Aoxun IS428BR04A-RZ

Aoxun 10x12 FT Outdoor Garden Metal Shed Instruction Manual

Brand: Aoxun | **Model:** IS428BR04A-RZ

Product Overview

The Aoxun 10x12 FT Outdoor Garden Metal Shed is designed for versatile outdoor storage, providing a durable and secure space for tools, garden equipment, bicycles, and more. Constructed from galvanized alloy steel, this shed is built to withstand various weather conditions, offering long-lasting performance and protection for your belongings.

Figure 1: Aoxun 10x12 FT Outdoor Garden Metal Shed in a backyard setting, showcasing its size and design.

Key Features:

- **Heavy-Duty Construction:** Made from galvanized alloy steel, ensuring waterproof properties and resistance to harsh weather.
- **Sloping Roof Design:** Maximizes space utilization and prevents rainwater accumulation, enhancing durability.
- **Optimal Ventilation:** Equipped with specially designed ventilation slots to ensure proper air circulation.
- **Lockable Doors:** Provides secure storage and convenient access to items.
- **Versatile Storage:** Suitable for garden tools, lawnmowers, bicycles, garbage bins, and can even serve as a pet shelter.
- **Stable Base:** Designed to elevate the shed, prevent direct ground contact, and adapt to various terrains.

Setup and Assembly

Proper assembly is crucial for the stability and longevity of your Aoxun shed. Please read all instructions carefully before beginning.

Important Assembly Notes:

- **Two-Person Assembly:** This shed requires at least two people for safe and efficient assembly.
- **Tool Provision:** Two pairs of gloves are provided to assist with installation. Ensure you have all necessary tools as indicated in the separate assembly instructions.
- **Part Identification:** All parts are labeled with a part number for easy identification. Refer to the step-by-step instructions provided in the packaging.
- **Secure Installation:** It is critical to secure the shed to the ground, especially in areas prone to high winds or heavy snow.

Figure 2: Illustration of the shed's high-quality and solid base, designed to elevate the structure and prevent direct ground contact, ensuring stability on various terrains like lawn or sand.

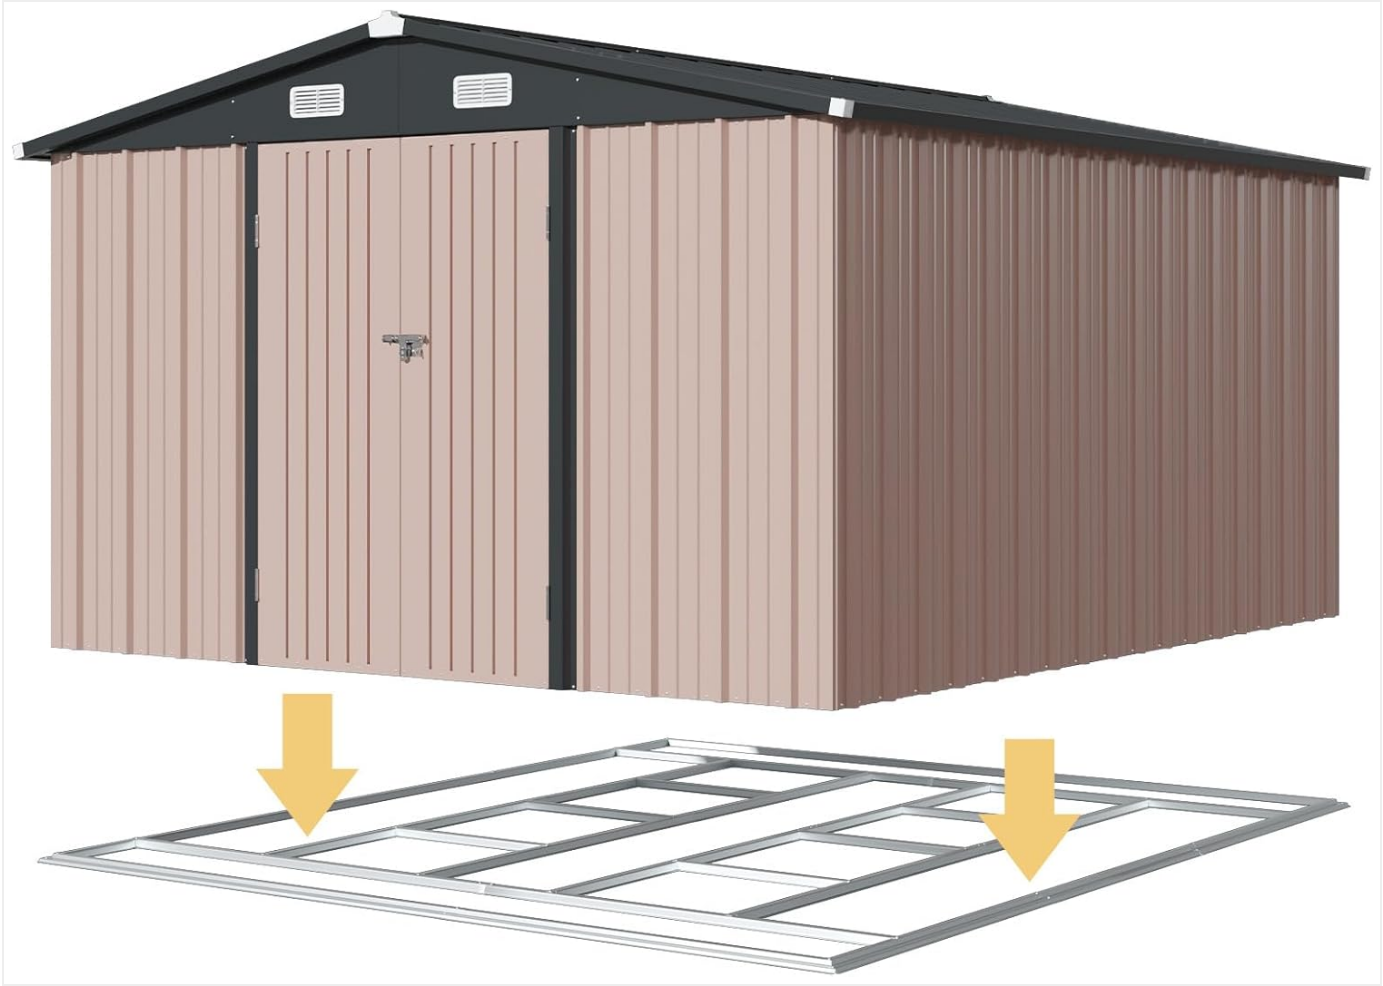

Figure 3: Diagram showing the shed structure with its underlying base frame, highlighting how the base provides elevation and stability.

Operation and Usage

The Aoxun shed is designed for practical and secure storage. Understanding its features will help you maximize its utility.

Key Operational Features:

- **Lockable Doors:** The hinged doors are equipped with a stainless steel bolt lock (as shown in Figure 4) to secure your stored items. Always ensure the doors are properly closed and locked when not in use.
- **Ventilation System:** The shed features four air vents (as shown in Figure 4) located near the roofline to facilitate optimal airflow, reducing moisture buildup and maintaining a suitable environment for your stored goods.
- **Anti-Collision and Smooth Protection:** Designed with anti-collision and smooth plastic protection elements (as shown in Figure 4) to enhance safety and durability during use.
- **Multiple Storage Modes:** This shed offers ample space for various storage needs. Consider adding internal shelving or racks to further organize items like shovels, umbrellas, and smaller tools.

Figure 4: Detailed view of the shed's security and ventilation features, including the four air vents, stainless steel bolt lock, anti-collision protection, smooth plastic protection, and stable base connection points.

Figure 5: Examples of the shed's versatile storage capabilities, illustrating its use as a general storage room, a space for garbage bins, bicycle parking, and even a pet house.

Maintenance

Regular maintenance will ensure the longevity and optimal performance of your Aoxun shed.

- **Cleaning:** Periodically clean the exterior of the shed with mild soap and water to remove dirt and debris. Avoid abrasive cleaners that could damage the galvanized steel coating.
- **Drainage:** The sloping roof is designed for effective rainwater drainage. Ensure that the area around the shed's base is clear of obstructions to allow for proper water runoff.
- **Structural Integrity:** Regularly inspect the shed for any signs of damage, loose fasteners, or deformation. Address any issues promptly to maintain structural integrity.
- **Snow Load:** While the shed has a snow tolerance of up to 6 inches, it is advisable to clear heavy snow accumulation from the roof to prevent excessive stress, especially in regions with significant snowfall.
- **Coating Protection:** The shed features an upgraded coating (as shown in Figure 6) for enhanced durability. Avoid

scratching or damaging this surface to maintain its protective properties.

Figure 6: Comparison illustrating the Aoxun shed's upgraded coating, designed for long-term use and superior resistance compared to other metal or wood materials.

Figure 7: Visual representation of the shed's sloping roof design facilitating rapid drainage and its stable structural design ensuring wind resistance, with icons for wind resistance, water resistance, tool protection, and easy management.

Troubleshooting

If you encounter issues with your Aoxun shed, consider the following common solutions.

- **Missing or Damaged Parts:** Upon receiving your shed, carefully inspect all components against the parts list provided in the assembly manual. If any parts are missing or damaged, contact Aoxun customer support immediately for assistance.
- **Assembly Difficulties:** Ensure you are strictly following the step-by-step instructions. Double-check part numbers and orientations. If holes do not align, gently adjust panels or re-check the assembly sequence. Remember, two people are required for assembly.
- **Water Leakage:** Verify that all screws and fasteners are tightened properly, especially along seams and roof panels. Ensure the shed is level and the base is correctly installed to prevent water pooling. Check for any gaps or unsealed areas that may require additional sealant (not included).

- **Shed Instability:** Confirm that the shed is securely anchored to the ground using appropriate methods for your terrain. Ensure the base is level and all connections are tight.
- **Door Malfunction:** Check for any obstructions in the door tracks or hinges. Ensure the shed is level, as an uneven base can cause doors to bind. Lubricate hinges if necessary.

For issues not covered here or persistent problems, please refer to the "Support and Warranty" section for contact information.

Specifications

Detailed specifications for the Aoxun 10x12 FT Outdoor Garden Metal Shed.

Attribute	Detail
Brand	Aoxun
Model Number	IS428BR04A-RZ
Color	Brown
Material	Alloy Steel (Galvanized)
Product Dimensions (Overall)	142"D x 121"W x 79"H (approx. 11.83 ft D x 10.08 ft W x 6.58 ft H)
Internal Dimensions	L 121" x W 141.3" (approx. 10.08 ft x 11.78 ft)
Door Dimensions	L 45" x H 63" (approx. 3.75 ft x 5.25 ft)
Item Weight	150 pounds
Water Resistance Level	Waterproof
Assembly Required	Yes (Two-person assembly recommended)
Wind Resistance	Up to 6 (driving speeds of 24-30 km/h)
Snow Tolerance	Up to 6 inches
