## SIXWIN A7907A3018A4MI2

# SIXWIN Android Car Stereo User Manual

Model: A7907A3018A4MI2

Brand: SIXWIN

## INTRODUCTION

---

This manual provides instructions for the installation, operation, and maintenance of your SIXWIN Android Car Stereo. This device features a 9-inch touchscreen, Android 13 operating system, wireless Apple CarPlay, Android Auto, Bluetooth connectivity, GPS navigation, WiFi, FM radio, and support for a backup camera. Please read this manual thoroughly before use to ensure proper functionality and safety.

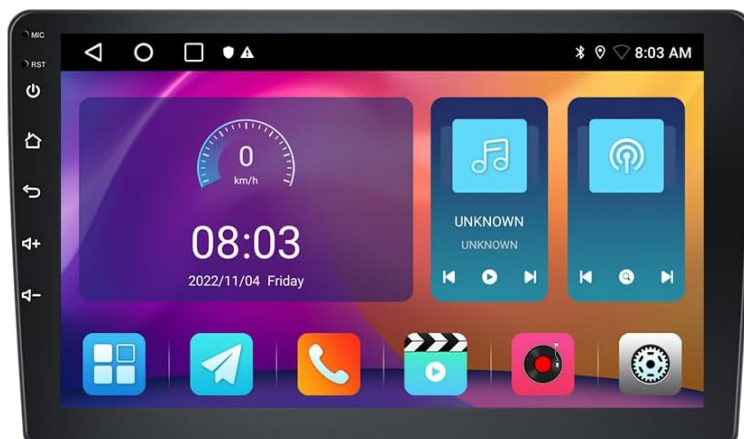

## PACKAGE CONTENTS

---

Verify that all items listed below are included in your package:

- SIXWIN Android Car Stereo Unit (9-inch touchscreen)
- Power Cable
- USB Cables (x2)
- Rear Camera
- Mounting Bracket
- GPS Antenna
- RCA Cable
- User Manual

## SETUP AND INSTALLATION

Installation of this car stereo requires basic knowledge of automotive electrical systems. If you are unfamiliar with car audio installation, it is recommended to seek professional assistance.

### General Installation Steps:

1. **Disconnect Battery:** Before starting, disconnect the vehicle's negative battery terminal to prevent electrical shorts.
2. **Remove Old Head Unit:** Carefully remove your existing car stereo.
3. **Connect Wiring Harness:** Connect the provided power cable and RCA cables to the corresponding ports on the new stereo and your vehicle's wiring harness. Ensure all connections are secure.
4. **Install GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield.
5. **Install Backup Camera (Optional):** If installing the backup camera, route its cable from the rear of the vehicle

to the stereo unit and connect it to the designated input.

6. **Mount Stereo:** Secure the SIXWIN Android Car Stereo into the dashboard using the provided mounting bracket.
7. **Reconnect Battery:** Reconnect the vehicle's negative battery terminal.
8. **Test Functionality:** Power on the stereo and test all functions (radio, Bluetooth, GPS, camera, etc.) before fully reassembling the dashboard.

For detailed wiring diagrams and vehicle-specific instructions, please refer to your vehicle's service manual or consult a professional installer.

## OPERATING INSTRUCTIONS

### 1. Basic Operation

- **Power On/Off:** Press and hold the power button (usually on the left side of the unit) to turn the stereo on or off. A short press typically mutes or unmutes audio.
- **Volume Control:** Use the volume buttons or the on-screen controls to adjust audio levels.
- **Touchscreen Interface:** Navigate through menus and applications by tapping, swiping, and pinching on the 9-inch touchscreen.

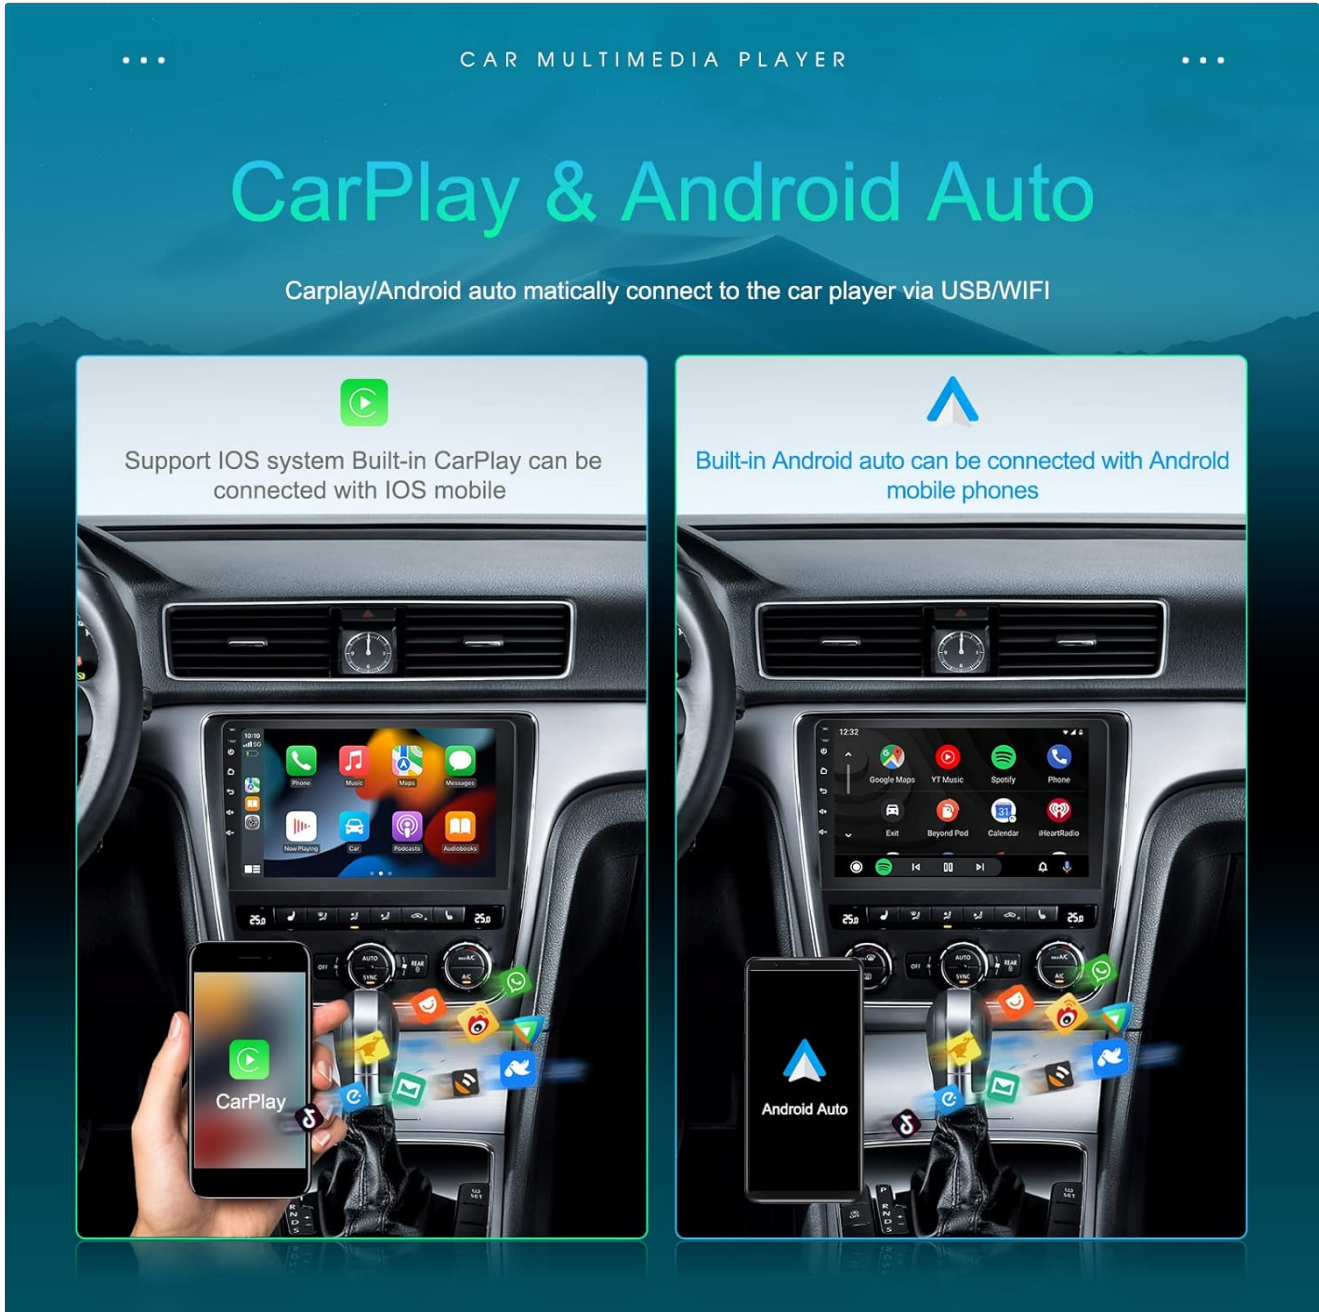

**Figure 2: Main User Interface.** This image displays the home screen of the car stereo, featuring various application icons and system information, highlighting the Android 13 operating system and 2GB RAM + 32GB ROM configuration.

### 2. Wireless CarPlay & Android Auto

The stereo supports both wireless and wired Apple CarPlay and Android Auto. This allows seamless integration of your smartphone for navigation, music, calls, and messages.

1. **For Wireless Connection:** Ensure Bluetooth and Wi-Fi are enabled on your smartphone. Pair your phone with the car stereo via Bluetooth. Once paired, the system will prompt you to enable CarPlay or Android Auto.
2. **For Wired Connection:** Connect your smartphone to one of the stereo's USB ports using a compatible USB cable. The system should automatically detect and launch CarPlay or Android Auto.
3. **Voice Control:** Activate Siri or Google Assistant through voice commands for hands-free operation.

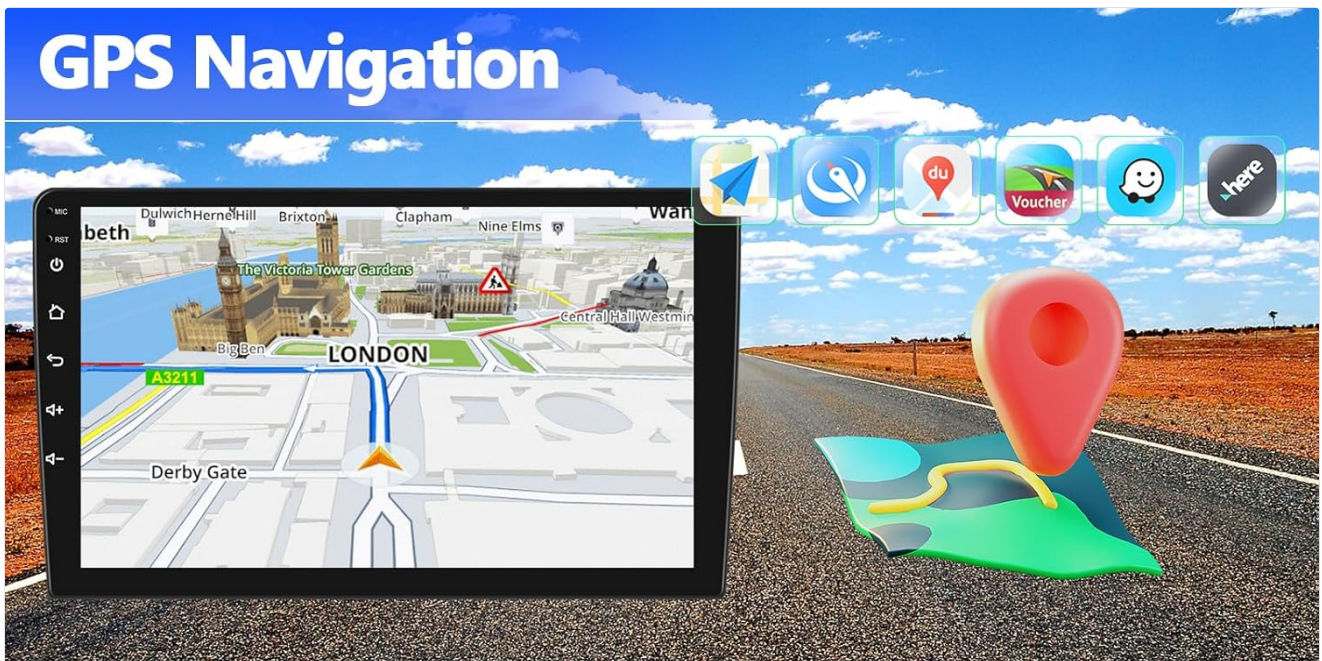

**Note: Samsung phones may not be fully supported for Mirror Link functionality.**

**Figure 3: CarPlay and Android Auto Interface.** This image illustrates the user interfaces for Apple CarPlay and Android Auto as displayed on the car stereo, demonstrating smartphone integration for both iOS and Android devices.

### 3. Mirror Link

Mirror Link allows you to display your smartphone's screen directly onto the car stereo. This feature is supported for both iOS (via Wi-Fi) and Android (via Wi-Fi/USB).

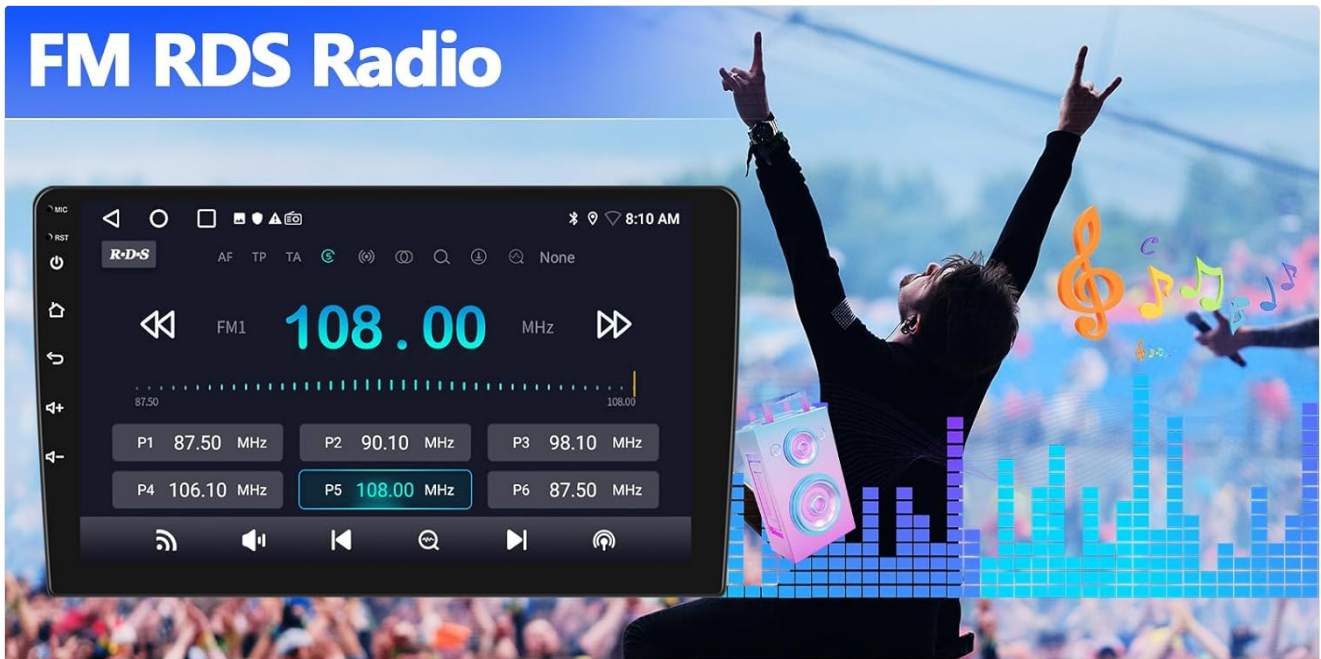

**Figure 4: Mirror Link Functionality.** This image demonstrates the Mirror Link feature, where the content from a smartphone screen is duplicated onto the car stereo's display.

#### 4. GPS Navigation

The stereo has built-in GPS navigation and supports both online and offline maps. It comes pre-installed with the "Here We Go" app.

- **Offline Maps:** Download desired regional maps within the "Here We Go" app for navigation without an internet connection.
- **Online Navigation:** Connect to Wi-Fi to use online navigation services and real-time traffic updates.

**Figure 5: GPS Navigation.** This image shows the car stereo displaying a detailed GPS navigation map, indicating its built-in navigation capabilities.

## 5. WiFi Functionality

Connect the stereo to a Wi-Fi hotspot (e.g., from your smartphone or a dedicated car Wi-Fi device) to access online features, download apps, and browse the internet.

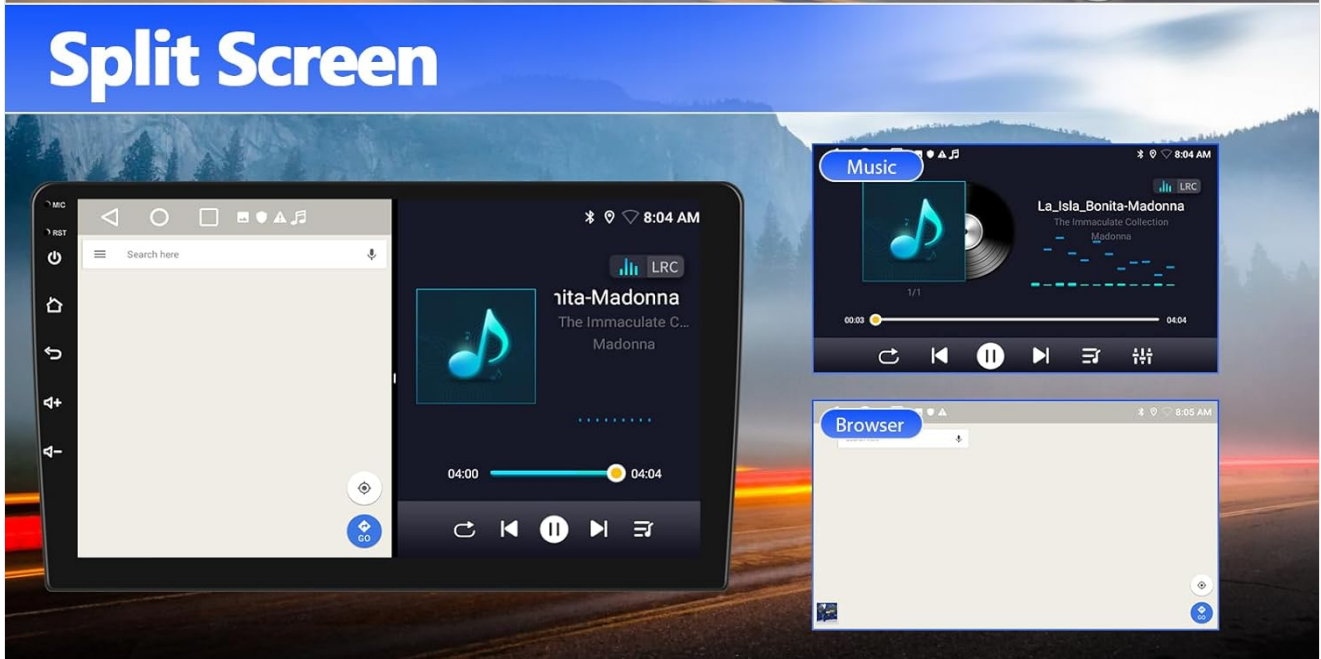

Figure 6: WiFi Connectivity. This image illustrates the stereo's ability to connect to Wi-Fi, enabling access to online applications and services.

## 6. Bluetooth Hands-free & Music

Pair your smartphone via Bluetooth for hands-free calling and audio streaming.

- **Pairing:** Go to the Bluetooth settings on the stereo and your phone, search for available devices, and select the stereo to pair.
- **Hands-free Calling:** Answer or make calls directly from the stereo interface. The built-in microphone ensures clear communication.
- **Bluetooth Music:** Stream audio from your phone to the car stereo.

# High Definition 1080P

## 26UI Themes

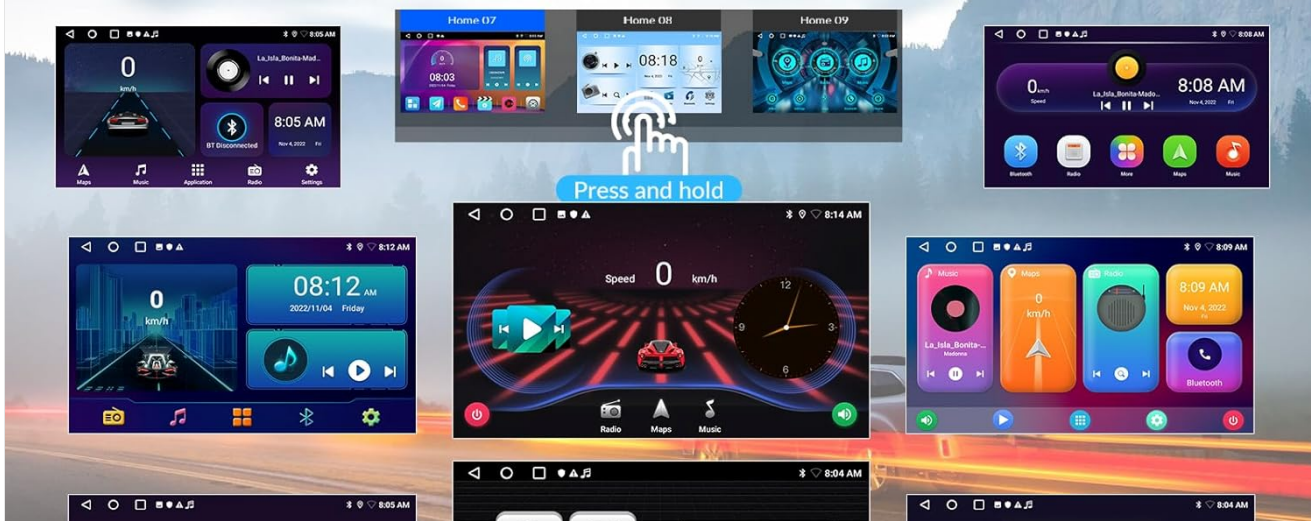

Figure 7: Bluetooth and FM Radio. This image displays the FM radio interface and the Bluetooth connectivity screen, showing options for hands-free calling and music streaming.

### 7. FM Radio

Access FM radio stations with 18 preset options. The frequency range is 87.50-108.0 MHz.

- **Scanning:** Use the on-screen controls to scan for available stations.
- **Presets:** Save your favorite stations to the preset buttons for quick access.

### 8. Steering Wheel Control

The stereo supports steering wheel controls. You will need to configure these settings within the stereo's menu.

- **Configuration:** Navigate to the settings menu and locate the "Steering Wheel Control" option. Follow the on-screen instructions to map your vehicle's steering wheel buttons to the stereo's functions. The default password for settings might be "000000".

**Figure 8: Steering Wheel Control Setup.** This image illustrates the process of configuring steering wheel controls, allowing users to map vehicle buttons to stereo functions for convenience.

## 9. Backup Camera

The stereo is equipped to work with the included AHD backup camera, providing a clear view of the area behind your vehicle when reversing.

- **Automatic Display:** When the vehicle is shifted into reverse, the stereo display will automatically switch to the backup camera feed.
- **Guidelines:** Dynamic or static guidelines may be displayed on the screen to assist with parking.

**Figure 9: Backup Camera View.** This image displays the car stereo showing the feed from the backup camera, complete with parking guidelines, and highlights features like waterproof, night vision, and wide-angle capabilities.

## 10. UI Themes and Customization

The stereo offers 26 unique gradient UI interfaces, allowing for personalization of the display's appearance.

- **Changing Themes:** Access the display settings to browse and select different UI themes.

**Figure 10: Customizable UI Themes.** This image showcases a selection of the 26 available user interface themes, demonstrating the personalization options for the stereo's display.

## 11. Split Screen Functionality

Utilize the split-screen feature to run two applications simultaneously, such as navigation and music playback.

- **Activating Split Screen:** Refer to the system's user interface for instructions on how to activate and manage split-screen mode, typically by long-pressing an app icon or using a dedicated button.

**Figure 11: Split Screen Mode.** This image demonstrates the split-screen feature, allowing two applications, such as navigation and music, to be viewed simultaneously on the display.

## 12. EQ Function

The built-in equalizer (EQ) function allows you to customize audio output for optimal sound quality.

- **Adjusting EQ:** Access the audio settings to adjust frequency bands, balance, fader, and select preset sound modes (e.g., Pop, Rock, Jazz).

**Figure 12: Equalizer (EQ) Settings.** This image displays the stereo's equalizer interface, showing options for fine-tuning audio frequencies and sound distribution within the vehicle.

## MAINTENANCE

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates via the system settings to ensure optimal performance and access to new features.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold for prolonged periods.

## TROUBLESHOOTING

| Problem                             | Possible Cause   | Solution   |
|-------------------------------------|--|--|
| No power                            | Loose power connection, blown fuse.                            | Check power cables and vehicle fuses. Ensure battery is connected.                 |
| No sound                            | Volume muted, incorrect audio source, loose speaker wires.     | Check volume level, select correct audio source, verify speaker connections.       |
| CarPlay/Android Auto not connecting | Bluetooth/Wi-Fi off, incompatible cable, phone software issue. | Ensure Bluetooth/Wi-Fi is on. Try a different USB cable. Restart phone and stereo. |
| GPS signal lost                     | GPS antenna obstructed or disconnected.                        | Ensure GPS antenna has a clear view of the sky and is securely connected.          |
| Backup camera not displaying        | Camera cable loose, incorrect wiring, camera malfunction.      | Check camera connections. Ensure reverse trigger wire is correctly connected.      |
| Touchscreen unresponsive            | Temporary software glitch.                                     | Perform a soft reset (refer to specific device instructions or power cycle).       |

## SPECIFICATIONS

- **Model:** A7907A3018A4MI2
- **Operating System:** Android 13

- **Memory:** 2GB RAM + 32GB ROM
- **Screen Size:** 9-inch Touchscreen
- **Connectivity:** Wireless CarPlay, Android Auto, Bluetooth, WiFi
- **Navigation:** Built-in GPS (supports online/offline maps)
- **Radio:** FM (87.50-108.0 MHz), 18 preset stations
- **Audio Output:** Stereo, RCA, Speakers
- **Control Method:** Touchscreen, Voice, Steering Wheel Control
- **Compatible Devices:** Smartphone
- **Item Weight:** 2.33 pounds
- **Product Dimensions:** 1 x 1 x 1 inches *(Note: These dimensions seem generic, refer to actual product for precise fitment)*
