Pecute PB-CH01

Pecute 2-in-1 Cat Window Perch & Wall Shelves

Model: PB-CH01

User Instruction Manual

1. Introduction

Thank you for choosing the Pecute 2-in-1 Cat Window Perch & Wall Shelves. This product offers a versatile and comfortable space for your cat to relax, observe, and play. It features a sturdy solid wood frame, a washable carpet cloth cover, and two installation options: suction cups for glass surfaces or secure wall mounting. This manual provides detailed instructions for assembly, installation, care, and maintenance to ensure safe and optimal use of your cat perch.

2. Safety Information & Important Notes

- **Weight Capacity:** The perch is designed to hold up to 40 lbs (18 kg). Do not exceed this weight limit.
- **Wall Installation:** For optimal performance and security, we recommend using expansion screws in conjunction with standard screws. Ensure the wall material is suitable for mounting (e.g., drywall, concrete, solid brick).
- **Glass Installation:** Ensure the window measurements are at least 11.8 inches (30 cm) in width and 7 inches (18 cm) in height for proper installation.
- **Suction Cup Preparation:** Before installation, soak suction cups in 104-140°F (40-60°C) water for 3-5 minutes. This helps to soften the material and improve adhesion.
- **Surface Cleaning:** Always wipe the installation surface (window or wall) clean and dry before attaching the perch to ensure maximum grip.
- Regularly check all connections and mounting points for tightness and stability.

3. Components List

Please ensure all components are present before beginning assembly:

- Wooden Perch Platform
- Wooden Support Brackets (2)
- Carpet Cloth Cover (with Velcro attachment)
- Large Rotating Suction Cups (4)
- Mounting Screws (for wall installation)
- Expansion Screws (for wall installation, recommended)

- Installation Tools (included)

4. Setup & Installation

The Pecute Cat Perch offers two installation methods: Suction Cup (for glass or ceramic tile) and Wall Mount. Choose the method that best suits your needs.

4.1 General Assembly Steps

The perch is designed for quick and easy assembly. Follow these general steps before proceeding to specific installation methods:

1. Attach the two wooden support brackets to the underside of the wooden perch platform using the provided screws. Ensure they are securely fastened to create a stable right-angle structure.
2. Affix the carpet cloth cover to the top of the wooden perch platform. The cover has a Velcro design for easy attachment and removal.

4.2 Suction Cup Installation (for Glass or Ceramic Tile)

This method is ideal for windows or smooth ceramic tile surfaces. Ensure the surface is clean and dry before installation.

1. **Prepare Suction Cups:** Immerse the four large rotating suction cups in warm water (104-140°F / 40-60°C) for 3-5 minutes. This will make them more pliable and enhance their grip.
2. **Clean Surface:** Thoroughly clean the glass or ceramic tile surface where the perch will be installed. Wipe it dry with a paper towel to remove any dust, dirt, or moisture.
3. **Attach Suction Cups:** Attach the suction cups to the designated points on the perch's support structure using the provided screws.
4. **Mount Perch:** Press the perch firmly against the cleaned surface. Twist and press each suction cup to remove all air, creating a complete and secure fit.

4.3 Wall Mount Installation

This method provides a permanent and secure solution for long-term use. It is suitable for various wall types.

1. **Choose Location:** Select a suitable wall location. Ensure the wall material (drywall, concrete, solid brick, etc.) can support the perch and your cat's weight.
2. **Mark Drilling Points:** Hold the assembled perch against the wall at the desired height and use a pencil to mark the drilling points for the support brackets.
3. **Drill Holes:** Drill pilot holes at the marked points. For drywall, it is highly recommended to use expansion screws for enhanced security.
4. **Secure Perch:** Attach the perch to the wall using the provided screws and expansion screws (if applicable). Ensure all screws are tightened securely.

5. Operating Instructions

Once installed, the Pecute Cat Perch provides a comfortable and elevated spot for your cat. No specific operational steps are required beyond ensuring proper installation.

- Your cat can use the perch for napping, bird-watching, or as a scratching surface due to the durable carpet cover.
- The sturdy design supports active cats, allowing for jumping and lounging.
- Consider installing multiple perches at different heights to create a vertical play space for your cats.

6. Care & Maintenance

Proper care will extend the life of your Pecute Cat Perch:

- **Carpet Cover Cleaning:** The carpet cloth cover is removable thanks to its Velcro design. Hand wash the cover with mild soap and water. Allow it to air dry completely before reattaching.
- **Wooden Frame Cleaning:** Wipe the wooden frame with a damp cloth as needed. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** After cleaning, allow all components to dry thoroughly in a cool, airy place to prevent warping or mildew.
- **Regular Inspection:** Periodically check the perch for any signs of wear, loose screws, or weakened suction cups. Tighten screws or re-apply suction cups as necessary.

7. Troubleshooting

- **Perch is not holding securely (Suction Cup Installation):**
  - Ensure the glass or ceramic tile surface is perfectly clean and dry. Any dust, grease, or moisture will reduce suction.
  - Re-soak the suction cups in warm water (40-60°C) for 3-5 minutes to restore their flexibility.
  - Press each suction cup firmly against the surface and twist to expel all air. You should see the cup flatten completely against the surface.
  - Verify that the window dimensions meet the minimum requirements (11.8 in / 30 cm width, 7 in / 18 cm height).
- **Perch feels wobbly (Wall Mount Installation):**
  - Check all mounting screws and ensure they are tightened securely.
  - Confirm that expansion screws were used, especially for drywall, to provide adequate support.
  - Ensure the wall material is appropriate and structurally sound for mounting.
- **Carpet cover is dirty or worn:**
  - Remove the carpet cover using the Velcro fasteners. Hand wash with mild soap and water, then air dry.

8. Specifications

Brand	Pecute
Model Number	PB-CH01
Product Dimensions (L x W x H)	39.9 x 25.9 x 17.8 cm (15.7 x 10.2 x 7 inches)
Item Weight	1.58 kg (3.48 lbs)
Material	Solid Birch Wood + Polyester Carpet Cloth
Color	Wood Color
Maximum Weight Capacity	40 lbs (18 kg)
Installation Options	Suction Cup (Glass/Ceramic Tile), Wall Mount
Country of Origin	China

9. Warranty

The product comes with a 1-year warranty. Please retain your proof of purchase for any warranty claims. For specific details regarding warranty coverage and terms, please contact Pecute customer support.
