## KEMIMOTO KM-5430-11

# KEMIMOTO 11L Motorcycle Side Bag Instruction Manual

Model: KM-5430-11

## 1. PRODUCT OVERVIEW

---

Thank you for choosing the KEMIMOTO 11L Motorcycle Side Bag. This durable and practical saddlebag is designed for motorcycle enthusiasts, offering ample storage and protection for your belongings during rides. Its waxed canvas construction provides excellent water repellency and fire resistance, making it suitable for various weather conditions and ensuring safety near exhaust systems.

### 3. SETUP AND INSTALLATION

Follow these steps to securely install your KEMIMOTO 11L Motorcycle Side Bag:

1. **Prepare the Bag:** Insert the provided PP sheet into the bottom of the side bag to maintain its shape and provide structural support.
2. **Position the Bag:** Place the side bag on your motorcycle's seat or side frame, ensuring it does not

interfere with moving parts or rider comfort. The 11L model is designed to be muffler-compatible.

3. **Attach with Fixing Belts:** Use the two main fixing belts to secure the bag to your motorcycle. Thread the belts through appropriate loops on the bag and around sturdy parts of your bike's frame or seat. Tighten them firmly to prevent movement.
4. **Secure with Webbing Tapes:** Utilize the four webbing tapes for additional stability. These can be used to cinch the bag tighter or attach it to other points on your motorcycle, such as passenger footpeg mounts or luggage racks.
5. **Auxiliary Fixing (Optional):** For extra security, especially on rough terrain or at high speeds, use the provided zip ties to further fasten the bag to your motorcycle's frame.
6. **Check Stability:** Before riding, gently tug on the bag in all directions to ensure it is securely mounted and does not wobble or shift. Adjust straps as necessary.

## 蠟引き帆布生地

### 疎水層処理

水は表面に凝縮し、  
内部に浸透しません。

### 優れる耐火性

直火による直接燃焼にも耐え、  
損傷がありません。

### 滑り止めと耐火性

マフラーからの熱波攻撃  
からも保護できます。

## 4. OPERATING INSTRUCTIONS

---

The KEMIMOTO 11L Side Bag is designed for ease of use and quick access to your items.

### 4.1. Accessing Main Compartment

The main opening of the bag features a zipper-less design, secured by buckles. Unfasten the buckles and lift the flap to access the spacious 11L main compartment. This design allows for quick and easy loading and unloading of larger items.

### 4.2. Using Side Open Feature

For convenient access to items stored in the middle or bottom of the bag without disturbing the entire contents, utilize the side-open feature. This allows you to retrieve specific items efficiently.

# 最高の撥水性

水は表面に凝縮し、内部に浸透しない

Image 4.1: The side bag is shown with its main flap open, revealing the spacious interior. A separate image highlights the side zipper, allowing access to contents without fully opening the top.

## 4.3. Side Pockets

The bag includes external side pockets, ideal for storing small items such as keys, earphones, handkerchiefs, or other essentials you need to access quickly.

## 5. MAINTENANCE

---

Proper care will extend the life and performance of your KEMIMOTO side bag.

### 5.1. Cleaning

The waxed canvas material is inherently water-repellent. For general cleaning, wipe the exterior with a damp cloth. For stubborn dirt, a soft brush and mild soap can be used, followed by rinsing and air drying. Avoid harsh chemicals or machine washing, as this can damage the wax coating.

## 5.2. Waterproofing

The waxed canvas provides excellent water repellency, causing water droplets to bead up and slide off. For prolonged exposure to heavy rain, always use the included rain cover to ensure your belongings remain completely dry.

Image 5.1: A motorcycle equipped with KEMIMOTO side bags is shown in rainy conditions, illustrating how water beads and runs off the bag's surface due to its water-repellent properties.

## 5.3. Fire Resistance

The material's surface offers superior fire resistance compared to traditional leather bags, reducing the risk of damage from accidental contact with hot mufflers. However, direct and prolonged contact with extreme heat sources should still be avoided to prevent potential damage.

## 実用性が高い

### 大開口

ジッパーのないデザインで、荷物を取り出しやすいです！

### サイドオープン

中部に荷物の状況を崩さずに中部から必要な荷物の出し入れが可能です！

Image 5.2: Detailed views of the bag's waxed canvas fabric, highlighting its water-repellent surface where water beads, and a texture shot demonstrating its durable, fire-resistant weave.

## 6. TROUBLESHOOTING

If you encounter any issues with your KEMIMOTO side bag, please refer to the following common concerns:

- **Bag Instability:** Ensure all webbing tapes and fixing belts are securely tightened and properly routed

around your motorcycle's frame. Use the auxiliary zip ties for added stability if needed.

- **Water Penetration:** While the waxed canvas is water-repellent, for heavy rain, always use the provided rain cover. Check that the rain cover is correctly fitted and covers all openings.
- **Muffler Contact:** Although the 11L bag is designed to be muffler-compatible and features fire-resistant material, ensure there is adequate clearance between the bag and hot exhaust components. Adjust mounting position if necessary to prevent prolonged direct contact.
- **Damaged Components:** If any part of the bag or its accessories appears damaged or defective upon arrival or during use, please refer to the warranty information in Section 8.

## 7. SPECIFICATIONS

---

Feature	Detail
Brand	KEMIMOTO
Model Number	KM-5430-11
Capacity	Approximately 11 Liters
External Dimensions (L x W x H)	380mm x 150mm x 210mm
