- **Regular Vacuuming:** Vacuum the upholstery regularly using a soft brush attachment to remove dust and debris.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of the fabric. Position the chaise lounge away from direct sun exposure or use curtains/blinds.
- **Fluffing:** Periodically fluff the cushions and pat the foam to maintain its shape and comfort.
- **Do Not Machine Wash:** The upholstery is not designed for machine washing.

TROUBLESHOOTING

If you encounter any issues with your chaise lounge, please refer to the following common solutions:

Problem	Solution
Chaise lounge appears compressed or not fully shaped.	This is normal after shipping. Lightly pat the foam and allow up to 72 hours for the chaise lounge to fully expand and regain its intended shape and firmness. Ensure good air circulation around the product.
Fabric appears wrinkled.	The chenille fabric is wrinkle-resistant. Minor wrinkles from packaging should smooth out over time as the foam expands. Gentle steaming (from a distance) can help, but avoid direct heat.
Unstable or wobbly.	Ensure the chaise lounge is placed on a completely flat and level surface. Check for any debris underneath that might cause unevenness.
