## SETUP AND ASSEMBLY

Assembly of this dresser is required. A detailed assembly manual with text and schematic instructions is included to guide you through the process. We recommend using a drill for assembly to ensure all connections are secure and the dresser is stable.

## Materials and Preparation

The dresser is crafted from natural rubberwood, offering a safe and sturdy construction. It comes unfinished, allowing for personalized customization through staining or painting. Before assembly, consider applying your desired finish.

- Sanding:** While the wood is generally smooth, some users recommend light sanding (e.g., 400 grit) for an optimal finish.
- Staining/Painting:** Apply your chosen stain or paint before assembly for easier and more even coverage. Multiple coats may be required. Ensure to also finish the drawer knobs if desired.
- Hardware:** Be careful not to overtighten screws and other parts during assembly to prevent damage. Snug but not super tight is sufficient.

## Safety Features

The dresser includes several features designed for stability and safety:

- **Adjustable Feet:** To keep the cabinet level on uneven surfaces.
- **Anti-Slip Pads:** To prevent the cabinet from sliding.
- **Mending Wedges:** For additional stability.
- **Anti-Tipping Device:** To reduce accidents or injuries. It is highly recommended to install the anti-tipping device to secure the dresser to a wall.

## OPERATING INSTRUCTIONS

Your VINGLI dresser is designed for convenient storage with its six spacious drawers.

- **Drawer Dimensions:** Each drawer has an internal dimension of 24.4 inches (W) x 13.2 inches (D) x 7 inches (H), providing ample space for various items.
- **Smooth Operation:** Each drawer is equipped with durable iron 2-section glides, ensuring smooth and effortless opening and closing.
- **Drawer Knobs:** The drawers feature comfortable and ergonomic rubber wood knobs.

## MAINTENANCE

To keep your VINGLI dresser in excellent condition, follow these simple maintenance guidelines:

- Cleaning:** Wipe with a dry cloth to remove dust and debris. Avoid harsh chemicals or abrasive cleaners that may damage the wood finish.
- Finishing:** As the dresser is unfinished, you have the option to apply a stain, paint, or protective sealant to enhance its durability and appearance. Follow the manufacturer's instructions for any finishing products used.
- Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.

## TROUBLESHOOTING

If you encounter any issues with your dresser, consider the following common solutions:

- Wobbly Dresser:** Ensure all assembly screws are properly tightened. If the dresser feels wobbly, re-check all connections. Using a drill during initial assembly can help prevent this.
- Drawer Alignment:** If drawers do not align perfectly, check the installation of the drawer slides and ensure they are correctly positioned. Minor adjustments may be needed.
- Wood Imperfections:** As a natural wood product, minor imperfections like wood filler spots may be present. These can often be minimized with light sanding before finishing.
- Anti-Tipping Device:** Always ensure the anti-tipping device is correctly installed and secured to the wall to prevent accidental tipping.
