FLEXISPOT Queen Adjustable Bed Instruction Manual

Model: B0DTJQM9PV

INTRODUCTION

Thank you for choosing the FLEXISPOT Queen Adjustable Bed. This manual provides detailed instructions for the safe assembly, operation, and maintenance of your new adjustable bed. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

- Ensure all components are securely fastened before use.
- Keep hands and feet clear of moving parts during adjustment.
- Do not allow children or pets to operate the bed without supervision.
- Do not exceed the maximum weight capacity of 600 pounds.
- Unplug the bed from the power outlet before cleaning or maintenance.

PACKAGE CONTENTS

Your FLEXISPOT Queen Adjustable Bed package includes the following components:

- Adjustable Bed Frame (Queen Size)
- Storage Headboard with Integrated Charging Station
- DC Motors (pre-installed)
- Magnetic Remote Control for bed adjustments
- LED Lighting Strip with Remote Control
- Two Fabric Under-Bed Storage Drawers on wheels
- Assembly Hardware and Tools (Allen wrench, screws)

Packaged in One Box

Our adjustable bed comes neatly packaged in a single, easy-to-move box, so you can enjoy your new bed without the stress of heavy lifting.

Image: All components of the FLEXISPOT adjustable bed are efficiently packaged in a single box for convenient delivery and setup.

SETUP AND ASSEMBLY

Follow these steps to assemble your FLEXISPOT Queen Adjustable Bed. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify all components are present against the parts list.
2. **Assemble Headboard:** Attach the headboard frame components using the provided screws and Allen wrench. Ensure all connections are secure.
3. **Connect Bed Frame Sections:** Attach the main bed frame sections to the headboard. The frame is designed for easy interlocking assembly.
4. **Install Side Rails and Slats:** Secure the side rails and then place the slats across the frame. The mute pads on the slats reduce friction and noise.
5. **Install Under-Bed Storage Drawers:** Slide the two fabric drawers into the designated slots at the foot of the bed. These drawers are on wheels for easy access.
6. **Connect Power and LED Lighting:** Plug in the power cord for the adjustable motors and the LED lighting strip. Route cables neatly to avoid entanglement.

Easy to Assemble

Assembly is a breeze with interlocking slats and everything you need included for a quick and effortless setup.

OPERATING INSTRUCTIONS

Adjustable Head Lift

Use the magnetic remote control to adjust the head section of the bed. The head incline can be raised from 0 degrees (flat) to 60 degrees. Press the 'up' arrow to raise and the 'down' arrow to lower. This feature is ideal for reading, watching TV, or alleviating conditions like acid reflux and snoring.

Image: Custom head elevation allows for finding perfect relaxing and sleeping positions, adjustable from 0° to 60°.

Magnetic Remote Control

The bed's remote control is magnetic, allowing it to securely attach to the metal frame of the headboard. This ensures the remote is always within easy reach and prevents it from getting lost.

Magnetic Remote Design

Keep your remote within reach at all times!

Image: The magnetic remote control conveniently attaches to the bed frame, keeping it accessible.

Storage Headboard with Charging Station

The headboard includes a convenient storage shelf and an integrated charging station. The charging station features 2 power outlets, 1 USB port, and 1 Type-C charging port to keep your devices powered and within reach.

Rest and Recharge

Features a power solution with 1 USB-A, 1 USB-C charging ports and two outlets on the headboard.

MAINTENANCE

- **Cleaning:** Wipe the metal frame with a damp cloth. For fabric parts, use a mild fabric cleaner as needed. Do not use harsh chemicals.
- **Motor Care:** The heavy-duty DC motors are designed for durability. No special maintenance is required. If you experience issues, refer to the troubleshooting section or contact support.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Tighten if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed does not adjust.	Power cord unplugged; remote battery low; motor malfunction.	Check power connection; replace remote batteries; contact support if motor issue persists.
LED lights not working.	Light strip unplugged; remote battery low; strip damage.	Check power connection to light strip; replace remote batteries; contact support.
Noise during adjustment.	Loose fasteners; obstruction.	Check and tighten all screws; ensure no objects are obstructing moving parts.
