TITIMO Grill Gazebo

TITIMO Grill Gazebo with Side Awning Instruction Manual

Model: Grill Gazebo

1. Introduction

Thank you for choosing the TITIMO Grill Gazebo. This multi-functional grill canopy is designed to enhance your outdoor experience, providing shade and convenience for barbecues, gatherings, or simply relaxing. It features a robust metal frame, a double-tiered canopy for ventilation, and practical amenities like side shelves, hooks, and a bottle opener. This manual provides essential information for the safe assembly, operation, and maintenance of your gazebo.

2. Safety Information

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Secure Anchoring:** Always ensure the gazebo is securely anchored to the ground using the provided ground stakes or expansion bolts. Do not use in high winds or severe weather conditions.
- **Weather Conditions:** Disassemble or secure the canopy during strong winds, heavy rain, or snow to prevent damage to the structure and potential hazards.
- **Fire Safety:** Keep all open flames, heat sources, and barbecue grills at a safe distance from the canopy fabric to prevent fire. Ensure adequate ventilation when using a grill under the gazebo.
- **Assembly:** Adult assembly is required. Follow all assembly steps carefully. Do not allow children to climb on or play with the gazebo.
- **Weight Limits:** Do not hang excessively heavy items from the frame or ceiling hook. Refer to the specifications for weight limits if provided.
- **Inspection:** Regularly inspect all components for wear, damage, or loose connections. Replace damaged parts immediately.

3. Setup and Assembly

Assembly of the TITIMO Grill Gazebo requires careful attention to detail. It is recommended that two adults perform the assembly. Please ensure all parts are present before beginning.

3.1 Unpacking and Part Identification

Carefully unpack all components and lay them out. Refer to the included parts list to identify each piece. Do not discard packaging until assembly is complete and satisfactory.

3.2 Frame Assembly

Begin by assembling the main metal frame. Connect the poles using the precise connectors, ensuring all bolts are tightened securely but not over-tightened until the entire frame is upright. The high-quality metal frame is designed for durability and stability.

3.3 Canopy Installation

Once the frame is assembled, install the double-layered polyester fabric canopy. Ensure the canopy is properly aligned and secured to the frame. The double-layer design allows for ventilation and airflow, while the fabric provides waterproof and sunproof protection.

Figure 1: Product Dimensions. This diagram illustrates the overall dimensions of the gazebo, including height, width, and depth, to assist with placement and understanding the structure.

3.4 Ground Anchoring

For optimal stability, especially in outdoor conditions, secure the gazebo to the ground. The product includes two types of ground stakes: extended ground spike insertion for soft ground like grass, and expansion bolt reinforcement for hard surfaces like concrete or decking. Select the appropriate method based on your ground conditions.

Figure 2: Ground Stakes. This image demonstrates the two types of ground stakes provided: extended ground spikes for soft ground and expansion bolts for hard surfaces, ensuring secure anchoring.

4. Operating Instructions

The TITIMO Grill Gazebo is designed with several features for convenience and functionality.

4.1 Adjustable Side Awning

The gazebo features a foldable side awning with an air rod structure. To adjust the awning, extend or retract the support brackets as needed. This allows you to increase the shaded area or lower the awning to provide protection against wind or light rain. The air bar design facilitates easy operation.

Figure 3: Adjustable Awning. This image illustrates the adjustable side awning in both extended and retracted positions, highlighting its flexibility for sunshade and weather protection.

4.2 Side Shelves and Hooks

Utilize the two integrated metal storage shelves for placing barbecue essentials, drinks, or other items. The six metal hooks are ideal for hanging grilling utensils, towels, or other kitchenware, keeping them within easy reach during outdoor cooking.

4.3 Bottle Opener

A convenient bottle opener is integrated into the structure, making it easy to open beverages during your outdoor gatherings.

Figure 4: Multi-Function Storage. This image details the practical side shelves, six item hooks, and an integrated bottle opener, designed for convenient storage and accessibility during use.

4.4 Ceiling Hook

A heavy-duty ceiling hook is provided at the center of the gazebo. This hook can be used to hang lamps, fans, or decorative items, allowing for customization of your outdoor space.

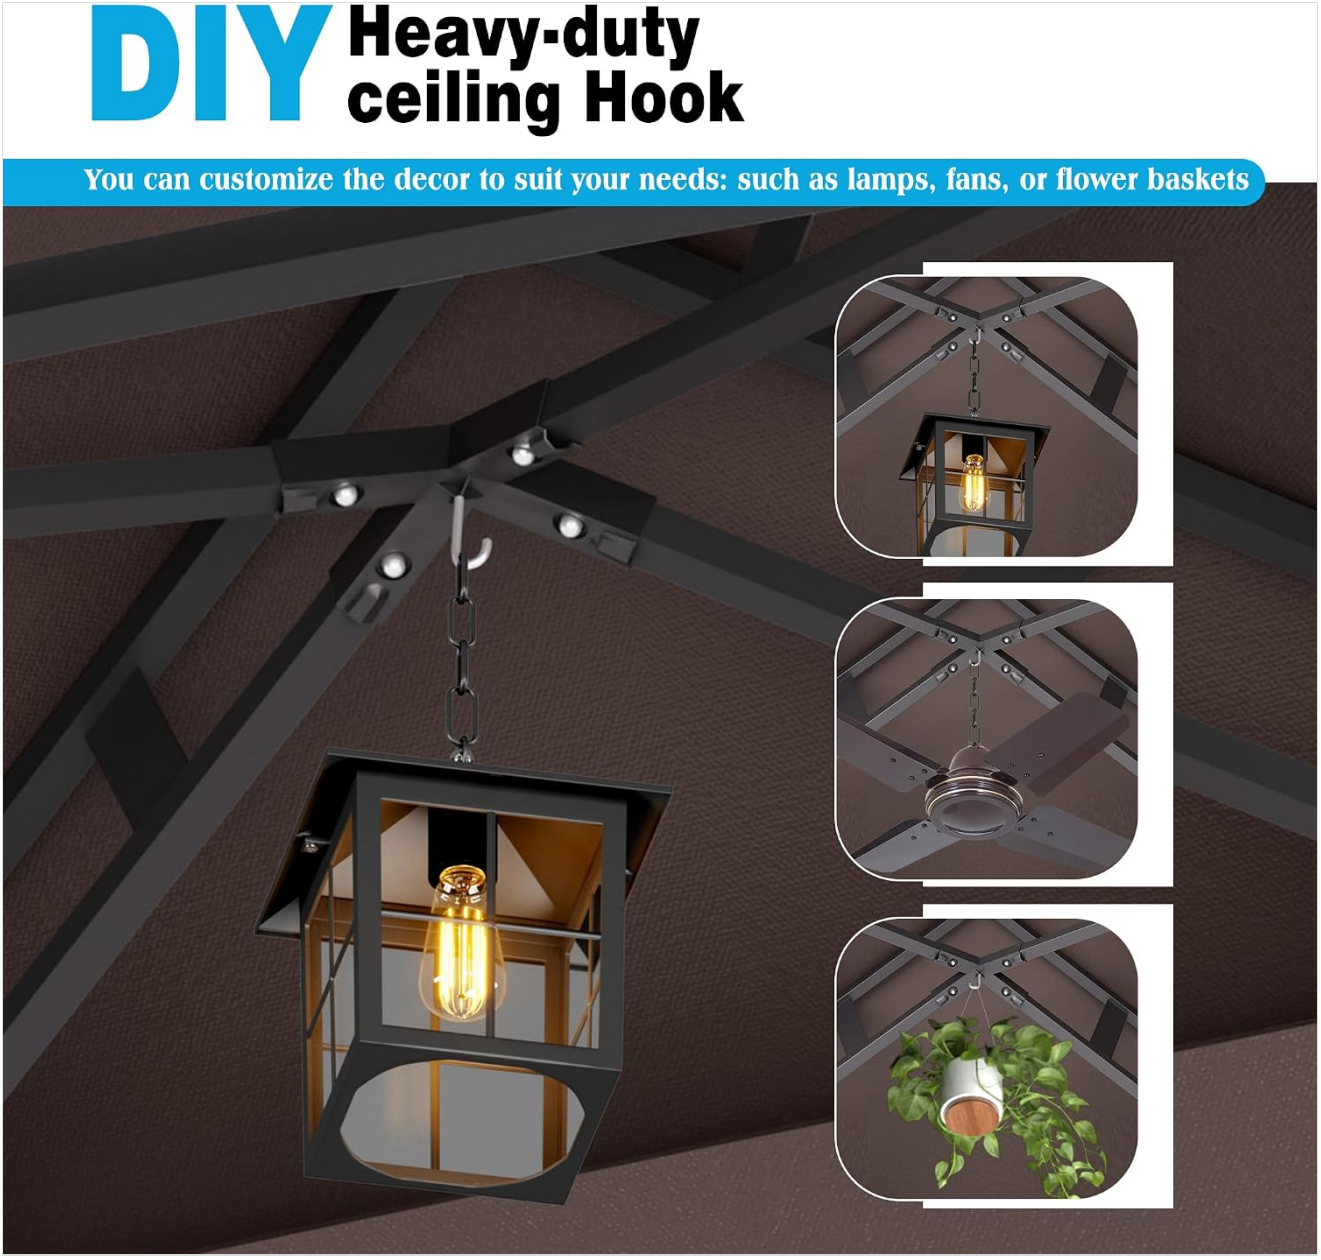

Figure 5: Ceiling Hook. This image highlights the heavy-duty ceiling hook, suitable for hanging lamps, fans, or other decorative elements to personalize your gazebo.

4.5 Ventilated Double-Tiered Canopy

The double-tiered roof structure is designed to ensure adequate air circulation, reducing heat buildup and providing stability against wind gusts. The polyester fabric is UV resistant, waterproof, and features convenient canopy snaps for secure attachment.

Figure 6: Ventilated Canopy. This image illustrates the double-tiered canopy design, emphasizing its ventilation, UV resistance, waterproof properties, and convenient canopy snaps.

5. Maintenance

Regular maintenance will prolong the life and appearance of your TITIMO Grill Gazebo.

- **Cleaning the Canopy:** Clean the polyester fabric canopy periodically with mild soap and water. Rinse thoroughly and allow to air dry completely before storage or prolonged use. Do not use harsh chemicals or abrasive cleaners.
- **Frame Care:** The metal frame is treated with a rust-resistant coating. Inspect the frame regularly for any signs of rust or damage. Touch up any scratches with appropriate outdoor metal paint to prevent rust.
- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they remain tight. Re-tighten if necessary.
- **Winter Storage:** In areas with heavy snow or prolonged freezing temperatures, it is recommended to disassemble and store the canopy and frame indoors to prevent damage.

6. Troubleshooting

If you encounter issues with your gazebo, refer to the following common troubleshooting tips:

- **Gazebo feels unstable:** Ensure all frame connections are securely tightened. Verify that the ground stakes or expansion bolts are properly installed and firmly anchored into the ground.
- **Canopy sags or collects water:** Check that the canopy fabric is stretched taut and evenly distributed over the frame. Ensure all canopy snaps are securely fastened.
- **Side awning not extending/retracting smoothly:** Inspect the air rod structure for any obstructions or damage. Ensure the support brackets are clean and free of debris. Apply a silicone-based lubricant if necessary.
- **Rust appearing on frame:** Clean the affected area thoroughly and apply a rust-inhibiting primer followed by an outdoor-grade metal paint.

7. Specifications

Feature	Detail
Brand	TITIMO
Model Number	Grill Gazebo
Material	Metal, Polyester
Style	Modern
Product Dimensions (L x W x H)	98.4" x 92.5" x 95.7" (8'2" x 7'8" x 7'11.7")
Item Weight	45.1 Pounds
Frame Material	Metal
Water Resistance Level	Water Resistant
Shape	Rectangular
UV Protection	Yes
Assembly Required	Yes
Color (as reviewed)	Brown

8. Warranty Information

Specific warranty details for the TITIMO Grill Gazebo are not provided in the product information. Please refer to your purchase documentation or contact the seller directly for information regarding warranty coverage and terms.

9. Customer Support

For any questions, missing parts, or assistance with assembly or operation, please contact the seller or manufacturer directly. Refer to your purchase receipt or the product packaging for contact information.
