## 5. SETUP

---

### 5.1 Initial Charging of the Power Bank

Before first use, fully charge your AONIMI T5 Power Bank. You have two options for recharging:

1. **Using the Built-in Type-C Cable:** Extend the built-in Type-C cable and plug the USB-A end into a compatible USB wall adapter (not included).
2. **Using the USB-C Port:** Connect the provided USB-C to USB-C cable (or your own USB-A to USB-C cable) to the PD USB-C Input/Output port on the power bank and plug the other end into a compatible wall adapter.

The LCD display will show the charging progress. Once it reaches 100%, the power bank is fully charged.

## 5.2 Charging External Devices

To charge your devices:

- Using Built-in Cables:** Extend the appropriate built-in cable (Type-C, iOS, or Micro USB) and connect it directly to your device.
- Using USB Ports:** Connect your device's charging cable to one of the available USB-A Output ports or the PD USB-C Input/Output port on the power bank.

The power bank will automatically detect the connected device and begin charging. The LCD display will show the remaining power.
