

YAPOY YB500

YAPOY YB500 Ionic Hair Dryer User Manual

Model: YB500

1. INTRODUCTION

Thank you for choosing the YAPOY YB500 Ionic Hair Dryer. This manual provides essential information for the safe and effective use of your new hair dryer. Please read it thoroughly before operation and retain it for future reference. The YAPOY YB500 is designed for efficient and gentle hair drying, incorporating advanced ionic technology and precise temperature control to protect hair and reduce frizz.

2. IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of electric shock, fire, or injury, always follow basic safety precautions when using electrical appliances.

- Do not use this appliance near water, such as in a bathtub, shower, or sink.
- Always unplug the appliance immediately after use.
- Do not use the appliance with a damaged cord or plug. If the cord or plug is damaged, contact customer support.
- Keep the air inlet and outlet clear of obstructions (e.g., hair, dust, lint) during use to prevent overheating.
- This appliance has a robust four-layer safety system for protection against electrical issues.
- The fine mesh filter prevents hair intake, enhancing safety.
- This product is suitable for use by adults, children, and pets, but always supervise children and ensure proper usage.
- Do not direct hot air towards eyes or other heat-sensitive areas.
- Store the appliance in a dry place when not in use.

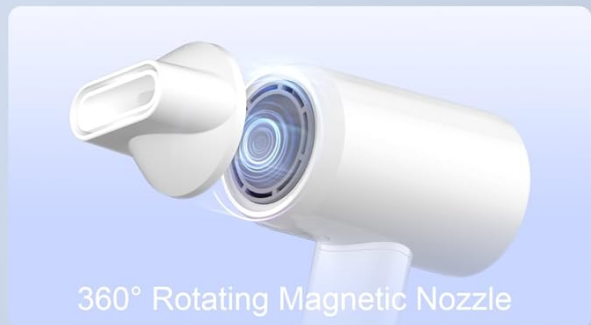

3. PRODUCT FEATURES

- **Quick & Efficient Drying:** Equipped with a powerful 110,000 RPM brushless motor and 32m/s wind speed for fast drying, typically 2-5 minutes.
- **Advanced Ionic Hair Care:** Releases 200 million negative ions to help lock in moisture, reduce split ends, and eliminate static, resulting in smoother, shinier hair.
- **Customizable Heat & Speed Settings:** Features three temperature options (cold air, warm air, hot air) and two speed levels (high speed & low speed) for personalized styling.
- **Quiet & Energy-Efficient Design:** Operates at a low noise level of approximately 60 decibels, utilizing an energy-efficient 1700W design.
- **Lightweight & Travel-Ready:** Weighs approximately 1.15 lbs (520g) with an ergonomic design, making it suitable for home, hotel, RV, or travel use.
- **Detachable Magnetic Filter:** For easy cleaning and maintenance, featuring a fine mesh to prevent hair intake.
- **360° Flexible Nozzle:** Includes a magnetic rotating nozzle for targeted airflow and versatile styling.

4. SETUP

- Unpack:** Carefully remove the hair dryer and all accessories from the packaging.
- Attach Nozzle:** Align the magnetic nozzle with the front of the hair dryer. The magnetic connection will secure it in place. Ensure it is firmly attached before use.
- Power Connection:** Plug the power cord into a standard electrical outlet (US-Size). Ensure the voltage matches the appliance's requirements.

FIVE-POINT SHIELD FOR ENHANCED PROTECTION

- Double-Layer Magnetic Nozzle
- Overheating Protection
- Overcurrent Protection
- High-Density Filters
- Fire-Resistant Frame

5. OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the ON/OFF button (typically the main circular button) to turn the hair dryer on or off.
2. **Adjust Speed:** Use the speed control button (often indicated by lines or fan icons) to switch between low and high airflow speeds.
3. **Adjust Temperature:** Press the temperature control button (often indicated by color-coded lights or temperature icons) to cycle through cold, warm, and hot air settings. The intelligent thermo-control system maintains a consistent temperature to prevent heat damage.
4. **Drying Hair:** Hold the hair dryer at a comfortable distance from your hair. Use the magnetic nozzle to direct airflow as needed for styling.
5. **Cool Shot:** For setting your style, select the cold air setting.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your hair dryer.

1. **Cleaning the Filter:** The hair dryer features a detachable magnetic filter. Regularly clear dust and hair from this filter to maintain sufficient airflow. This prevents heat buildup that could activate the NTC protection mechanism, causing the dryer to blow only cold air or shut down.
2. **Cleaning the Exterior:** Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
3. **Storage:** Store the hair dryer in a cool, dry place, away from direct sunlight and moisture. Do not wrap the cord tightly around the appliance.

SMART THERMO CONTROL TECHNOLOG

Constant Temperature Without Damaging Your Hair

7. TROUBLESHOOTING

- **No Power:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the outlet has power by testing with another appliance.
- **Hair Dryer Stops During Use:** The appliance may have overheated. Unplug it and allow it to cool down for a few minutes. Check the air inlet and outlet for any blockages and clean the filter if necessary.
- **Airflow is Weak:** Check the air inlet filter for blockages (dust, hair). Clean the filter as described in the Maintenance section.
- **Air is Cold Only:** This may indicate the NTC protection mechanism has activated due to heat buildup. Clean the filter and allow the unit to cool. If the issue persists, contact customer support.
- **Unusual Noise:** Turn off and unplug the dryer immediately. Check for any foreign objects in the air inlet or outlet. If the noise persists after clearing, contact customer support.

8. SPECIFICATIONS

Feature	Specification
Model Number	YB500
Brand	YAPOY
Product Dimensions	4.33 x 2.76 x 8.27 inches
Weight	1.15 lbs (520g)
Wattage	1700 watts
Power Source	Corded Electric
Material	Plastic
Cord Length	5.9 ft (1.8 m)
Motor Speed	110,000 RPM
