PUGEFUJI F35

PUGEFUJI Portable Air Conditioner User Manual

Model: F35

Product Overview

The PUGEFUJI Portable Air Conditioner (Model F35) is a versatile 4-in-1 device designed to provide personal cooling and air humidification. It functions as a fan, personal air conditioner, air cooler, and air humidifier. This unit is suitable for use throughout the year, offering cooling in warm conditions and humidifying the air in dry environments. A full water tank provides continuous misting for 8-12 hours.

Image: The PUGEFUJI Portable Air Conditioner F35, grey in color, with a blue internal light indicating airflow. A USB-C cable is shown at the top left, and ice cubes are visible at the bottom right, suggesting its cooling capabilities. The unit features a handle for portability and a control panel on the front.

Safety Instructions

- Ensure the device is placed on a stable, flat surface to prevent tipping.
- Do not block the air inlet or outlet during operation.
- Keep the device away from direct sunlight and heat sources.
- Do not immerse the device in water or other liquids.
- Unplug the device from the power source before cleaning or maintenance.
- Keep out of reach of children and pets.
- Use only the provided Type-C cable for power.
- Do not disassemble or attempt to repair the device yourself. Contact customer support for assistance.

Package Contents

- 1 x PUGEFUJI Portable Air Conditioner (Model F35)
- 1 x User Manual
- 1 x Type-C Cable

Setup

1. **Unpack:** Carefully remove the air conditioner and all accessories from the packaging.
2. **Placement:** Place the unit on a firm, level surface. Ensure there is adequate space around the unit for proper airflow.
3. **Fill Water Tank:** Open the water tank cover. Fill the 1L reservoir with clean tap water. For enhanced cooling, add cold water or ice cubes. Do not overfill past the maximum fill line.
4. **Connect Power:** Insert the Type-C cable into the power port on the unit and connect the other end to a compatible USB power adapter (not included) or a USB port. The device requires 5 Volts and 2 Amps.

Operating Instructions

Control Panel Overview

The control panel features touch-sensitive buttons for various functions.

- **Power Button:** Turns the unit on or off.
- **Fan Speed Button:** Cycles through 3 fan speeds (low, medium, high).
- **Mist Button:** Activates or deactivates the misting function. There are 2 mist levels.
- **Timer Button:** Sets the automatic shut-off timer for 2 or 4 hours.
- **LED Light Button:** Cycles through 7 different LED light colors or turns the light off.

Basic Operation

1. **Power On:** Press the Power Button ( ) to turn on the unit.
2. **Adjust Fan Speed:** Press the Fan Speed Button (☼) repeatedly to select your desired fan speed (1, 2, or 3).
3. **Activate Mist:** Press the Mist Button (❄) to enable the humidifying mist function. Press again to cycle through mist levels or turn off.
4. **Set Timer:** Press the Timer Button ( ) to set the unit to automatically turn off after 2 or 4 hours.
5. **Change LED Light:** Press the LED Light Button ( ) to cycle through the 7 ambient light colors or turn the light off.
6. **Adjust Airflow Direction:** Manually adjust the front grille up or down within a 60° range to direct the airflow.
7. **Power Off:** Press the Power Button ( ) again to turn off the unit.

Maintenance

Regular maintenance ensures optimal performance and longevity of your air conditioner.

- **Cleaning the Water Tank:**
    a. Unplug the unit from the power source.
    b. Empty any remaining water from the tank.
    c. Wipe the inside of the water tank with a soft, damp cloth. For stubborn deposits, use a mild detergent solution and rinse thoroughly.
    d. Allow the tank to air dry completely before refilling or storing.
- **Cleaning the Exterior:**

- Wipe the exterior of the unit with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.

- **Filter Maintenance:**
  The unit features an evaporative filter. While specific instructions for filter removal and cleaning are not provided, it is recommended to periodically check the filter for dust buildup. If accessible, gently brush off any dust. If the filter appears heavily soiled or damaged, contact customer support for replacement options.
- **Storage:**
  - If storing the unit for an extended period, ensure the water tank is empty and dry.
  - Clean the unit thoroughly.
  - Store in a cool, dry place, away from direct sunlight.

Troubleshooting

Problem	Possible Cause	Solution
Unit does not turn on.	No power supply; cable not connected; power adapter faulty.	Ensure the Type-C cable is securely connected and the power adapter is working. Try a different USB port or adapter.
No mist is produced.	Water tank is empty; mist function not activated; mist nozzle blocked.	Refill the water tank. Press the Mist Button. Check if the mist nozzle is clear of obstructions.
Weak airflow.	Fan speed set too low; air inlet/outlet blocked; filter dirty.	Increase fan speed. Ensure nothing is blocking the air vents. Clean the filter if accessible.
Unit is noisy.	Unit not on a stable surface; internal component issue.	Place the unit on a stable, flat surface. If noise persists, contact customer support.

If the problem persists after attempting these solutions, please contact customer support.
