Tubo Bath Filter 2.0 User Manual

The Original 8 Stage Bath Water Filter for Tub Faucet

PRODUCT OVERVIEW

The Tubo Bath Filter 2.0 is an advanced 8-stage bath water filtration system designed to provide cleaner and gentler bath water. It effectively removes up to 99% of chlorine, heavy metals, and other harmful contaminants, supporting healthier skin and hair, especially for sensitive individuals. Its upgraded design prevents overflow, ensuring a safe and easy bathing experience.

WHAT'S IN THE BOX

Upon opening your Tubo Bath Filter 2.0 package, you should find the following components:

- Tubo Bath Filter Unit
- Screws (for optional securement)
- Teflon tape (for sealing connections)
- Instruction Manual (this document)
- Two Velcro clips (for easy installation on various faucets)

SETUP AND INSTALLATION

The Tubo Bath Filter 2.0 is designed for hassle-free installation on most standard tub faucets. No special tools are required for basic setup.

1. **Prepare the Faucet:** Ensure your tub faucet is clean and dry where the filter will attach.
2. **Attach Velcro Clips (Optional but Recommended):** If your faucet allows, attach one of the provided Velcro clips to the underside of your faucet spout. Remove the sticker to reveal the sticky side and press firmly. This helps secure the filter.
3. **Position the Filter:** Place the Tubo Bath Filter 2.0 directly under your tub faucet spout. The handle of the filter should align with the faucet.
4. **Secure the Filter:** If using the Velcro clips, press the filter firmly against the attached clip to secure it. The filter's design allows it to hang securely from most standard tub faucets.
5. **Test for Leaks:** Slowly turn on the water to a low flow to check for any leaks. Adjust the filter's position if necessary.

A NATURAL SOLUTION

Helps soothe sensitive skin and protect it from harmful chemicals and contaminants

OPERATING INSTRUCTIONS

Once installed, operating the Tubo Bath Filter 2.0 is straightforward:

- **Filling the Tub:** Turn on your tub faucet as you normally would. The water will flow through the filter unit before entering the tub.
- **Water Flow:** The filter is designed to handle strong water pressure while preventing overflow, ensuring all water passes through the 8-stage filtration system.
- **Filtration Process:** The 8-stage system, including KDF 55, Carbon Ball, Zeolite Ball, Calcium Sulfite Ball, Magnetic Energy Ball, VC Ball, Mineralized Ball, and Tourmaline Ball, works to purify the water as it flows.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Tubo Bath Filter 2.0.

- **Filter Replacement:** The filter cartridge is replaceable. While the exact lifespan depends on water quality and usage, it is recommended to replace the filter when you notice a decrease in water flow or filtration effectiveness. Replacement filters can typically be purchased from the manufacturer's website.
- **Cleaning:** Periodically clean the exterior of the filter with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Storage:** If storing the filter for an extended period, ensure it is thoroughly dried to prevent mold or mildew growth.

Soothe and protect

A gentle bath solution for delicate skin

TROUBLESHOOTING

Problem	Possible Cause	Solution
Filter does not stay in place.	Velcro clips not properly attached or insufficient adhesion.	Ensure the faucet surface is clean and dry before applying Velcro. Press firmly for secure adhesion. If clips are worn, new ones may be needed.
Water flow is slow.	Filter cartridge may be clogged or nearing end of life.	Replace the filter cartridge. Ensure the faucet's water pressure is adequate.
Water is overflowing from the filter.	Extremely high water pressure or improper positioning.	The Tubo 2.0 has an anti-overflow design. Ensure the filter is correctly positioned directly under the faucet spout. If water pressure is excessively high, slightly reduce the flow from the faucet.
Water quality does not seem improved.	Filter cartridge is exhausted or incorrect installation.	Replace the filter cartridge. Verify that the filter is installed correctly and all water is passing through it.

SPECIFICATIONS

- **Product Dimensions:** 4.7"L x 5.5"W x 4.7"H (11.9 cm x 14 cm x 11.9 cm)
- **Item Model Number:** 7d096829-8cd8-489a-a49c-517e0b4e0582
- **Weight:** 1.12 Pounds (approx. 0.51 kg)
- **Manufacturer:** Tubo
- **Purification Method:** Activated Carbon (multi-stage filtration system)
- **Power Source:** Water Pressure
- **Package Information:** Dispenser

WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please refer to the documentation included with your purchase or visit the official Tubo website. Contact details for customer service are typically provided on the product packaging or the manufacturer's online portal.
