### Unpacking and Inspection

1. Carefully unpack all components from the packaging.
2. Verify that all parts listed in the packing list (refer to product packaging) are present and undamaged.

### Assembly Steps

While specific steps may vary slightly based on the exact configuration, the general assembly involves:

## MAINTENANCE AND CARE

---

Proper maintenance will ensure the longevity and appearance of your vanity desk.

- **Cleaning the Surface:** The glass top and wood surfaces can be cleaned with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Cleaning the Mirror:** Use a glass cleaner and a microfiber cloth to clean the mirror surface. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the electrical components.
- **Drawer Maintenance:** Periodically check drawer slides for smooth operation. If needed, a small amount of silicone spray can be applied to the slides.
- **General Care:** Avoid placing hot items directly on the surface. Use coasters or protective pads. Keep the desk away from direct sunlight and excessive humidity to prevent warping or discoloration of the wood.

# Rounded corner design

The corners have been polished many times to be smooth and not sharp to prevent bumps
