

TYMO HC501P

TYMO ROTA Automatic Rotating Curling Iron

Model: HC501P

INTRODUCTION

Thank you for choosing the TYMO ROTA Automatic Rotating Curling Iron. This user manual provides essential information for the safe and effective operation of your new styling tool. Please read this manual thoroughly before first use and keep it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- Always unplug the appliance immediately after use.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- Keep away from water.
- This appliance is for household use only.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any opening or hose.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

- Do not use an extension cord with this appliance.
- The appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place the appliance on any heat-sensitive surface while operating.
- Always store the appliance in a location free from moisture.

PRODUCT OVERVIEW

The TYMO ROTA Automatic Rotating Curling Iron is designed for efficient and effortless hair styling. Below are the main components and their functions.

Image: The TYMO ROTA curling iron with hair being automatically wrapped around its barrel, demonstrating its rotating function.

- **Ceramic Barrel:** The heated surface that creates curls. Features T-GLOSS ceramic coating for smoother styling and reduced damage.
- **Rotating Mechanism:** Automatically wraps hair around the barrel with a press of a button.
- **Clamp:** A short clamp designed to secure hair ends for precise curling.
- **Temperature Control Buttons:** Adjust heat settings for different hair types.

- **Power Button:** Turns the device on/off and cycles through temperature settings.
- **Cool-Tip:** A non-heated tip for safe handling during styling.
- **Swivel Cord:** Prevents tangling during use.

KEY FEATURES

Rapid Styling

The TYMO ROTA heats up in just 30 seconds and can style each hair section in approximately 8 seconds, allowing for quick and efficient curling, ideal for long and shoulder-length hair.

Image: A visual comparison demonstrating the transformation from straight hair to voluminous curls, achievable in approximately 10 minutes.

Effortless Automatic Rotation

Designed for ease of use, the patented rotating mechanism eliminates the need for manual twisting and prevents hair tangling. Simply clamp, rotate, and release for consistent, flawless waves.

ONE TOUCH AUTO CURL

Say Goodbye To Manual Styling.

Advanced Hair Protection

Equipped with an upgraded T-GLOSS ceramic coating, the barrel is 2X smoother than standard plates, reducing friction and locking in curls for up to 24 hours. The integrated 40 million negative ions help combat frizz, leaving hair silky, smooth, and hydrated.

Optimized for Long Hair

This curling iron features an extra-long barrel, making it particularly effective for styling long hair and creating voluminous 1.25-inch beach curls. It offers 5 adjustable heat settings (260°F–430°F) to accommodate various hair types and textures, ensuring consistent heat distribution.

FULL-LENGTH CONFIDENCE

40% Extra Long Barrel, **5.5"** covers all.

Image: A hair length guide illustrating that the TYMO ROTA is designed for longer hair, from 10 to 26 inches, ensuring full coverage and effective styling.

Safety and Convenience

The TYMO ROTA includes an 8-second smart timer with a beep signal to indicate when to release the curl, an anti-tangle reverse function, a cool-tip for safe handling, and a 60-minute auto shut-off for peace of mind. Its dual voltage capability (100-240V) makes it suitable for international travel.

SETUP

1. **Unpack:** Carefully remove the curling iron and all accessories from the packaging.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.
3. **Plug In:** Insert the power plug into a suitable electrical outlet. Ensure the voltage is compatible (dual voltage 100-240V).

OPERATING INSTRUCTIONS

Follow these steps for optimal curling results:

1. **Power On and Select Temperature:** Press and hold the ON/OFF button for 2 seconds to turn

on the curling iron. Press the ON/OFF button repeatedly to cycle through the 5 temperature settings. The LED indicators will show the selected temperature.

2. **Pre-heat:** Allow the curling iron to heat up for approximately 30 seconds until the selected temperature is reached.
3. **Prepare Hair:** Ensure your hair is clean, dry, and detangled. For best results, apply a heat protectant spray. Section your hair into manageable strands.
4. **Curl Hair:**
 - Take a section of hair and open the clamp.
 - Place the very end of the hair section under the clamp.
 - Press and hold the Left or Right rotation button to automatically wrap the hair around the barrel. Release the button once the hair is fully wrapped or the desired curl position is achieved.
 - Hold for approximately 8 seconds (or until the smart timer beeps).
 - Open the clamp and gently release the curled hair.
 - Press the Reset button to return the clamp to its starting position for the next curl.
5. **Cool Down:** Allow curls to cool completely before styling or brushing to help them set and last longer.
6. **Power Off:** Press and hold the ON/OFF button for 2 seconds to turn off the curling iron after use. The device will automatically shut off after 60 minutes of inactivity.

Temperature Settings Guide

Temperature (°F)	Recommended Hair Type
260°F	Soft / Thin Hair
320°F	Thin / Fine / Bleached Hair
360°F	Dyed / Dark Color Hair
390°F	Normal / Slightly Curly Hair
430°F	Thick / Curly / Wavy Hair

Note: Always start with a lower temperature and gradually increase it until you find the right setting for your hair type. Use a heat protectant.

MAINTENANCE AND CARE

- **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** Store the curling iron in a cool, dry place, away from moisture. Do not wrap the power cord around the appliance, as this can damage the cord. Use the provided storage bag if available.
- **Cord Care:** Regularly inspect the power cord for any damage. If the cord is damaged, discontinue use immediately and contact customer support.

TROUBLESHOOTING

Problem: Burning smell during use.

Solution: The temperature setting may be too high for your hair type. Try starting with a lower temperature and gradually increasing it. Always use a heat protectant spray on your hair.

Problem: Curls do not last long on thin/fine hair.

Solution:

- Secure curls as they cool by cupping them in your hand or pinning them up immediately after releasing from the barrel.
- Once cooled, gently comb through curls with your fingers instead of a brush to maintain their shape.
- Finish with a light-hold hairspray to set the style.

Problem: Hair pulling or tangling.

Solution: Ensure hair sections are clean and detangled before curling. Do not attempt to curl too large a section of hair at once. The anti-tangle reverse function can help if hair gets caught.

Problem: Curling iron not heating up.

Solution: Check if the power cord is securely plugged into the outlet. Ensure the power button has been pressed and held for 2 seconds to turn the device on. If the issue persists, contact customer support.

SPECIFICATIONS

Feature	Detail
Model Number	HC501P
Dimensions	14.1 x 1.25 x 1.25 inches
Weight	2.67 Pounds
Barrel Material	Ceramic Tourmaline (T-GLOSS coating)
