit and the separate core remover tool, both constructed from stainless steel.

Figure 4.2: Close-up of the flattening mechanism.

A detailed view of the machine's pressing plate and base, highlighting the sturdy construction and the design for even pressure distribution.

This image focuses on the core remover, showing its ergonomic handle and the functional end designed to efficiently remove cores from fruits.

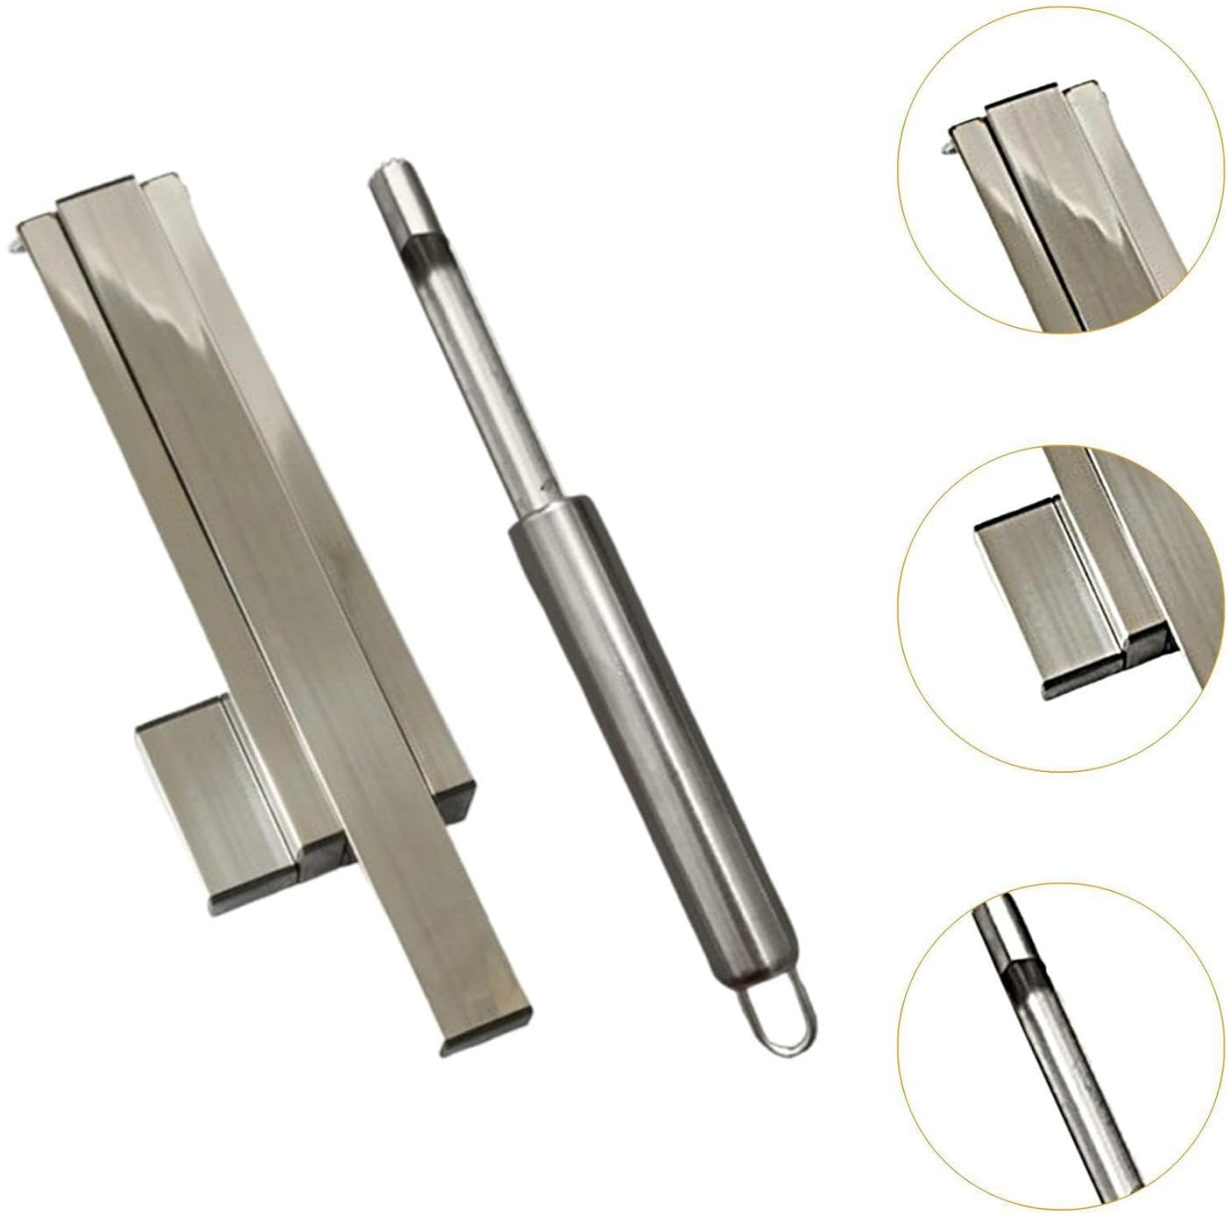

Figure 4.4: Dimensions of the Candied Haws Flattening Machine.

An image illustrating the compact dimensions of the flattening machine, measuring approximately 43cm in length and 4cm in width, suitable for various kitchen spaces.

Figure 4.5: Candied Haws Flattening Machine in use.

This image demonstrates the machine in action, showing hawthorns placed on a skewer within the flattening unit, ready for processing.

5. Setup

1. **Unpack:** Carefully remove all components from the packaging.
2. **Inspect:** Check the machine and core remover for any signs of damage. If any damage is found, do not use the product and contact customer support.
3. **Clean:** Before first use, wash all parts that will come into contact with food using warm, soapy water. Rinse thoroughly and dry completely.
4. **Placement:** Place the flattening machine on a clean, stable, and flat surface.

6. Operation

6.1 Using the Core Remover

1. Select a hawthorn or similar fruit.
2. Position the tip of the core remover at the stem end of the fruit.
3. Gently push and twist the core remover through the fruit to extract the core.
4. Discard the core and prepare the fruit for flattening.

6.2 Flattening Hawthorns

1. After coring, thread the hawthorns onto a skewer, leaving a small space between each fruit.
2. Carefully place the skewer with the fruits into the designated groove on the flattening machine's base. Ensure the fruits are aligned under the pressing plate.
3. Gently lower the pressing plate handle. Apply appropriate, even force to flatten the hawthorns. Avoid excessive force to prevent crushing.
4. Once flattened to your desired thickness, lift the pressing plate handle to release the pressure.
5. Remove the skewer with the flattened hawthorns.
6. Repeat the process for additional fruits.

7. Maintenance

7.1 Cleaning

- After each use, immediately clean the machine to prevent fruit residue from drying and sticking.
- Wash all parts with warm, soapy water using a soft sponge or cloth.
- Rinse thoroughly under running water to remove all soap residue.
- Dry all components completely with a clean cloth to prevent water spots and rust.
- Do not use abrasive cleaners, steel wool, or harsh chemicals, as these can damage the stainless steel finish.

7.2 Storage

- Store the clean and dry flattening machine and core remover in a cool, dry place.
- Keep them away from direct sunlight and moisture.

8. Troubleshooting

Problem	Possible Cause	Solution
Fruits are not flattening evenly.	Uneven pressure applied; fruits not centered.	Ensure fruits are centered and apply even, consistent pressure across the pressing plate.
Difficulty lifting the pressing plate after flattening.	Fruit residue stuck to the plate; plate mechanism is stiff.	Clean the machine thoroughly after each use. If stiff, ensure no debris is obstructing the mechanism.
Core remover is not effective.	Incorrect technique; fruit is too hard or too soft.	Ensure proper pushing and twisting motion. Use fruits that are ripe but firm.

9. Specifications

Feature	Detail
Model Number	CLTIN70103547

Feature	Detail
Material	Stainless Steel
Dimensions (L x W)	43cm x 4cm (16.93inch x 1.57inch)
Manufacturer	Elyssion Designs
Country of Origin	Hong Kong

10. Warranty and Support

For any product inquiries, technical support, or warranty claims, please contact the manufacturer directly:

- **Manufacturer:** Elyssion Designs
- **Email:** elyssiondesigns@creationist.in
- **Phone:** 7007861450

Please retain your proof of purchase for any warranty-related services. Specific warranty terms and conditions may apply and are available upon request from the manufacturer.
