6.3. Fan Speed Settings

The chimney offers 9 levels of speed control, allowing you to adjust suction power based on your cooking needs, from low noise for light cooking to full power for heavy smoke and grease.

7. Maintenance

Regular maintenance ensures the longevity and optimal performance of your Livpure Eterna Chimney.

7.1. Filterless Auto-Clean Function

The filterless design combined with the auto-clean function significantly reduces manual cleaning effort. This feature automatically dislodges accumulated oil and grease residue, directing it to the oil collector.

Figure 7: Illustration of the auto-clean technology.

7.2. Oil Collector

Periodically check and empty the oil collector tray. Ensure it is properly reinserted after cleaning.

7.3. Exterior Cleaning

Wipe the exterior surfaces with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

8. Troubleshooting

If you encounter issues with your chimney, refer to the following common troubleshooting tips:

- **Chimney not turning on:** Check the power supply and ensure the appliance is properly plugged in. Verify that the circuit breaker has not tripped.
- **Low suction power:** Ensure the oil collector is not full and the ducting is clear of obstructions. Run the auto-clean cycle.

- **Unusual noise:** Check for loose parts or foreign objects in the fan area. If the noise persists, contact customer support.
- **Controls unresponsive:** Try resetting the power to the unit. If using gesture control, ensure your hand movements are clear and within the sensor's range.

For issues not resolved by these steps, please contact Livpure customer support.
