VECELO KHD-LSB05-60T4-WHT

VECELO Stackable Storage Bins User Manual

Model: KHD-LSB05-60T4-WHT | Brand: VECELO

Introduction

Thank you for choosing the VECELO 20 Gallon Stackable Storage Bins. This 4-pack of plastic collapsible storage cabinets is designed to provide versatile and efficient organization solutions for your home or office. Featuring a foldable design, dual-opening doors, and integrated wheels, these bins offer convenience and durability for storing a wide range of items.

Safety Information

Please read all safety warnings carefully before assembly and use.

- Do not exceed the maximum load limit of 100 pounds per bin. Overloading can cause damage or injury.
- Be cautious of pinch points when opening and closing the doors and during assembly.
- For safety reasons, children should not climb on or play with the product. Adult supervision is required.
- This product is intended for home and office use only.

Package Contents

Verify that all components are present before beginning assembly:

- 4 x Foldable Storage Boxes
- 4 x Lids (integrated with top bin)
- Additional set of four swivel wheels (for optional use)

Assembly Instructions

The VECELO storage bins are designed for tool-free assembly. Follow these simple steps:

1. **Unfold the Bin:** Carefully unfold each storage box from its collapsed state. Ensure all side panels are fully extended and locked into place.

Figure 1: Folded and Unfolded Bin Dimensions. The image displays the bin in its compact, folded form and expanded, ready-to-use form, along with its length, width, and height measurements.

2. **Attach the Lid:** The lid is typically integrated or easily snaps onto the top of the unfolded bin. Ensure it is securely fastened.
3. **Install Wheels (Optional):** The bins come with built-in directional wheels. An additional set of swivel wheels is included for enhanced mobility. To install, simply snap the swivel wheels into the designated slots on the bottom of the bin.

Figure 2: Wheel Installation. This image highlights the two types of wheels: the universal swivel wheel and the fixed directional wheel, demonstrating how they attach to the bin's base.

4. **Stacking Bins:** To stack multiple bins, align the grooves on the top of the lower bin with the base of the upper bin. Gently lower the upper bin until it securely locks into place. The buckle design prevents slipping.

Figure 3: Stackable Configuration. This image illustrates how multiple bins can be stacked securely to create a customizable storage unit, showcasing different height options.

Figure 4: Buckle Design. A detailed view of the buckle mechanism located on the side of the bin, designed to interlock with other bins and prevent accidental slipping when stacked.

Operating Instructions

- **Accessing Contents:** The bins feature dual-opening doors. You can access items either by lifting the top lid or by opening the transparent double-hinged front door. The front door allows for quick identification and retrieval of contents without unstacking.

Figure 5: Dual-Opening Doors. This image illustrates the convenience of accessing items from both the top lid and the transparent front door, highlighting the ease of use.

- **Mobility:** Utilize the built-in directional wheels or the optional swivel wheels to easily move the storage cart to your desired location.
- **Folding for Storage:** When not in use, the bins can be easily collapsed to save space. Reverse the assembly steps to fold them flat for compact storage.

Figure 6: Free-Combination and Folding. This image demonstrates how the bins can be easily folded flat for storage and how multiple units can be combined or separated as needed.

Maintenance

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the plastic.
- **Storage:** Store the bins in a cool, dry place when not in use, especially if folded.
- **Inspection:** Periodically check for any signs of wear or damage, particularly on the hinges, buckles, and wheels.

Troubleshooting

Problem	Possible Cause	Solution
Bins not stacking securely.	Grooves not aligned or side panels not fully extended.	Ensure all side panels are locked into place and align the grooves precisely before lowering the upper bin.
Wheels not rolling smoothly.	Debris in wheels or improper installation.	Clean any debris from the wheels. Re-install wheels, ensuring they are fully snapped into place.

Problem	Possible Cause	Solution
Front door not closing properly.	Obstruction or hinge misalignment.	Check for any items blocking the door. Gently adjust the door to ensure hinges are aligned.

Specifications

Feature	Detail
Product Name	Foldable storage box with wheels
Color	White
Material	PP (Polypropylene)
Overall Dimensions (4-tier stacked)	23.8"L x 14"W x 53.5"H
Single Bin Capacity	20 Gallons (80 Quarts)
Weight Limit (per bin)	100 Pounds
Special Features	Foldable, Stackable, Dual-Opening Doors, Wheels (Directional & Swivel)
Included Components	4 Pack Storage box
Model Number	KHD-LSB05-60T4-WHT
