4. MAINTENANCE AND CARE

Proper care and maintenance will extend the life and appearance of your PUREMIND sectional couch.

4.1 General Care

- **Regular Cleaning:** Vacuum the sofa regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sunlight or use curtains/blinds.
- **Rotate Cushions:** Periodically rotate and fluff seat and back cushions to ensure even wear and maintain their shape.
- **Avoid Sharp Objects:** Keep sharp objects away from the fabric to prevent snags or tears.

4.2 Frame and Legs

- Periodically check that all screws and bolts are tight, especially after initial assembly and moving the sofa.
- Wipe wooden or plastic legs with a damp cloth as needed.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your sectional couch.

Problem	Possible Cause	Solution
Sofa feels wobbly or unstable.	Loose connections or uneven legs.	Ensure all assembly bolts are securely tightened. Check if legs are evenly screwed in and adjust if necessary.
Cushions appear flattened or lose shape.	Normal wear and tear; lack of fluffing.	Regularly fluff and rotate cushions to redistribute filling and maintain shape.
Fabric has minor snags or pulls.	Contact with sharp objects or pet claws.	Carefully trim loose threads with scissors. Avoid pulling. Protect fabric from sharp objects.
Difficulty moving or reconfiguring sections.	Sections are heavy or connections are tight.	Ensure no obstacles are present. Lift sections slightly when moving to avoid dragging. If connections are too tight, check alignment.
