4D Build 6075064

4D Build Pokémon Squirtle 3D Puzzle Model Kit Instruction Manual

Product Overview

This manual provides detailed instructions for assembling and caring for your 4D Build Pokémon Squirtle 3D Puzzle Model Kit. This kit allows you to construct a detailed replica of the Water-type Pokémon, Squirtle, using 180 premium EPS foam pieces. The completed model is designed for display and requires no glue or additional tools for assembly.

The kit includes 16 high-quality EPS foam sheets with intricate punch-out pieces and easy-to-follow instructions. Once assembled, the Squirtle model measures approximately 9.3 inches (width) x 10.1 inches (length) x 9.2 inches (height).

Setup and Preparation

1. **Unpack Contents:** Carefully remove all items from the packaging. Verify that you have 16 EPS foam 3D puzzle sheets and the instruction booklet.
2. **Inspect Pieces:** Before beginning assembly, examine all foam sheets for any damage or missing pieces. Each sheet contains multiple numbered pieces.
3. **Prepare Workspace:** Ensure you have a clean, flat, and well-lit surface to work on. This will help prevent loss of small pieces and facilitate easier assembly.

Assembly Instructions

Follow the numbered steps provided in the included instruction booklet. The assembly process is designed to be intuitive, with pieces interlocking securely without the need for adhesives.

1. **Identify Pieces:** Each piece is numbered. Locate the corresponding numbers on the foam sheets and carefully punch them out. Use caution to avoid tearing or damaging the pieces.
2. **Follow Sequence:** Begin assembly according to the numerical sequence indicated in the instruction booklet. The pieces are designed to fit together in a specific order to form the 3D structure.
3. **Interlock Gently:** When connecting pieces, align the tabs and slots carefully and press them together gently. Avoid forcing pieces, as this can cause damage.
4. **Build Layer by Layer:** The model is typically built in layers or sections. Complete each section before moving to the next, ensuring all connections are firm.
5. **Refer to Diagrams:** The instruction booklet contains visual diagrams to guide you through each step. Refer to these diagrams frequently to ensure correct placement and orientation of pieces.

Care and Maintenance

- **Cleaning:** To clean the assembled model, gently wipe it with a dry, soft cloth. Avoid using water, cleaning solutions, or abrasive materials, as these can damage the foam.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause colors to fade.
- **Handling:** Handle the model with care to prevent pieces from detaching or bending. Avoid dropping or applying excessive pressure to the assembled structure.
- **Disassembly:** While the puzzle can be disassembled, frequent disassembly and reassembly may weaken the interlocking tabs and slots.

Troubleshooting

- **Difficulty Connecting Pieces:** Ensure the pieces are correctly oriented and that the tab and slot numbers

match. Apply gentle, even pressure. Do not force pieces.

- **Pieces Not Fitting Snugly:** Double-check that all previous connections are secure. Sometimes a loose connection earlier in the assembly can affect subsequent fits.
- **Missing Pieces:** Carefully re-examine the foam sheets and your workspace. If a piece is genuinely missing, contact customer support with details of the missing part number.
- **Damaged Pieces:** If a piece is damaged during punching out or assembly, attempt to carefully repair it with a small amount of craft glue if necessary. For significant damage, contact customer support.

Product Specifications

Brand	4D Build
Model Number	6075064
Number of Pieces	180
Material	EPS Foam (Paper)
Assembled Dimensions (L x W x H)	10.1" x 9.3" x 9.2" (25.6cm x 23.7cm x 23.5cm)
Recommended Age	12 years and up
Assembly Type	3D Puzzle, Interlocking (No Glue Required)
Educational Objective	Logical Thinking
