

## GIODIR 8x8x5 FT BBQ Grill Gazebo

# GIODIR 8x8x5 FT BBQ Grill Gazebo Outdoor Instruction Manual

Model: 8x8x5 FT BBQ Grill Gazebo

## 1. IMPORTANT SAFETY INFORMATION

---

Please read and understand all instructions and safety warnings before assembly and use of this product. Failure to follow these instructions may result in injury or damage to the product.

- Always secure the gazebo to a stable foundation using the provided sandbags or other appropriate anchoring methods, especially in windy conditions.
- Exercise caution when assembling or disassembling the product, as metal frame components may present a risk of injury. Wear appropriate protective gear, such as gloves.
- Keep children and pets away from the assembly area and the gazebo when it is in use to prevent accidents.
- Do not use open flames or heating devices directly under the canopy without adequate ventilation and safety precautions.
- Regularly inspect all connections and components to ensure they are secure and in good condition.
- Remove canopy fabric during severe weather conditions (heavy winds, snow, hail) to prevent damage to the gazebo structure.

## 2. PACKAGE CONTENTS AND COMPONENTS

---

Before beginning assembly, ensure all parts listed below are present and undamaged. If any parts are missing or damaged, contact customer support.

### 2.1 Main Structure Components

- Heavy-duty powder-coated metal frame (alloy steel poles and ribs)
- Double-tier vented canopy (polyester fabric, flame-retardant, rain-resistant, sun-protective)
- Stretchable side awning (7'x3') with hydraulic rod design
- Ground stakes/sandbags (for anchoring)

## 2.2 Accessory Components

- 2 Metal ventilated shelves
- 12 Hooks for hanging utensils
- Integrated bottle opener
- Ceiling hook for lighting or decor
- Assembly hardware (thumb screws, bolts, nuts)

## 3. ASSEMBLY INSTRUCTIONS

---

Assembly typically requires two adults. No additional tools are required beyond what is provided. Follow these steps carefully for proper setup.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out and compare them against the parts list to ensure everything is present.

2. **Assemble the Base Frame:** Connect the horizontal base poles to the vertical support poles using the provided thumb screws. Ensure all connections are secure.
3. **Attach Vertical Support Poles:** Securely attach the four main vertical support poles to the base frame.
4. **Install Roof Frame:** Assemble the roof frame structure. This typically involves connecting the roof ribs to the top connectors.
5. **Mount the Canopy:** Drape the double-tier canopy fabric over the roof frame. Ensure the vented top is correctly positioned for air circulation. Secure the canopy to the frame using the integrated fasteners.
6. **Attach Side Awning:** Install the stretchable side awning. The hydraulic rod design allows for easy adjustment and secure positioning. Refer to the specific diagram for connecting the awning mechanism.
7. **Install Shelves and Accessories:** Attach the two metal ventilated shelves to the designated locations on the frame. Install the 12 hooks and the bottle opener.
8. **Secure the Gazebo:** Once fully assembled, anchor the gazebo to the ground using the provided ground stakes or sandbags. This is crucial for stability and safety, especially in windy conditions.

## UPGRADED HYDRAULIC ROD DESIGN

Anti-Rust & Anti-Corrosion & Easy to Open

Image: The gazebo demonstrating the adjustable side awning in both extended and retracted positions, illustrating its versatility for sun protection.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Using the Side Awning

The gazebo features a stretchable side awning (7'x3') designed to provide additional shade and protection. The awning can be folded out at various angles to suit your needs, offering shade for food or shelter during light rain or wind. The 3-level extension pole allows for angle adjustment. To adjust, gently push or pull the awning to the desired position and ensure the hydraulic rod locks it securely.

### 4.2 Vented Double-Tier Canopy

The double-tier design of the canopy promotes better air circulation and facilitates smoke evacuation from your grill. This design also helps maintain temperature stability within the gazebo area. The polyester fabric is flame-retardant, rain-resistant, and sun-protective, offering protection from UV rays.

# VENTILATED 2-TIER TOP

The ventilated 2-tier steel top provides safety from harmful UV rays or rain, while allowing the wind and grill smoke to pass through freely, encouraging air circulation.

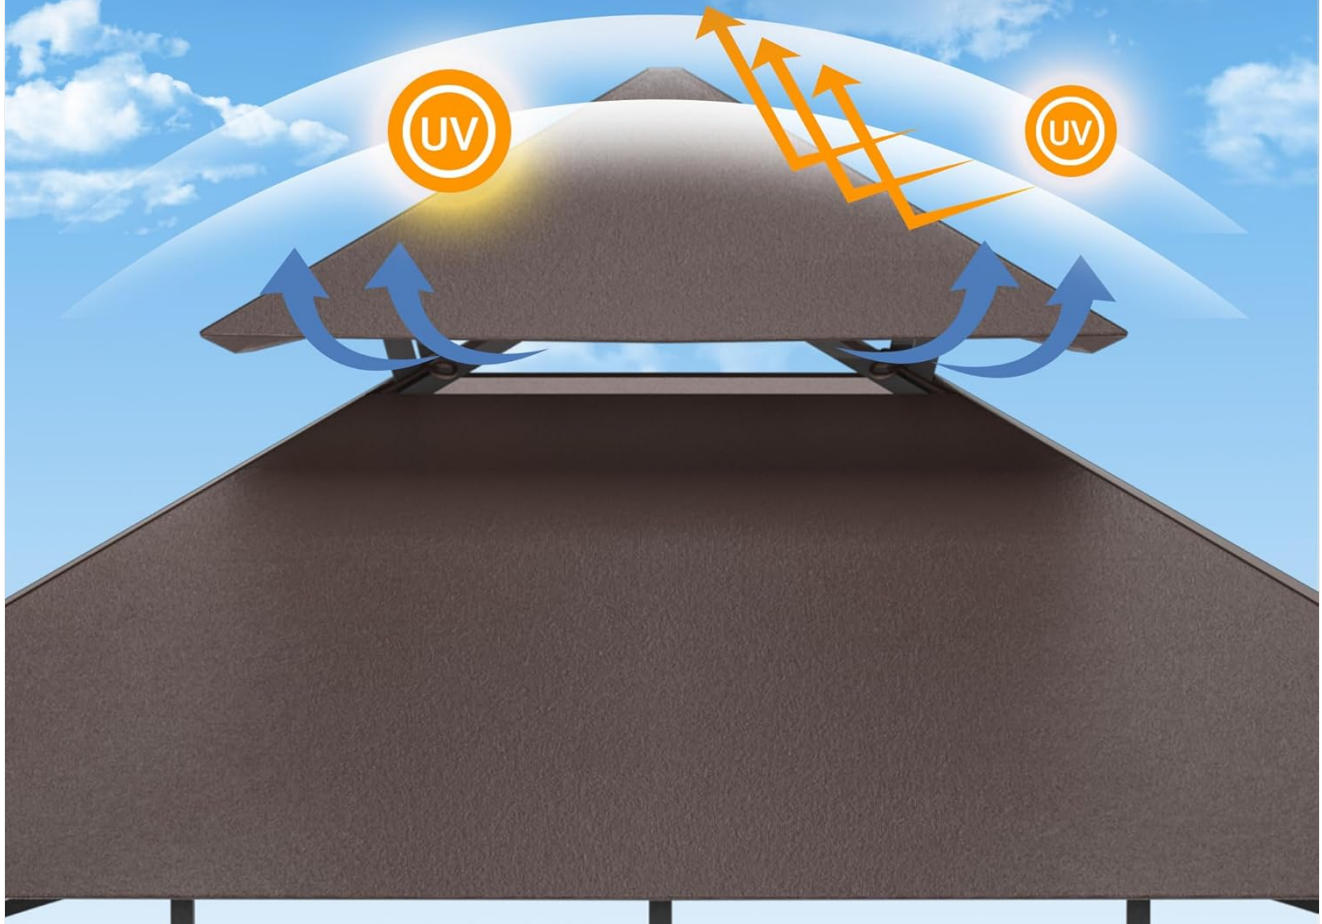

Image: Illustration of the double-tier vented canopy, demonstrating how it allows wind and grill smoke to pass through, ensuring air circulation and UV protection.

## 4.3 Storage and Convenience Features

- **Ventilated Shelves:** Utilize the two metal ventilated shelves for convenient storage of food, drinks, grilling tools, or other items.
- **Hanging Hooks:** The 12 integrated hooks are ideal for hanging cooking essentials such as spatulas, tongs, and towels, keeping them within easy reach.
- **Bottle Opener:** A built-in bottle opener provides added convenience for outdoor entertaining.
- **Ceiling Hook:** A sturdy ceiling hook is provided for suspending a light fixture, fan, or decorative item. Ensure any suspended items do not exceed the weight limit specified in the product manual (if applicable) and are safely installed.

# PRODUCT DETAILS

In the party, some features are more convenient for you and your friends to enjoy a comfortable and happy party time.

## Two Steel Shelves

## Multiple Hooks

## Bottle Opener

# CEILING HOOK

Built-in high-quality and sturdy ceiling hook for easily suspending a favorite chandelier or other bit of decor.

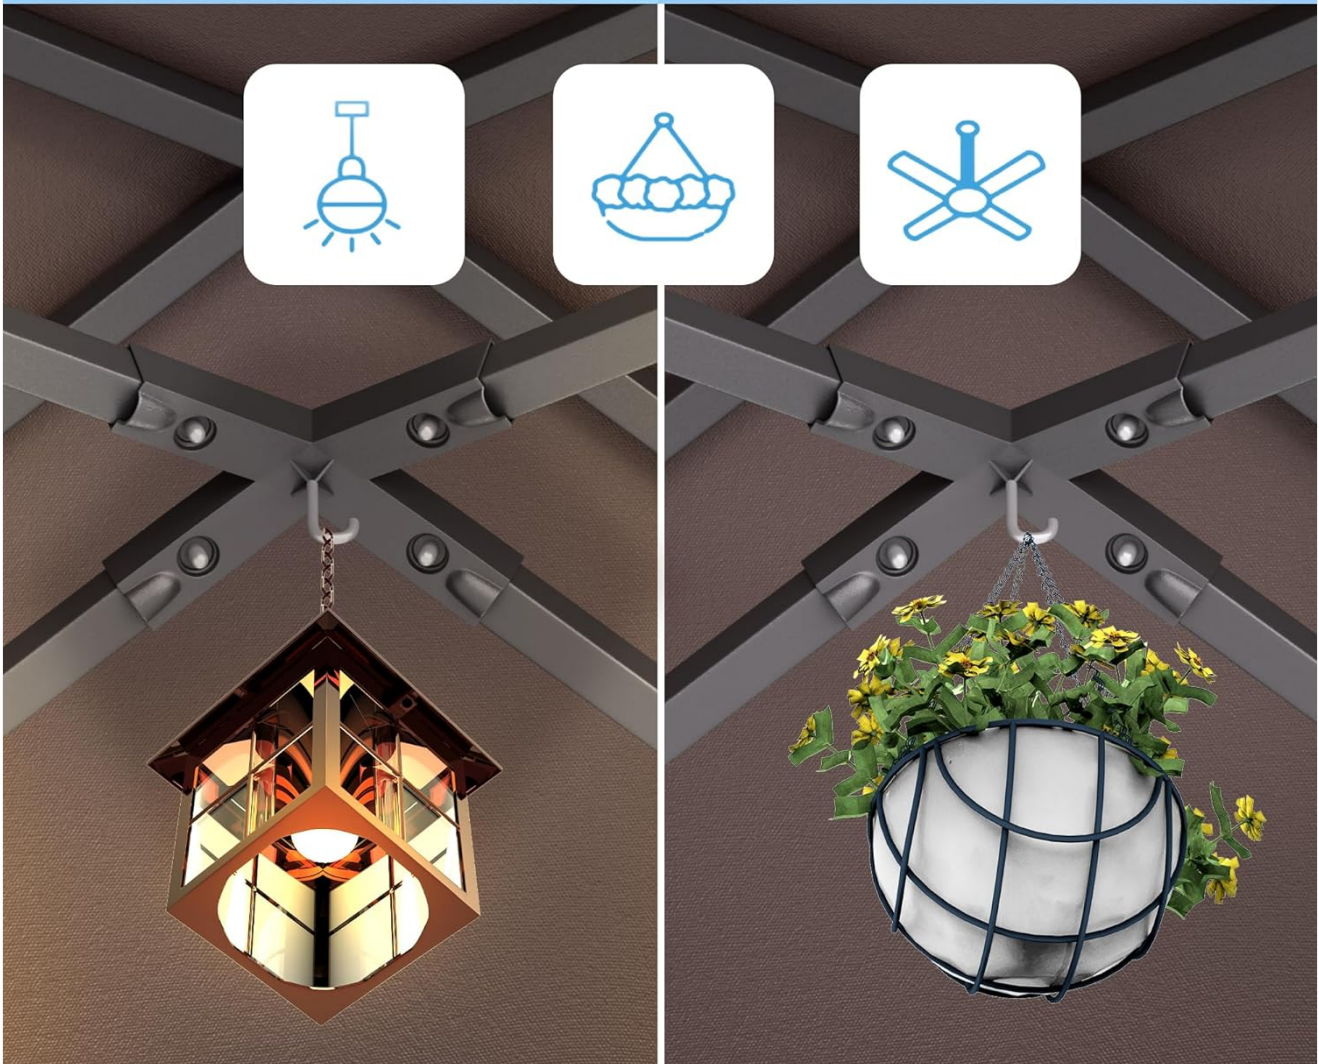

Image: Examples of items that can be hung from the built-in ceiling hook, such as a lantern or a potted plant, enhancing the gazebo's functionality and ambiance.

## 5. CARE AND MAINTENANCE

- **Cleaning the Canopy:** The polyester canopy fabric is easy to clean. Use a mild soap solution and a soft brush or cloth to remove dirt and stains. Rinse thoroughly with water and allow to air dry completely before storage. Do not use harsh chemicals or abrasive cleaners.
- **Frame Maintenance:** The heavy-duty powder-coated metal frame is rust-resistant. Clean the frame periodically with a damp cloth and mild soap. Inspect for any scratches or chips in the coating and touch up with rust-inhibiting paint if necessary to prevent corrosion.
- **Hardware Inspection:** Regularly check all screws, bolts, and connections to ensure they remain tight and secure. Tighten any loose hardware to maintain structural integrity.
- **Seasonal Storage:** For prolonged product life, especially in regions with harsh winters or extreme weather, it is recommended to disassemble and store the gazebo in a dry, protected area.
- **Weather Precautions:** Always remove the canopy fabric during strong winds, heavy snowfall, or other severe weather conditions to prevent damage to the canopy and frame.

## CLEAR WEATHER

Premium tarpaulin,  
upgraded waterproof

## RAINY DAY

You can also enjoy an  
outdoor barbecue on rainy days

Image: Comparison showing the gazebo's performance in clear weather with sun protection and its ability to provide shelter during rainy conditions due to its waterproof canopy.

## 6. TROUBLESHOOTING GUIDE

Problem	Possible Cause	Solution
Gazebo feels unstable or wobbly.	Not properly anchored; loose connections.	Ensure all ground stakes or sandbags are securely in place. Check and tighten all frame connections (thumb screws, bolts). Ensure the gazebo is on a level surface.
Canopy sags or collects water.	Canopy not stretched tightly; improper installation.	Re-adjust the canopy fabric to ensure it is taut across the frame. Verify that all canopy fasteners are securely attached. Ensure the roof frame is correctly assembled to maintain proper tension.

Problem	Possible Cause	Solution
Side awning does not stay in position.	Hydraulic rod not locked; extension pole not secured.	Ensure the hydraulic rod mechanism is fully engaged and locked at the desired angle. Check that the 3-level extension pole is properly secured.
Rust appears on metal frame.	Scratches in powder coating; prolonged exposure to moisture.	Clean the affected area and apply rust-inhibiting paint to prevent further corrosion. Ensure proper maintenance and consider seasonal storage in harsh conditions.
