VEVOR 62496A

VEVOR Studio Equipment Trolley Case

Model: 62496A
Brand: VEVOR

1. Product Overview

The VEVOR Studio Equipment Trolley Case is designed for secure and convenient transport of various photography and studio equipment. Its robust construction and customizable interior ensure your gear is protected during travel and storage.

- **Spacious Capacity:** Offers 62.5 L (62496 cm^3) of storage, accommodating telescopes, flash units, LED video lights, tripods, microphone stands, and other accessories.
- **Durable Exterior:** Constructed from waterproof 1680D nylon fabric, providing resistance against wear, scratches, and moisture.
- **Multiple Carrying Options:** Features smooth-rolling wheels for effortless pulling, a comfortable top handle for carrying, and a shoulder strap for hands-free transport.
- **Customizable Interior:** Includes detachable padded dividers and mesh pockets for organized and flexible storage of various-sized items. Secure straps keep equipment firmly in place.
- **Enhanced Protection:** Built with 0.32 in/8 mm thick pearl foam at the top, and a combination of pearl foam and plywood at the bottom. Sides are reinforced with pearl foam and honeycomb panels for comprehensive shock protection.

2. Setup and Assembly

The VEVOR Studio Equipment Trolley Case comes with adjustable dividers to customize the interior layout according to your equipment needs.

2.1 Configuring Internal Dividers

1. Unzip the main compartment of the trolley case.
2. Identify the long and short padded dividers. These dividers feature hook-and-loop fasteners (Velcro) on their edges.
3. The interior lining of the case is designed to accept these fasteners. Position the dividers as desired to create compartments for your equipment. Press firmly along the edges of the dividers to secure them to the case lining.
4. Use the included straps to further secure larger items within the compartments, preventing movement during transport.

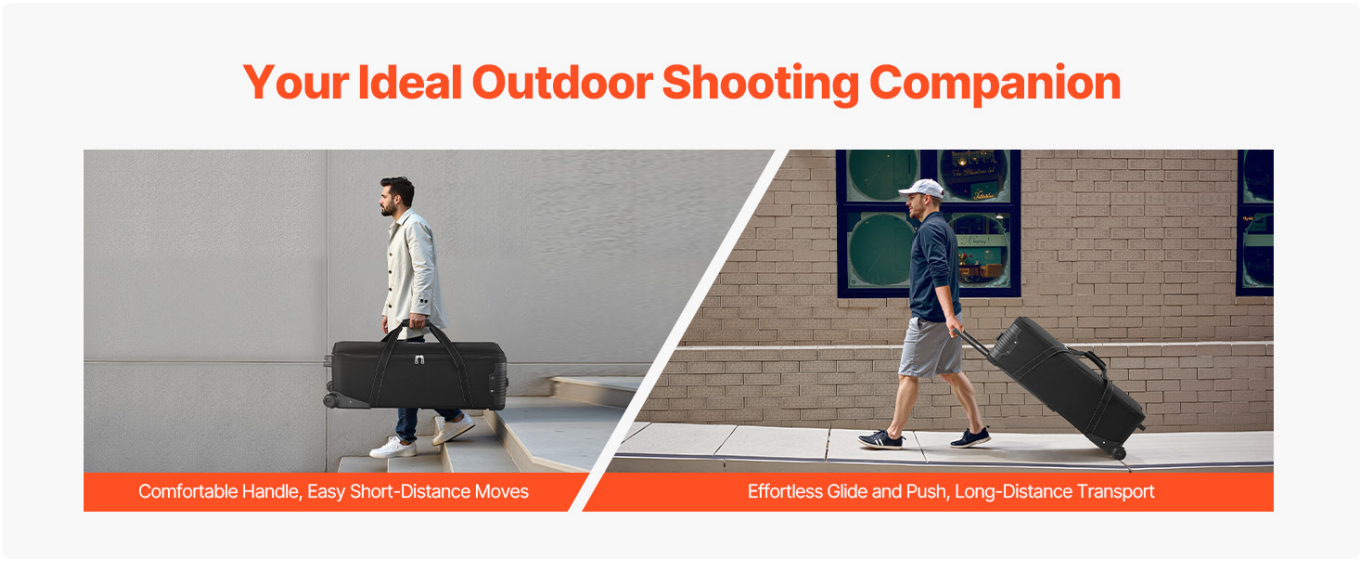

Image 2: Demonstrating the flexible compartment setup with detachable padded dividers, allowing for customized organization of accessories.

2.2 Utilizing Mesh Pockets

The lid of the main compartment features mesh pockets with zippers. These are ideal for storing smaller accessories such as cables, batteries, memory cards, or cleaning supplies.

3. Operating Instructions

3.1 Packing Equipment

- Place heavier and more fragile items at the bottom of the case, utilizing the padded dividers for separation and cushioning.
- Ensure all equipment is snug within its compartment to prevent shifting during transport. Use the internal straps to secure items if necessary.
- Utilize the mesh pockets for small, easily misplaced items.
- Close the main zipper securely once all items are packed.

3.2 Transporting the Case

The trolley case offers three primary methods of transport:

- **Rolling:** Extend the retractable handle by pressing the button on the handle grip and pulling upwards. Tilt the case and pull it using the smooth-rolling wheels.
- **Carrying (Top Handle):** For short distances or lifting, use the reinforced top handle. Ensure the straps are secured together for a comfortable grip.
- **Shoulder Carry:** Attach the optional shoulder strap (if included) to the D-rings on the sides of the case for hands-free transport.

4. Maintenance

4.1 Cleaning the Exterior

- Wipe the waterproof nylon exterior with a damp cloth and mild soap if necessary.
- Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric.
- Allow the case to air dry completely before storage.

4.2 Cleaning the Interior

- The interior lining can be unzipped and removed for thorough cleaning.
- Hand wash the lining with mild soap and water, then air dry.
- Clean the padded dividers with a damp cloth.

4.3 Wheel and Zipper Care

- Periodically check the wheels for debris and clean as needed to ensure smooth operation.
- Lubricate zippers with a silicone-based spray if they become stiff.

5. Troubleshooting

If you encounter any issues with your VEVOR Studio Equipment Trolley Case, please refer to the following common solutions:

- **Sticking Zippers:** Apply a small amount of zipper lubricant or graphite from a pencil along the zipper teeth.
- **Wheels Not Rolling Smoothly:** Check for any debris (dirt, hair, lint) caught in the wheel axles. Clean thoroughly.
- **Dividers Not Staying in Place:** Ensure the hook-and-loop fasteners on the dividers are clean and free of lint. Press them firmly against the case's interior lining.
- **Retractable Handle Sticking:** Ensure no obstructions are present in the handle mechanism. Apply a silicone spray to the telescoping rods if needed.

For further assistance, please contact VEVOR customer support.

6. Specifications

Feature	Detail
