Cloudpower Mineral Absorption Pads User Manual

Model: HM713/HM713S Compatible Filters

Introduction

Thank you for choosing Cloudpower Mineral Absorption Pads. These pads are specifically designed to enhance the performance and longevity of your Dreo HM713 and HM713S humidifiers. By effectively capturing minerals from the water, they help reduce scale buildup, ensuring consistent and efficient humidification.

Product Features

- **Optimized Humidification Performance:** These pads reduce mineral deposits around the PTC plate, ensuring a consistent release of humidity into the air.
- **Reduced Limescale Buildup:** Effectively capture unwanted minerals from water, significantly minimizing limescale accumulation in your humidifier. This leads to easier maintenance and extends the appliance's lifespan.
- **Safe and Healthy Materials:** Manufactured from PP cotton, these humidifier cartridges are safe for both users and the environment.
- **Perfect Fit:** Specifically designed for Dreo HM713 and HM713S humidifier models, ensuring seamless integration and enhanced functionality.

Setup and Installation

Installing the Cloudpower Mineral Absorption Pads is a simple process. Follow these steps to ensure proper placement and optimal performance:

1. Ensure your Dreo HM713 or HM713S humidifier is turned off and unplugged from the power source.
2. Open the humidifier's water tank or access panel to locate the area where the mineral absorption pad is placed. Refer to your humidifier's specific manual for exact location if unsure.
3. Remove any old or used mineral absorption pad. Dispose of it properly.
4. Place a new Cloudpower Mineral Absorption Pad into the designated slot or area. Ensure it lies flat and is securely positioned.
5. Close the water tank or access panel.
6. You can now refill your humidifier with water and plug it back in.

Operating Principles

The Cloudpower Mineral Absorption Pads work by attracting and trapping minerals present in the water before they can accumulate as limescale within your humidifier. This process helps maintain the efficiency of the humidifier's heating element (PTC plate) and ensures that only clean, mineral-reduced mist is dispersed into the air. Regular use of these pads contributes to a healthier indoor environment and extends the operational life of your humidifier.

Maintenance

To ensure optimal performance and longevity of your humidifier, regular replacement of the mineral absorption pads is crucial. The pads absorb minerals over time, and their effectiveness diminishes with saturation.

- **Replacement Schedule:** It is recommended to replace the mineral absorption pads every *three weeks* for best results.

This ensures your humidifier continues to operate efficiently and quietly.

- **Disposal:** Used pads should be disposed of with regular household waste.

Troubleshooting

While Cloudpower Mineral Absorption Pads are designed to prevent common issues, here are some points related to their function:

Problem	Possible Cause (Pad Related)	Solution
Increased Limescale Buildup	Pad is saturated with minerals or past its recommended replacement time.	Replace the mineral absorption pad with a new one. Ensure regular replacement every three weeks.
Reduced Humidifier Output	Excessive mineral buildup on the PTC plate due to an old or missing pad.	Replace the pad. Clean the humidifier's PTC plate and water tank thoroughly according to your humidifier's manual.
Unusual Odor from Humidifier	Mineral buildup or stagnant water, potentially exacerbated by an ineffective pad.	Replace the pad. Clean the humidifier thoroughly. Use distilled or demineralized water if possible.

Specifications

Attribute	Detail
Product Name	Mineral Absorption Pads
Brand	Cloudpower
Model Compatibility	Dreo HM713, Dreo HM713S Humidifiers
Material	PP Cotton (Polypropylene Fiber Cotton)
Color	White
Product Dimensions (L x W x H)	12 x 6 x 4 cm (approximate for package)
Item Weight	16 g (approximate for package)
Quantity	16 pads per pack

Warranty and Support

Specific warranty information for Cloudpower Mineral Absorption Pads is not provided in the product details. For any questions regarding product performance, compatibility, or support, please refer to the seller or manufacturer's contact information provided at the point of purchase.
For Dreo humidifier specific support or troubleshooting, please consult your Dreo humidifier's user manual or contact Dreo customer service directly.
